THE CIVIL DIGEST

(1911—1923)

VOL. IV.

MADRAS CANAL AND PUBLIC FERRIES ACT (II of 1890).

——S 19—*Ferry contractor's servant — Levy of toll—Presumption.*

The fact that the ferry contractor's servant levied excessive toll does not give rise to a presumption of the contractor's guilty connivance at the exaction made. (*Ayling, J.*) EMPEROR *v.* ARUMUKHAM PILLAI. **13 Cr. L. J 124 : 13 I. C. 780 : (1912) M. W. N. 69.**

MADRAS CITY CIVIL COURTS ACT (VII of 1892).

——S. 3—*Ejectment Suit—Jurisdiction of Small Cause Court and City Civil Court—Pres. Sm. C. C Act, S. 41.*

A suit in ejectment is not excluded from the cognizance of the City Civil Court, Madras, simply because an application to eject the tenant could be filed in the Small Cause Court. 22 M. 256; 38 Bom. 309 ; 4 L W. 402, Ref. (*Coutts Trotter and Ramesam, JJ.*) DORAISWAMI AIYANGAR *v.* NARAYANA AIYANGAR **16 L. W. '37 : (1922) Mad. 445 : (1922) M. W. N. 462: 43 M. L. J. 288.**

MADRAS CITY MUNICIPAL ACT (V OF 1878).

——Ss. 33 and 52—*Rules under S. 413—Sp. Rel. Act, S. 45.*

Where an objection against the inclusion of the applicant's name in the list of candidates for election was allowed, but the name was not directed to be struck off, *held*, that an application lies under S. 45 of Sp Rel. Act praying for the continuance of his name in the list. (*Bakewell, J.*) VIJIARAGHAVALU PILLAI, *In the matter of.* **24 I. C. 134 : 26 M. L. J. 310.**

——S. 58—*President of Corporation—Power of, to appoint and dismiss servants.*

The Officers of the Madras Corporation hold their office at pleasure. The President can appoint and dismiss subordinate officers and the latter have no cause of action against the Corporation for the dismissal. No notice or framing of a charge is necessary before dismissing a person holding office at pleasure. (*Wallis, C. J. and Oldfield, J.*) CHELLAM AIYAR *v.* CORPORATION OF MADRAS. **42 I. C. 513 : 6 L. W. 284.**

MADRAS CITY MUNICIPAL ACT (V OF 1878), S. 188.

——S. 104—*Profession tax—Basis of tax—Powers of High Court in appeal.*

In appeals from orders imposing a profession tax, the High Court can consider the circumstances of the case and say whether the basis of the imposition of profession tax is right or not. (*Turner, C. J. and Kindersley, J.*) SUNDARAM SASTRI *v.* PRESIDENT OF MUNICIPAL COMMISSION, MADRAS. **22 I. C. 237 : (1913) M. W. N. 932.**

——S. 150—*Applicability—Possession without use—Construction of section.*

S. 150 governs the possession of a vehicle without use. So a Motor Car under repair can be taxed though not in the owner's possession. The words 'let out for hire' 'kept' and 'used' are distinctly used. The words 'for hire' do not qualify the word 'kept'. (*Ayling and Napier, JJ.*) KRISHNA ROW *v.* PRESIDENT OF THE CORPORATION OF MADRAS. **40 Mad. 545 : 5 L. W. 121 : 35 I. C. 581 : 32 M. L. J. 99.**

——S. 172—*Revision of assessment—Application for—Who should hear.*

According to the section, ordinarily and always one of the Commissioners hearing an application for revision of assessment should be resident in or representative of the division in which the applicant resides or carries on business or the property assessed is situate. (*Benson and Sundara Aiyar, JJ.*) NARAYAN RAO *v.* PRESIDENT OF THE CORPORATION OF MADRAS. **17 I. C. 945 : 23 M. L. J. 591.**

——S. 176 and Sch. V, Class III—"*Dealer of every description*"—*Money-lender, if—Question of law.*

Whether a money-lender is within the phrase "Dealer of every description" in Cl. (3), Sch. 5 of the Act is a question of law under S. 176 of the Act. (*Sadasiva Aiyar, J.*) SWAMI CHETTY *v.* CORPORATION OF MADRAS. **14 Cr. L. J. 47 : 18 I. C. 271 : 23 M. L. J. 591.**

——Ss. 188 (1) and 150—*Omission to pay tax or to appeal—Plea of non-liability to tax.*

A person prosecuted under S. 188 of the Act for failure to pay tax within the prescribed period after service of notice cannot plead non-liability if he has not appealed to the standing

——Ss. 224, 427 and 443 -*Latrine—Meaning of—Requisition to execute work—Default—Liability—Omission to appeal.*

The word "latrine" includes water closet and conveniences with water connections. If a work or alteration is not completed within fourteen days, because the period is not reasonably sufficient for the purpose, the person concerned has committed no offence nor is there any Civil liability. (1918) 1 Ch. 62 Foll Though a party fails to appeal to the standing committee under S. 22 (1) he can defend a suit instituted against him under S. 443 of the Act. (*Wallis, C. ——S 247—*Object of—Construction—Power of corporation*

The powers given by S. 247 are for the purpose of promotion of the health, safety and convenience of the public and should be strictly construed. The Corporation by their purchase of a house abutting on a private street do not acquire for the public any further right than that of access to the house as an easement of necessity as had been previously enjoyed and the owner of the private street is entitled to restrain the public from trespassing to the same extent to which he was before entitled. Where a person put up stones to demarcate true limits of his private street, just at the place where it abutted on a public street, it is an obstruction within the meaning of S. 247 and therefore the Corporation can demand its removal. Such an order unfortunately happens to be an encroachment on the usual right of an owner to put a fence. (*Wallis, C. J. and Phillips, J.*) RUDRAPPA ACHARY *v.* CORPORATION OF MADRAS.
34 I. C. 735 : (1916) 1 M. W. N. 394.

——Ss. 262 and 325—*License to keep a timber depot—Erection of sheds.*

A license under S. 325 of the City Municipal Act to keep a timber depot does not cover the permission required under S. 262 to erect a shed necessary therefor. The President must fix the period for which and the boundaries over which the shed is to be erected. 42 Mad. 7. Foll. (*Spencer and Krishnan, JJ.*) NADAMUNI NADAR, *In re.*

——Ss. 262 and 420—*Erection of pandal—Offence—"Shall be made"—Meaning of.*

The expression "shall be made" in S 262 means only shall be constructed and not shall be composed of, and the mere existence of a pandal with inflammable materials does not, where there onno evidence that the accused constructed it, csestitute an offence. ——S. 366—*Small-pox patient—Order for removal of—To Isolation Hospital—Disobedience—Offence.*

Before the removal of a person can be ordered by the Health Officer under S. 366 of the Municipal Act (1904), the officer has to be satisfied not only that a person is suffering from an infectious disease but also that the infected person has no proper lodging or is lodged in a place which is occupied by more than one family. The person against whom such an order is observed must be given an option of removing to the Isolation hospital or to some other proper place. The prosecution must make out not only that there has been disobedience to the order of the Health Officer but also that the disobedience was unlawful and negligent and had also the effect of spreading the disease. ——S. 409 (19)—*By-law 177—"Food"—Meaning of—Aerated waters, if food.*

The term "food" does not include drinks and so a man found selling unwholesome aerated waters is not guilty of an offence under S. 409 (19) of the Act. (*Ayling and Hannay, JJ.*) EMPEROR *v.* GANAPATHY AIYAR.

——S. 413—*Rules under—R. 5—Presidency Magistrate—Order of revision by High Court.*

A Presidency Magistrate authorised under R. 5 of S. 413 to make inquiries and decide the fitness of a candidate for election to a municipal Council is not a Court subject to the High Court and the latter cannot interfere in revision with his order. He is a referee between the President of the Municipal Council and the candidate. (*Ayling and Seshagiri Aiyar, JJ.*) VIJIARAGHAVALU PILLAI *v.* EMPEROR.

——**(IV OF 1919.)**

——**S. 288** -*Permission to use machinery—License fee -- Onus on municipality to prove nature of machine.*

Permission granted under S. 288 of Act IV of 1919 for the use of a machinery is distinct from permission required for erecting it in payment of license fee is necessary for both purposes. The onus is on the municipality to show that the machinery makes such noise or vibration as amounts to a nuisance to the neighbourhood and also that it is dangerous under the last part of S 288 (1). In a prosecution for non-payment of license fee, the fact that the accused did not appeal to the standing committee does not estop him from objecting the validity of the imposition. ———S. 35—*Court of Wards — Powers of— Hindu widow proprietrix.*

'Property' in S. 35 means moveable and also immoveable property itself and not the interest only of a ward widow therein. Powers of Court of Wards under the Act are not limited but absolute and they can sell the entire property, not merely the ward's limited estate. (*Wallis, C J. and Burn, J.*) N. ———Ss. 37 and 41—*Notification of claim— Failure—Interest—Revival.*

The person having pecuniary claims against the estate under Court of Wards must himself or through agent, notify his claim to the collector and should not rely on the notification made by any other person. The claim for interest in the estate must be revived after the estate is handed over to the Ward. (Per *Oldfield, J.*) According to S. 41 the Court of Wards should not only discharge the debts during its tenure but should also reduce the amount of debts still due. S. 41 postpones unnotified debts to those notified under S 38 (1) of the Act even after the Court has passed the estate to the Ward. (Per *Krishnan, J.*) This is not a permanent injunction. A creditor disabled to enforce his debt, during the tenure of Court of Wards. is not necessarily disabled after the cessation of Court's tenure. ——S. 59—*Release by the Court of Wards of an estate—Appointment of guardian—Powers of guardian—"Property of the minor", meaning of—Trust property not included—Direction for taking accounts trust property by the District Court, validity of— Consent of parties cannot give jurisdiction.*

Where on the withdrawal by the Court of Wards from the management of an estate, a guardian is appointed for the property of the Ward under S. 59 of the Act, such guardian has authority only over the property of the Ward over which the Ward has beneficial interest and not over the properties of a religious institution of which the Ward happens to be a trustee. The expression "property of the minor" in S. 59 of the Court of Wards Act has reference only to the property of which the minor is owner. Where the District Court gives directions to such a guardian appointed under S. 59 of the Act for the examination of the accounts of trust property a commissioner and for the checking of the collections in a temple of which the Ward is a trustee, such directions are beyond the powers of the District Court. The District Court which is incompetent to deal with the matter cannot acquire any jurisdiction by the consent of the parties. 36 Cal. 193 at p. 206 : 16 C. L. J. 77 and 36 Mad. 39 Ref. ——Ss. 18 and 28—*Chairmen, election of—Candidate presiding over his own election meaning of "chairman" "Taking part in a ballot"—Meaning of.*

Rule 4 of the rules for election of chairmen of Municipalities under the Madras District Municipalities Act, provides that a candidate for the post of a chairman of a municipality cannot preside or act as a returning officer at an election meeting in which his name has been proposed and seconded. The reason for this rule is that a man cannot be allowed to judge his own cause. The phrase "taking part in a ballot" in rule 4 is not restricted to the mere act of voting, but applies both to the act of presiding and acting as a returning officer.

The word "chairman" in S. 28 includes "chairman delegate" whom a chairman appoints under S. 18, when he cannot act as a chairman. Rule 11 of the rules for the decision of election Municipal disputes, provides that the party trying to have the election set aside must prove that not only the rules were not complied with but that by such non-compliance the results of the election were materially affected.

A Subordinate Judge while dealing with an election concern under the Madras Municipal Election Rules sits as a Court, subordinate to the High Court and the latter Court can interfere in revision under S. 115, C. A shipping company registered at Glasgow was represented by an agent in Madras where they paid professional taxes. The company was represented by another agent at Cocanada, and this agent's functions were to negotiate for shipment of cargo and receive payments by commission but the shipping arrangements were made by the agent at Cocanada through the agent at Madras and the booking space was made by the latter's order but bills of lading were signed by the agent at Cocanada. *Held*, that from the substance of the matter it appeared that the agent at Cocanada did not act independently but his actions were controlled by the agent at Madras and therefore the company was not liable to pay profession taxes at Cocanada, and that a bill of lading which is only an evidence of the contract of affreightment cannot be regarded as the contract itself. When a company is paying profession tax at a place where it has its head office, it need not pay such tax at any other place. where it carries on a subsidiary business through an agent acting not independently under instructions from the head office A merchant does not exercise his trade in every place where he has customers. ——Ss 172 and 173—*Misfeasance—Liability of Municipality for—Gravel negligently thrown on public road—Injury—Damage—Negligence of contractor—Effect of.*

It is the duty of Municipalities to lay and maintain roads so that the public may pass over them safely and they are not liable for the injuries resulting to the public through the negligent or improper performance of that duty. The liability of statutory bodies for negligence is not based on whether a profit is derived by the levy of a cess or toll from the public. The question whether it gives them an income over expenditure is not a criterion for enforcing liability. Municipalities in India do not act in the exercise of sovereign power as agents of the State in paying or maintaining roads (1915) M. W. N 39, Dist. In the case of statutory bodies entrusted with the performance of public trusts, their liability cannot be shifted on to a contractor employed by them for a particular purpose. They may bargain with the contractor that he shall perform the duty and stipulate for an indemnity from him if it is not performed. But they are not thereby themselves relieved from liability to those injured by the failure to perform it. The public have a right to use the full breadth of a public road and any obstruction to such use amounts to misfeasance.

Per *Napier, J.*—S. 173 of the Madras Dt. Municipalities Act does not apply to the case of a contractor executing repairs to the road under the orders of a Municipal Council.

The accused was convicted and sentenced for the offence of storing and selling grain wholesale within the Cannanore Municipal limits without the license of the Municipal Chairman under Ss. 249 and 338 (b) of the Madras District Municipalities Act V of 1920 contrary to a notification issued in July 1920 by the Municipal Council constituted under the repealed Act of 1884 purporting to act under S 249 of the new District Municipalities Act V of 1920, some 2 months before the new

Act was put in force. On revision, *held*, that the notification was not a valid one under the new Act because the Council purported to act before the new Act came into force and the notification was therefore invalid and consequently accused was not guilty of the offences under the new Act. The fact that the petitioner was in no way prejudiced is immaterial when the question arises in connection with the application of a penal provision as a strict construction of the law is required in such a case. The notification cannot be supported as a "rule" "by law" or "regulation" under the proviso to S. 305 of the new Act, as the conditions requisite for that purpose are not satisfied. If the plff. claimed to hold the land free from the payment of assessment he must show some grant exempting him from such payment. The Govt. order conferring an absolute property and all transferees from a Municipality simply removed all the objections to the transfer on the ground that the transferer is a Municipal Council and did not exempt the transferee from payment of revenue. MADRAS ESTATES LAND ACT (I OF 1908), S. 3.

An inam within the ambit of the Pittapur Estate was granted by the then Zamindar of Pittapur to the plaintiff's ancestors under a sanad and a cheku nama dated 22-6-1800. The grant was made free of kattubadi and purported to be sarvadumbala or absolute. The plaintiff assigned an interest in his holding to 1st defendant under a document dated 20-1-13 and described as a (Thirmanam document) which provided that, in accordance with a prior agreement, the property which had been placed in 1st defendants possession in 1910-11, should remain in it until the end of the year 1917-18 in consideration of a cash payment of Rs. 160 at the date of the prior agreement aforesaid and other subsequent payments on plaintiff's behalf, in all Rs. 1,280; and that 1st defendant should "pay all dues other than extra taxes, which might be levied hereafter;" and should at the end of the term "surrender without any relinquishment." There was no evidence of any advances prior to those enumerated in the Thirmanam document of 1913; and those enumerated in the said document of the cash payment of Rs. 160 were made, after and when the prior agreement was executed, and the former after possession had been given. There was no power of sale and no provision for accounting. In 1912 the Revenue Officer engaged in the preparation of a record of rights for the 2nd defendant's (Pittapur) estates under the Madras Estates Land Act entered 1st defendant as occupancy ryot in respect of the holding instead of plaintiff. In a suit by the plaintiff for declaration that the 1st defendant was not an occupancy tenant of his inam, *held*,

(1) That the Thirmanam document was a lease within S. 105 of Transfer of the Property Act, and not a mortgage with possession.

(2) that the first defendant was not a ryot within S. 3, Cl. (15) of the Estates Land Act.

(3) that the suit inam was not a part of the Pittapur Estate but a presettlement inam excluded from the assets of that Zamindari and did not fall under S. 2 (3), (*d*), as it was not a whole village and plaintiff was not a landholder under S. 3, Cls. (2) and (5) of the Estates Land Act.

The word "payable" in S. 3, Cl. (11) of the Estates Land Act means "payable according to the terms of the contract between the parties to it;" and Cls. (11) and (15) are applicable whatever the stage or stages at which those terms, so far as they relate to payment for the use of the land have to be or have been to be fulfilled. The payments in consideration of which the Thirmanam document was given were "rent" within the meaning of S. 3, Cl. (11) notwithstanding that the only payment contemplated were those to be made in future after the beginning of and in the course of the relation between ryot and landholder.

Lands in respect of which the Zamindars purported to make grants either absolute or subject to a small Kattubadi are "Iakhiraj lands (or lands exempt from the payment of public revenue) and all other lands paying only favourable quit rents" within the meaning of S. 4 of Regulation XXV of 1802. There is no presumption of law that an inam grant of a village, though to a Brahman, did not include the *Kudivaram* also. Each case must be

considered on its own facts (*i.e.*) the terms of the grant and all the circumstances, so far as they could be ascertained. A Zamindar granted a village in 1783 to a Brahman together with gardens wells, tanks, etc., as a *Sarva Agraharam* to be cultivated and enjoyed by the grantee heriditarily. It appeared that in 1788 the grantee was residing in the place. The evidence in the case including the inam register of 1865 and the subsequent dealings with the property were inconsistent with any persons other than the inamdars having a right of occupancy. *Held*, that the land in suit was not an estate and suit to eject the tenants from certain lands which had been waste at the time of the grant lay in the Civil Court. 41 M. 1012 (P.C.) In the absence of evidence as to the terms of the grant there is no presumption of law that the grant of an inam by a Native Ruler prior to the British Rule conveyed only the melvaram (Royal share of the Revenue.) Meaning of the terms "Kudivaram" and "Melwaram" pointed out. *Held*, accordingly that a grant of an Agraharam in Inam made by a Reddi King of Nellore more than 400 years ago and recognised and confirmed by the British Government under S. 15 of Madras Regulation XXXI of 1802 conveyed both the melwaram and Kudiwaram rights. The Agraharam was not an 'estate' within S. 3 (2) (*d*) of the Madras Estates Land Act and the Agraharamdar was entitled to eject the tenants in a Civil Court. (*Sir John Edge*). The grant of a whole village in inam will not be presumed to be the grant only of melwaram interest unless it is shown that the kudiwaram interest was already in the hands of some one else than the donee. The mere fact that there were about 300 inhabitants in the village after the date of the grant does not prove that at the date of the grant there were any tenants in the village holding lands with any right of occupancy by custom or otherwise. The use of the expression mouza does not necessarily import the meaning that there were occupancy tenants on the land. The presumption in all cases of grants of *inams* is that only the *melvaram* was granted. Presettlement inams must be presumed to be of land revenue only. A grant with *ashtabhogam* does not necessarily import the grant of the *kudivaram* also. In a suit for ejectment, deft. objecting to the jurisdiction of the Civil Court, must prove that the plff. was not the owner of the *kudivaram* right at the time of the grant of the inam. It cannot be laid down as a broad proposition of law that the *Inamdar* must have the occupancy right when the tenants have no occupancy rights in themselves, though it is open to the courts from such a state of facts to infer that at the time of the grant the grantee had the *Kudivaram* right. (28 M. 843, Per *Miller, J.* Diss.) Per *Spencer, J.*—In a suit for ejectment, where plff. relies on the exception to S. 8 for ousting the jurisdiction of the Revenue Court the plaint should specifically show by what acts the plff. acquired the *Kudivaram* interest of his ryots and became entitled to both *varams*. ——S. 3 (2) (d)—*Inam—Lands partly cultivated and partly immemorial waste—Waste lands let to tenants—Surrender—Estate.*

Where immemorial waste lands of a small extent are granted as *inam* along with a large extent of other cultivated lands the presumption is that the former are ryoti lands. The fact that such lands are let to tenants from time to time does not show that such tenants acquired permanent occupancy rights therein. Therefore a surrender by such tenants cannot give the landlord any kudivaram interest in the lands. 26 M. L. J. 99: 8 C. L. J. 324 ; 6 B. 598; 20 B. 415 : 25 M L. J. 617 : 21 I. C. 916. Dist. ——S 3. Cl. (2) (d)—*Inam—When—"Estate"*

All inamdars are not landholders under the Act and merely because the landlord is an inamdar and the tenant has permanent occupancy right, the inam lands will not become an "Estate" unless the other terms of the definition are satisfied. ——S. 3 (2) (d)—*Inam—Grant of waste land—Presumption—Jurisdiction—Burden of proof.*

The presumption in cases of grant by an inamdar of an eternal waste is that both warams therein were granted so that in a suit brought by him in the Civil Court to eject tenants therefrom the burden of proving that the grant was only of land revenue that the *inamdar* was only the

——S. 3 (2) (d)—*Inam—Shrotriem—Mirasdar—Ekabhogam—Kudivaram—Meaning of.*

Where a Shrotriamdar, is also a Mirasdar owning presumably the Kudivaram right, the shrotriem inam is not an "estate" within the meaning of S. 3, Cl 2 (*d*) of the Madras Estates Land Act, so that a suit to compel acceptance of patta could not be brought in a Civil Court. 'Kudivaram' is used in two senses ; (1) right of occupancy, and (2) share of the cultivator whoever he may be in the produce. A Kudivaram right in its complete sense, is not held unless the holder has got the power of alienation of the right of occupancy and unless he does not acknowledge himself merely the tenant of one really owning the Kudivaram right. Kudivaram means a right of occupancy in S. 3 (2) (*d*). An ekabhogam mirasdar in the Chingleput District (Madras) owns the kudivaram right in the village and the inam is not an estate. An inamdar to whom karnam service inam lands are granted by Zamindar with full disposing powers on payment of quit rent is not a landholder within S. 3 (5) as he holds the land under the Zamindar and not under a transfer from him. At the time of the passing of the Madras Estates Land Act, 1908, respondents held possession of certain lands as Karnam service Darmilla Inam. Appellants had been let into possession in 1906 and were in possession at the date of the suit. Their ancestors had the occupancy rights in these lands at the time of the grant in their favour. In 1913 under certain arrangements with the Zamindar respondent obtained the right to enjoy the suit land heriditarily with the powers of alienation subject to a small annual payment but without any obligation to render service. *Held*, that the respondents did not by reason of the grant in 1913 at a favourable quit rent acquire the status of a landholder under S. 3 (5) of the Act, as he was neither a person owning an estate or a part thereof nor a person entitled to collect rents of the whole or any portion of the estate by virtue of any transfer from the owner or his predecessor in title. Where, in a suit under S. 77 of the Madras Estates Land Act for recovery of rent, the tenant disputes the title of the plff. as a landholder and sets up the title of a third person, there are three courses open to a Court, *viz*, the Court may, by itself, determine who the landholder is who should collect rent, or it may direct the plff. to apply to the Collector to declare him to be the landholder or may apply S. 194 of the Madras Estates Land Act. "Passing of the Act" does not mean "the coming into force of the Act." Under S. 1 the Act came into force on the 1st July 1908 but the Act was passed when it received the assent of the Governor-General on the 28th June 1908. The tenants in possession of cartain *Lankas* in which they had no occupancy-right under leases gave up possession of the Lankas on the 30th June 1907. The Madras Estates Land Act received the assent of the Governor General on 28th June 1908 and came into force on the 1st July 1908. The lands were again let to the tenants and possession given to them about a month later. The letting, was however, for the whole of the Fasli 1318 as well as for the two subsequent faslis. *Held*, that as they had no possession legal or actual on 1—7—08. they could not be said to be ryots "now in possession" of the lands within S. 6. *Held also*, that whatever might be the meaning of "the time of letting" in S. 3 (7) (2) whether the date of lease or the date of execution of lease, they came within the definition of "Old waste" in S. 3 Cl. Where a tenant irrigates dry lands by water taken from the landlord's tank with his permission the Court can infer a contract that the landlord should be entitled to a reasonable compensation for the water taken. Where the water so taken is utilised for less remunerative crops such as chillies and cotton and it appeared that Sarasari had in such cases been levied in the past, the levy of Sarasari is not illegal. Payment during a course of long years, though it will not by itself give to a cess, which is purely voluntary or which is on the face of it illegal, a binding character, will be presumptive evidence that the payment had a legal origin, if the cess is of such a nature that a contract to pay it may be reasonably inferred. Meaning of Sarasari, Varapattu and Varisaipattu lands, explained. Eswaran Koil mahimai was disallowed on the ground that cesses in connection with temples are purely voluntary. To find out whether the cess paid for a number of years is legal or not, the Court will have to see whether the cess claimed has any direct or proximate bearing on the purposes for which the land is let. If the cesses are connected with object for which the land is let they can be claimed by the landlord under a contract between him and the ryots supported by consideration or under a usage for which a legal origin is proved or presumed. Mere length of payment will not render a cess which is voluntary or on its face illegal acquire a binding character. Payment for a long series of years is presumptive evidence of a legal origin and it can be reasonably inferred. On a consideration of the evidence the following cesses were held to be legal and payable by the ryots-Kanganam, Kulavettu, Melwaram urai, Kudivaram urai, Swathanthram, and thrashing floor rent, in cases where the tenants had no thrashing floor. S. 3 (11) (a) refers only to money recoverable from a ryot by the landholder and does not apply to money recoverable by any other person from any other person as if it was rent. The local cess paid by a landholder and recoverable from the intermediate landholder under S. 73 of the Mad. Local Boards Act, 1884, is neither an instalment of rent within the meaning of S. 63 nor an arrear of rent within the meaning of S. 61 of the Mad. Est. The word "Rent" in S. 77 of the Madras Estates Land Act has the same meaning as in S. 3 (11) and hence refers only to what is lawfully payable to the landlord for the use and occupation of the land for agricultural purposes. ——S. 3 (11)—*Cesses—Long payment as a result of judicial process—Custom—Contract consideration.*

The right of the landlord to levy cesses such as *Vattam* in addition to the rent depends on whether it is payable along with the rent as an incident of the tenure and not merely that it has been paid for a long time. No custom or implied contract can be inferred from such payment for a long time if it had been made as a result of judicial process and the object for which it was originally intended failed. Where something is claimed in addition to the rent, the question would arise if there was any consideration and from the facts of the case the Court may infer either that no consideration passed or that it has failed. ——Ss. 3 (15) 185—*Ryoti land—Conversion of—into homefarm or Kamatam.*

The test to decide whether lands leased are *home farm* or ryoti lands is whether the land was in actual cultivation of the Zemindar though he might let it out on lease for some reasons provided he had the ultimate intention of cultivating it. Ryoti land cannot be converted into home farm land by the Zemindar by any act of his unless it came within the special provisions laid down in this connection. He cannot, by merely treating it has home farm land absorb it into the latter. Evidence of custom showing that certain land was treated as private land would not of itself determine the character of the land. ——S. 3 (16)—*Tank-bed—Ejectment from Jurisdiction of Civil Court.*

Land which is a tank-bed, *i.e.*, which has been continuously used for the storage of water is not ryoti and a suit to eject a tenant from such holding is cognizable by the Civil Court. S. 3 (16) of the Madras Estates Land Act suggests its application to land which had not lost its character as tank-bed when the Act came into force. If its user for the purpose of tank-bed has been abandoned and the land has lost its character as tank-bed at the date of the suit, the suit is not cognizable by the Civil Court. ——Ss. 3 (16) and 20—*Tank-beds—Capable of cultivation—Right of landlord.*

"Tank-beds" in S. 3 (16) of the Mad. MADRAS ESTATES LAND ACT, S. 6.

——S. 6—*Permanent right of occupancy—Sub-letting—"Ijardars and farmers of rent"—Middlemen.*

The appellants were lessees of certain lanka lands under a lease made before the Act, 1908, came into operation. The lease by its terms contemplated the cultivation of the land by ryots, and did not prohibit sub-letting; it provided for the termination of the tenancy in 1910. The appellants sub-let the lands to tenants who occupied and cultivated them. *Held*, that the appellants had not a permanent right of occupancy right under S. 6, Sub-S.(1) of the Act being merely middlemen. If the "ijardars and farmers of rent" referred to in S. 6 are ryots at all they are non-occupying ryots and cannot be converted into ryots with a permanent right of occupancy. In case of a mortgage suit relating to a holding which has been surrendered by the mortgagor tenant to the landlord, the landlord is a necessary party as he is entitled to redeem. Therefore a decree for sale obtained in a suit to which the landlord was not a party does not bind the zamindar and the purchaser or his assignee cannot maintain a suit for possession, against the zamindar, inasmuch as he

has not obtained the kudivaram rights by his purchase. The words "shall hold it as a land holder" do not necessarily imply a land remains *ryoti* land and the surrender is not an operation by which the entire interests become united "otherwise." Where an inamdar of a portion of the melvaram after the permanent settlement was found to own also the kudivaram interest in the land. *Held* that S. 8, Cl. 1 of the Act applied and the union resulted in the occupancy right ceasing to exist and the melvaram right only being left in the landholder. Whoever is thereafter let into the land, he comes in not as tenant of an occupancy right but as a raiyat of raiyati land under S. 6, Cl. 1. The mere fact that the inamdar has to pay kuttubadi to the Zemindar does not make his interest as landholder anything less than the entire interest within S. 8, Cl. 1 since the raiyat has to pay rent to the inamdar alone as landholder. The words "entire interest" are intended to exclude interests such as those of a mortgagee. A suit for rent by a fractional sharer in an nam village who has acquired the kudivaram interest in the entire village in respect of a lease of a portion of the village after such acquisition would lie in the Revenue and not in the Civil Court, the holding not having ceased to be part of the estate. The word "acquired" in the exception to S. 8 of the Act, must be construed so as to include cases of surrender or abandonment but they must be read in conjunction with S. 6 Cl. (1) and S. 3 Cl. ———S. 8 (1) and (2)—*Scope of.*

S. 8 is devoted to the topic of merger which is subject to qualifications in other portions of the Act and S. 8 (2) deals with the particular case of the class covered by cl. prohibits acquisition otherwise than by inheritance or devise of occupancy right by an ijardar or farmer but the explanation following it is wider and under it a right of occupancy shall not be lost in consequence not only of its owners subsequently holding the land as ijardar or farmer but also of his becoming interested in it as landholder. ——**S. 13 (3)**—*Contract to the contrary—Implied contract—Higher rate—Garden cultivation—Improvements by tenants.*

A tenant of dry lands in Zemindari sank a well at his own expense and thereafter raised garden crops on the land Prior to the sinking of the well the tenant had paid a uniform rent of 4 *fanoms* on a dry basis; from time immemorial subsequently the landlord claimed and the tenant had for some years paid an enhanced rent of 8 *fanoms* at the garden crop rate. The tenant sued to obtain pattas at the dry rate of 4 *fanoms. Held*, that there was an implied contract to pay rent at the dry rate of 4 *fanoms*, but there was no consideration to support an implied contract to pay at the enhanced rate. To construe the original contract as a contract to pay at the dry

rate only so long as the lands remained, and a higher rate for produce raised by the labour and outlay of the tenant, would be repugnant to the Act. The fact that the Zemindar consented not to raise a hopeless and groundless dispute as the right of the tenants to hold at the 4 *fanoms* dry rate would not be a valid consideration for the tenant's promise to pay enhancedrent. The long payment of enhanced rents by the ryots in the past did not operate as an estoppel *in pais* binding the ryots to pay enhanced rents in future. ———S. 13 (3)—*Waram systems— Right of landlord to revert to—Muchilika—Construction—Enhancement of rent—Distraint—Suit to set aside—Decision as to propriety or tender of patta.*

The landholder is entitled to revert to the waram system unless the ryots establish that it has been superseded permanently by the cash system by contract, express or implied, between them and the landholder. Where there is evidence to show that the tenure was a waram tenure to start with, evidence is not necessary to prove that this is the prevailing tenure unless the presumption that the tenure is a waram tenure is rebutted by the ryot. Evidence of money payments for several years at varying rates under specific contracts in term-pattas for stated periods does not warrant the inference that waram system was permanently given up. The decision in ryot's suit to set aside a distraint that a tender of patta was not a proper tender operates as *res judicata* in a suit by the landholder under S. 77 of the Estates Land Act as regards the question of propriety of that tender *Amani* system means waram system and a provision in a muchilika by which after the expiry of the period under it the ryots undertake to cultivate the lands under "pathukattu muchilikas under the Amani rules" amounts to an agreement by the ryots to revert to the waram system after the expiry of the period fixed in the muchilika. Under the waram the landholder is entitled to a share in all the produce of the land unless there is a special contract to the contrary exempting any particular crop. His claims to share in all the crops cannot be looked upon as an enhancement of rent within the meaning of S. 13 (3) of that Act. (*Spencer and Krishnan, JJ.*) VARADA REDDI *v.* SRINIVSA MUDALIAR.

The plaintiff claimed wet rates on the strength of a contract of the year 1885 before the passing of the Madras Estates Land Act. The improvements were made after the Act was passed. *Held*, in the circumstances the plaintiff was not entitled to rely on his contract with reference to S. 13 (3) of the Estates Land Act. S 13 (3) does not apply to a case where there is an improvement effected by a ryot after the Act and there is a contract entered into prior to the Act to pay enhanced rent for such improvements; and consequently the landlord can claim enhanced rent as per contract. In respect of a contract to pay a higher rate, the Court *may presume* from long continued payment of higher rent, an agreement as its legal origin as well as consideration therefor but the Court is not *bound to* presume an agreement for payment of higher rent by reason of mere usage established by long continued payment therefor. ———Ss. 13 (3) and 3 (4)—*Contract to the contrary—Well sunk by ryot—Higher rent—Long payment—Presumption.*

A landlord can charge garden rates for crops grown with the aid of water from wells sunk by a raiyat if they are based on any contract, express or implied, or on any local usage. The usage might be the result of a valid contract. Where enhanced rent has been paid for a long period of time not only can the existence of an agreement to pay at such rate but also considerations for such agreement can be presumed as a fact. S. 13 (3) of the Act is not retrospective and does not

apply to improvements made before the Act. Where wells are sunk by a raiyat in poramboke the forbearance of the landlord to charge the rent for the site occupied by the wells might amount to a consideration for a contract to pay enhanced rate. An improvement by a raiyat which prejudicially affects other lands of the landholder would not be an improvement of which the raiyat could claim to take advantage under S. 13 (3) of the Act. S. 13 Cl. (3) of the Estates Land Act has no retrospective operation. A vaild contract to pay rent at an enhanced rate can be presumed from payments at that rate for 40 years. A landlord set apart a considerable area of land for the digging of wells for irrigating the lands in respect of which enhanced rates were claimed but he charged no rent for the area so set apart. *Held* he must be deemed to have contributed to the cost of the wells dug by tenants on that area, though at their

MADRAS ESTATES LAND ACT, S. 38.

An implied contract to pay money in lieu of Varam cannot be inferred from previous payments of money rent for a number of years if the rates at which money was paid were fluctuating. Proof that money payments were made at varying rates will rebut the presumption that the rent paid in the previous fasli is the rent payable in the current fasli. In the absence of proof of a completed agreement to pay rent at a fixed rate, a landlord will be entitled to revert to Varam or faisal rates, notwithstanding temporary lapses from the same. (1918 M. The commutation of rent referred to in S. 40 of the Madras Estate's Land Act is not commutation in the narrowest sense and covers something more than a mere arithmetical calculation of averages or application of a market price to commute grain into money. In determining the rent to be paid, the Collector cannot exclude from consideration the question whether the rents actually collected during the decennial period before suit were in excess of what was legally due to the landlord. Maramat charges are not "rent in kind or otherwise" within S. 40 of the Act and they lie outside the scope of the Collector's determination. ——— S. 40 (3) (*a*) *and* (*b*)—*Commutation—The principles governing.*

The principles enunciated in the section are not inflexible and conclusive. The Cl. (a) deals with how to find money value of grain rent paid for a number of years and what each tenant paid to the landlord is material. In a suit for commutation of rent payable in kind it would be an irregularity if the Courts below have in cases to which the provisions of Cl. (3) (*a*), (*b*) are applicable, ignored them. Sub-Cl. 3 is applicable only where grain rent was being paid for a series of years by the tenant and the Courts are called upon to commute such rent. Where for over thirty years a consolidated payment in money was made to the landlord. *Held*, that that was not a matter which the Courts, in a suit for commutation of rent, have to consider under Sub-Cl. (*a*). Where the suit village was surrounded on all sides by Government villages, but there were villages belonging to the estate within a radius of three miles and the Collector did not consider the rates prevailing in those villages, *Held* that under Sub-Cl. (*b*) what has to be considered is the money rent paid by occupancy ryots of adjoining lands or of lands in an adjoining village and Collector was right in not considering the rates in the villages which did not adjoin the suit village but were at a distance. The plaintiff purchased and got possession of the suit lands from one who bought them in a rent-sale under the Estates Land Act in 1914 He sued the defendants for possession and mesne profits. The defendants claimed the lands by virtue of a court auction purchase in 1911 in execution of a mortgage decree against the original ryot ; but they had not taken steps to obtain a transfer of the tenancy in their favour under S. 146 of the Madras Estates Land Act. On a plea by the defendants that the rent sale was invalid under S. 53 of the Madras Estates Land Act as no patta and muchilika had been exchanged and no permanent pattah was in force, *held* that it is not open to the defendant to raise this plea. The occasion for raising such a contention was by way of suit under S. 112 of the Act within the period prescribed therefor. S. 189 of the Madras

MADRAS ESTATES LAND ACT, S. 53.

Estates Land Act bars the jurisdiction of the Civil Court to entertain such a plea in a suit in the Civil Court. For this purpose it makes no difference that the defendants were not defaulters within the meaning of S. 112 and for this reason could not sue under part A item 12 of the schedule and S. 112 of the Act. The policy of the Estates Land Act clearly is (1) to compel any person who has acquired an interest in ryoti tenancy to follow the procedure laid down in S. 146 if he wishes to be treated as a ryot and (2) to have all disputes as to procedure in rent sales enquired into by the Revenue Courts.

To allow a person who has not taken action under S. 146 to ignore a rent-sale at the time it is held and subsequently to dispute its validity in a civil suit is to run counter to both these principles; and S. 189 does not permit such a course. ——Ss. 55 and 146—*Suit to obtain pattah—Duty of Revenue Court in case of conflict between transferees of original Raiyat—Non-joinder —Effect.*

A Revenue Court is bound to enquire as to whether plff., an alleged transferee of the original raiyat, has established his title as against a transferee of the raiyat recognised by the landlord and to direct the landlord to issue a pattah to the plff. on proof of his title. Non-joinder of the transferee recognised by the landlord does not justify dismissal of the suit and a Court should direct joinder of the omitted party under O. 1, R. 10 of the C P Code. The Rev. Court's power to deal with the rights of parties before it under S. 55 is not controlled by anything in S. 146 and therefore in a suit under S. 55, the Court must decide whether the plff. has a right to a *patta* or not if his right is denied. In claims for rent limitation runs not from the end of the fasli, but from the time when the rent became due according to the terms of the tenancy. Under the Estates Land Act of 1908, tender of patta is not a condition precedent to the maintainability of a suit for rent. If a document was incompetent to affect the rights of the parties at its inception an express provision of law would be required to make it valid subsequently. A suit for rent for faslis prior to the coming into force of the Act of 1908 is maintainable after the coming into force of that Act, without exchange of patta and muchilika. S. 146 applies to transfers made before the commencement of the Act and does not determine any substantive right. S. 146 of the Act lays down simply that when there has been a transfer whether before the commencement of the Act or after it the transferee will be entitled to be impleaded in proceedings if he gives the notice which S. 146 prescribes, but until he does so the existing pattadar will still be the person with whom the landlord has to deal. A Court might award compensation in all cases of waste in lieu of ejectment under S. 152 but the relationship of a landlord and tenant still subsists. Per *Seshagiri Iyer, J*:—The award of compensation

A landholder can eject a non-occupancy ryot holding land in his estate on a lease for more than 5 years granted before the commencement of the Act and the holding over after the expiry of the term. 38 M, 163, Not Foll. The Amending Act of 1909, S. 8, added one more independent ground in S. 153 on which the tenant is liable to be ejected. A deft. not traversing a statement in the plaint that the land from which ejectment was sought was "old waste" must be deemed to have admitted it and cannot traverse it subsequently. ——S. 153—*Proviso—Scope—Non-occupancy tenant holding lease before Act—Ejectment suit—Jurisdiction.*

The proviso to S. 153 added by the Amending Act of 1909 deals with the grounds of the liability to ejectment and not with jurisdiction. A suit for ejectment of a non-occupancy tenant of waste land holding a lease from before the Act but expiring after its passing must be filed in a Revenue Court. ——Ss. 153 and 157—*Tenant holding over under an expired lease--Rights of--Non-occupancy tenant—Cases of ryoti land and 'old waste' distinguished—Construction.*

Per *Oldfield, J.*—Retention of a "ryoti" holding by a tenant after the expiry of the lease, makes him a non-occupancy tenant inasmuch as he cannot acquire rights of an occupancy tenant by being in possession at the time when the Act came in force. But a tenant of an 'old waste' land under an expired lease is not an occupancy tenant and cannot acquire the rights of an occupancy tenant by paying 2½ times the rent. A suit for the ejectment of such tenant can be tried by a revenue court.

Per *Tyabji, J.*—A person cannot hold under an expired lease and there is no such relation as landlord and tenant between the lessor and the lessee after the expiry of the lease and therefore such a lessee is not included in any class of tenants dealt with by the Act. A suit to eject such a tenant of "old waste" land can be tried by only a Civil Court and if instituted in a revenue court it is for the latter to show that the Civil Court has no jurisdiction to try the same.

Per *Oldfield, J.*—The proviso to S. 153 while making the section inapplicable in case of 'old-waste' lands does not affect the provisions regarding the courts who can try suits in respect of such lands but relates to the reasons for ejectment of tenants.

Per *Tyabji, J.*—It is clear from the words "liability to be ejected" in the new proviso to S. 153, that it applies both to the reasons for ejectment and rights of the parties and to the provisions regarding the forums and the effect is that the jurisdiction of Revenue Courts.

Properly speaking clauses (a) to (d) apply to the rights of parties during tenancy, the clause (e) to the relation between them after the termination of tenancy. Therefore the proviso applies to all the clauses. (*Oldfield and Tyabji, JJ.*) SANKARA VENKATARATNAM *v.* VARADARAJA APPA RAO BAHADUR. **28 I. C. 252 : (1915) M.W.N. 192 : 29 M. L. J. 184.**

——S. 185—*Private land— Conversion of ryoti land into—Legality of.*

The test for finding whether land is private land is to see whether the Zemindar ever cultivated it as part of homefarm land ; mere treatment as *kambattam* will not displace the presumption under S. 185. ——S. 185—*Conversion of ryoti into* Kambattam.

——S. 185—*Private land—Letting as, after July* 1890—*Evidence--Presumption—Rebuttal.*

S. 185 of the Estates Land Act does not exclude any evidence of letting as private land after July 1890. It is open to the landlord to produce any other evidence which may be relevant to his purpose. (1914) M. W. N. 765, Foll. 36 Mad. 168 Diss. S.185 clearly raises a presumption in favour of the ryot but the question that has to be considered is whether the evidence which has been adduced by the landlord is sufficient to rebut it. (*Abdur Rahim and Oldfield, JJ.*) APPA ROW *v.* KAVERI. **23 M. L. T. 154 : 1918 M W N. 171 : 44 I. C. 519 : 7 L. W. 271.**

——S. 185—*Scope—Conversion into private land.*

Per Wallis, C. J.—Conversion of ryoti into private land is not retrospectively prohibited by this section. Actual conversion must be clearly and satisfactorily proved. Mere letting lands as *kambattam* to prevent assertion of occupancy rights does not amount to conversion. That he cultivates the lands himself must be strictly proved by the landlord. *Per Seshagiri Aiyar, J.*—The Act means to prevent conversion of ryoti into *kambattam* lands where the landlord has cultivated the land for 12 years preceding the Act, the proviso to S. 185 raises a presumption in favour of its being private land. (*Wallis, C.J. and Seshagiri Aiyar, J.*) ZEMINDAR OF CHELLAPALLI *v.* RAJALAPATI SOMAYYA. **39 Mad. 341 : 16 M. L. T. 576 : (1915) M. W N. 1 : 2 L. W. 117 : 27 I. C. 77 : 49 I. C. 708 : 27 M. L. ——S. 185—*Private land—Test of—Onus.*

Under S. 185 of the Madras Estates Land Act the presumption is that the land is not private land and on determining the question, the Court is to have regard to the local custom and to the question whether the land was before 1st July 1898 specifically let as private land or to any other

——S. 185—*Letting prior to July, 1898—Evidence—Admissibility.*

Per Sundara Aiyar, J. It is the date of the contract that is material in deciding whether the evidence is admissible. The section is not exhaustive as to the various kinds of evidence that may be let in to prove that the land is private land and dealings subsequent to 1st July 1898 are not altogether excluded. (13 I.C 1 Ref.) *Per Sadasiva Aiyar, J.*—Leases granted after 1st July 1898 are shut out as evidence if they are sought to be used for the purpose of proving the character of the tenure and even if they are used merely for proving that the land was treated after 1898 just as before 1898, Leases granted before 1st July though they were to come into force only after 1st July 1898 are admissible. Per Sankaran Nair, J. Therefore a suit by a person for rents accruing due during minority, instituted within three years of his attaining majority, is barred though the above circumstances exist and S. 8 of the Limitation Act does not apply ; for the Madras Estates Land Act is complete in itself and where it provides the general rules of Limitation Act have no application.

S. 6 of the Madras Forest Act which requires service of notice on the owner of a land proposed to be constituted a reserved forest is mandatory and not directory. Such a notice constitutes a condition precedent to the exercise of jurisdiction by the Forest Settlement Officer. Where no such notice is served on the owner, he will not be bound by the notification under S. 16 of the said Act declaring the forest reserved and his rights will not become extinguished under S. 17 of the same Act, by reason of his failure to prefer his claims before the Forest Settlement Officer. It is not competent to the Govt. in such a case, to plead that the irregularity is cured by the fact that the owner had actual knowledge of the proceedings regarding afforestation. 6 M. I. MADRAS HEREDITARY OFFICES REGULATION (VI OF 1831.)

——*Inam—Resumption— Meaning of—Gadaba Service Inams—Applicability of Act to.*

The resumption of an inam means putting an end to the grant remitting the services and making the holders pay the full assessment. Consequently, the resumption of an inam in the possession of encumbrancers does not extinguish prior encumbrances. Gadaba bearers service is a personal service ; inams for that service do not fall under Regulation VI of 1831. Where emoluments, were originally given both for Gadaba and for Kuttakalva (repairs of channels) services but have been recently treated for Gadaba service alone the inam is outside the provisions of the Regulation. MADRAS H C. RULES OF PRACTICE (Appellate side, R. 23.

Criminal Procedure Code, S. 439—Revision—Review—High Court Jurisdiction—Criminal case heard and decided by one or more of its own Judges—Powers in regard to—Dismissal for default of appearance—Jurisdiction in Criminal Appeal or Revision.

The appellant presented under S. 420, Cr.P.C., a jail appeal to the High Court which was dismissed under S. 481, Cr.P. C., as out of time by a learned Judge, sitting as Vacation Judge. On the reopening of the Court the appellant presented another appeal through counsel against the same conviction and sentence, which was admitted by the same learned Judge. *Held*, that the decision on the prior appeal was a bar to the subsequent appeal being heard on the merits. Even if the subsequent appeal could be treated as an application for the revision of the previous decision, neither S. 439, Cr. P. Code, nor any other provision empowered the High Court to revise the judgment of one or more of its own Judges.

The admission of the subsequent appeal could not be treated as a setting aside by the learned Judge of this prior order and as a re-opening of the case on its merits, because the learned Judge was admittedly not at the time aware of his prior order. The Bench hearing the subsequent appeal apart from the fact that it was constituted differently, had no power to review the prior order. The Code does not confer any such power. The High Court has no inherent power of review in such cases ; and the existence of such a power cannot be inferred from the position of the High Court as a Court of Record. The dismissal of the prior appeal by the Vacation Judge could not be treated as a nullity on the strength of the notification regarding his sittings, which was to the effect that he would dispose of "urgent applications which require to be heard immediately." The notification must not be regarded as more than a general statement of the powers which the Vacation Judge ordinarily will exercise, and cannot be read as derogating from those, which in virtue of statute and rules he possesses and of which he cannot consistently with them, be deprived. And under S.108 of the Government of India Act and High Court Appellate Side Rules No. 4 and No. 1 (i) (f), the Vacation Judge was competent to dismiss the prior appeal. *Per Devadoss, J.—Quaere.* Whether a Criminal Appeal or Revision can be dismissed for default of appearance When a criminal appeal or revision petition is dismissed without hearing there is no judgment at all and the learned Judge or the Bench which disposed of the matter for default of appearance can rehear the matter (*Oldfield and Devadoss, JJ.*) K KUNHAMAD HAJI, *In re.* **46 Mad. 382 : 24 Cr L. R. 161-A, though not an adjunct to C. P. C., is a rule of convenience issued by the High Court with the object of inducing decree-holders to take early steps to execute their decrees. The analogy of S. 148, C. P. C., may be utilised for the purpose of showing that the legislature regards such provisions as directory in their value and not mandatory. Therefore, an omission to take within 6 months steps to execute a transmitted decree does not render the proceedings taken after 6 months void *ab initio*. Time in such cases is not the essence. ——*Act*, ultra vires—*Succession Act*, Ss. 101, 111—*Majority Act*, S. 3—*Will executed by a Hindu in Madras Town.*

A Will by a Hindu in Madras Town ran thus: —'The residuary trust funds are vested in the trustees to apportion into as many equal parts as there are daughters of mine living at my death or who having predeceased have left an issue surviving and to pay the shares to the daughters for their life and after their demise to hold them in trust for their children who shall attain twenty-one years. If any daughter die without issue, her share should go to others or their issues as tenants-in-common in equal shares *per stripes*, etc.' The will was opposed on the ground that the provisions were opposed to Hindu Law in spite of Act I of 1914, and that the Act I of 1914 was *ultra vires* so far as it applied to the town of Madras as the rules of Hindu Law as to succession and inheritance were made applicable to the town by Supreme Court Charter which could only be modified by Legislative authority of the Governor General in Council. *Held* that the Will infringed the rules of Hindu Law as to gift to unborn persons and was ineffective as regards all the beneficiaries born after the death of the testator, that it contravened S. 101 of the Succession Act, that S. 3 of the Majority Act does not re-enact a fresh age of majority for S. 101, that there was an intention to confer absolute estate upon daughters and that Act I of 1914 so far as it purported to affect the Presidency Town of Madras, was *ultra vires*. ——S. 1—*Scope of—Preamble.*

The enacting portion of S 1 of Madras Act VII of 1865 is wider than the preamble and the Government might in a case coming under the section levy a cess though it had not incurred any expense in the repairs or construction of the irrigation channels. The expression "river beloging to the Government" in an English statute would connote a Govt. ownership of the bed or banks of the river. But the law of the Madras Presidency differs in some respects from the English Law and it is quite possible that the former recognises some proprietary right on the part of Government, in the water flowing in rivers and streams apart from the right to the bed. On a claim by the Government under Madras Act VII of 1865 amended by Act V of 1900 to levy water cess on permanently settled lands both *Zeraiti* and Inam within the Zemindari limits in so far as the user of water for irrigation exceeded the user at the time of the permanent settlement whether in respect of the area irrigated or in respect of a double crop on the mamul lands. *Held*, assuming that the river which was the original source of supply belonged to the Government (1) that the permanent settlement with the zemindar was in engagement with the Government within the proviso to S. 1 of the Act VII of 1865 ; (2) that the effect of the permanent settlement and the sanads issued therefor was to vest in the then existing irrigation channels in the Zemindars in whose estate they were situate; (3) that under the sanads the zemindars in whose estate the sluices of the channels were situate acquired the right to take from the river for irrigation an amount of water limited only by the seize of the channels and sluices as they then stood but not limited by the irrigation then customary ; (4) that once the water got into the channels, the Government had no rights in respect of the same as owners of lands irrigated thereby ; (5) that the rights of owners *interse* in the water flowing in the channels, were analogous to those of riparian proprietors in a natural stream ; and (6) that the object of the permanent settlement and the sanads thereunder being to extend the cultivation in the zemindaris with the help of the irrigation sources conveyed by the sanads the zemindar was not liable to pay the cess merely because more lands were cultivated or more crops were raised with the use of water but only if he took more water than he was

justified by the sanads in taking. (*Lord Parker of Waddington.*) KANDUKURRI BALASURYA PRASAD RAO *v* SECRETARY OF STATE.

If the Govt. is not the owner of the bed and the banks of a river at the place where water is taken by a Zemindari ryot the river in question could not be said to be a river belonging to the Govt. for the purpose of Act VII of 1865 and the Govt. could not levy the cess. ——S. 1—*Water cess — Riparian rights—Right of Government—Exemption—Engagement.*

Lands which are not on the banks of natural tream, *e. g.*, which are more than half a mile distant from it, are not riparian lands. A person who is not a riparian owner is liable to pay water cess to the Government for irrigating his lands with water of a stream or river. The Government have no right to levy assessment under the Act from a person exercising riparian rights whether the bed of the stream whose water is used by an inamdar or zemindar to irrigate his riparian lands bordering on a natural stream belongs wholly to the Government or partly to the Government and partly to the inamdar or wholly to the inamdar and the zemindar. Per *Phillips, J.*—Where lands were, at the time of the inam settlement, irrigated by a tank and wells unconnected with a river and irrigation sources were taken into account for the purposes of entranchisement and there was no agreement between the owner of the land and the Inam Commissioner for freedom from water tax, the owner cannot claim the use of the river by virtue of an implied agreement but is liable for water cess for its use. 33 M. MADRAS IRRIGATION CESS ACT (VII OF 1865), S. 1.

——S. 1—*Applicability—Inam—Levy of cess—Engagement.*

The Act applies to a ryotwari as well as to Zemindari and inam villages. Where the inamdars of a village used the waters of a river flowing through a Zemindari village but the upper reaches of which fell in Govt. land; *Held* that the Government was entitled to levy water-cess on the inamdars. The onus is on the person claiming exemption from Madras Act VII of 1865 to show that the water is not that of the Govt. but of a Zemindar or inamdar. ——S. 1—*Engagement—Presumption—Land Encroachment Act III of* 1905) *Rev. Recovery Act, S.* 59—*Payment of cess under threat of attachment—Suit to recover—Limitation.*

The engagement referred to in the proviso to S. 1 of Act VII of 1865 need not be contemporaneous with the Inam Settlement but may be prior, as well as subsequent to the settlement. A riparian proprietor is not the owner of the water in the river, his right is only one of user. Where a right to take water is made out, though no express agreement on behalf of Govt. not to levy any charge is proved, an engagement under Act VII of 1865 will be inferred. Act III of 1905 has not taken away any right which existed at the time the Act was passed and the Govt. cannot, by reason of that Act coupled with Act VII of 1865 impose a cess upon those landholders, who were before that Act not liable to pay cess for using water. A suit for the refund of water cess paid under threat of attachment instituted more than 6 months after the payment is barred by S. 59 Rev. Recovery Act (1864). ——S. 1—*Engagement implied—Presumption—Anicut irrigation—Right of owners of land to receive supply—Liability of Govt*

MADRAS IRRIGATION CESS ACT (VII OF 1865), S. 1.

Owners of lands whose supply of water had been cut off by the introduction of a new anicut system and who took the water free from the Govt. without entering into litigation with the Govt. for interfering with the old sources of supply must be taken to have accepted the offer of Govt. in satisfaction of their claims and where the Govt. supplied water for 37 years a presumption arises that there was an engagement to supply water and the owners have a cause of action if the supply is interfered with. (*Sankaran Nair and Sadasiva Aiyar, JJ.*) ZEMINDAR OF KAPILESWARAPURAM *v.* SECRETARY OF STATE.

26 I. C. 590 . 37 Mad. 355 Note.

——S. 1—*Engagement—Implied—Grant of land—Presumption—Supply of water—Measure of—Inam.*

A grant of land by the Government implies an undertaking on its part to supply water free of charge to the extent of the accumulated flow at the time of the grant, and in the absence of it the area irrigated will be presumed as the measure of the quantity of water at the time of grant. Kassur means water rate. An enjoyment free of water cess for forty years after the grant of inam does not debar Govt. from levying the cess. An inam title-deed is not conclusive on the question of an engagement to exempt the land from the cess and evidence *aliunde* is admissible to prove that the enjoyment contended for was either anterior or subsequent to inam settlement. The commissioner's decision will bind the Government unless it is shown that he was not authorised to deal with the question. (*Wallis, O.C.J. and Seshagiri Aiyar, J.*) PAPA SETHUMATHAVACHARIAR *v.* SECRETARY OF STATE FOR INDIA.

26 I. C. 187 : 1 L. W. 941.

——S. 1—*Engagement—Classification of permanent settlement—Powers of Govt.*

A classification of land as wet at the permanent settlement amounts to an engagement and the proprietor is exempted from water-cess for such land. The Govt. by their anicut system cannot cut off the present sources and then supply their water for a charge. Under S. 1, the Government can make rules having the force of law for water-cess rates and their collection only. They cannot decide the question of an engagement exempting the landholder from tax. It can be done by Civil Courts only. (*Ayling and Seshagiri Aiyar, JJ.*) ZEMINDARI OF VEGAYAMMAPETA *v.* SECY. OF STATE.

——S. 1—*Rules under R.* 5—*Construction—Water taken through unauthorised source—Penal rate—Mere use of water enough to be charged with liability.*

Under the rules no distinction as to liability to penal water rate is drawn between a person who receives an augmentation of water-supply without his knowledge and even against his wish and one who has taken active steps to get the water. 1 L.W. 191: 22 I. C. 692: 26 M. L. J. 210.

——S. 1—*Engagement—Meaning of.*

The word engagement in S. 1 is not restricted to an engagement made at the time of the permanent settlement but extends to an undertaking express or implied at any subsequent period. (*Ayling and Sadasiva Aiyar, JJ.*) KANDALAM RAJAGOPALA CHARULU *v.* SECY. OF STATE.

38 Mad. 997 : 14 M. L. T. 454 : 22 I. C. 107 : (1913) M. W.N. 937.

——S. 1—*Object of—Engagement—Implied.*

The cess imposed under the Act was intended to compensate the Govt. for the use of water belonging to it or conserved by works constructed by it by empowering them to levy remuneration from those using the water for irrigation. Where such remuneration is otherwise paid by the landholder, that is sufficient to establish an engagement of the kind referred to in S. 1 proviso of the Act. Where plff.'s right to a fourth share of the water of a tank was established in a prior litigation against Government, he is entitled to exemption from water cess in respect thereof. A legal origin could be presumed from the immemorial use of water. (*Sundara Aiyar and Sadasiva Aiyar, JJ.*) KESARI VENKATA SUBBIAH *v.* SECRETARY OF STATE. **20 I. C. 804 : 14 M. L. T. 131.**

——S. 1—*Engagement—Proof—Long course of conduct.*

An agreement between a Collector and a private party will not bind the Government. But an implied engagement may be proved by the course of conduct followed for a long time by the officers of Government and by such person. In some cases the Govt. is bound to regulate Govt. supply of water ; an express contract is not necessary. (*Sadasiva Aiyar and Tyabji, JJ.*) KATRA GADDA RADHA KRISHNAYYA NAIDU *v.* SECRETARY OF STATE. **(1913) M. W. N. 427 : 13 M. L. T. 466: 19 I. C. 846 : 24 M. L. J. 678.**

——S. 1—*Engagement—Express or implied —Government intercepting natural flow and granting other water tax—Liability to.*

The 'engagement' in S. 1 might be express or implied. The rules framed under the Act show that cess is not leviable on water taken for lands which, owing to the construction of the several anicut channels and other works connected therewith, were found to have lost their pre-existing water-supply wholly or partially. Where Govt. intercepted the natural flow of water to a Zemindar's tank by constructing a channel, and granted him other water instead, freely for a number of years, there is a presumption of an implied engagement for a free supply. ——S. 1—*Amendment—Water-cess—Inamdars—Wet crops.*

An Inamdar is entitled to use the water of a stream flowing through his village to raise wet crops on lands on which it was customary to raise dry crops. He is not therefore liable to cess. (*Sankaran Nair and Abdur Rahim, JJ.*) SECRETARY OF STATE *v.* AMBALAVANA PANDARASANNADHI. **18 I. C. 294 : 37 Mad. 369 Note.**

——S. 1—*River belonging to Govt.—Lands irrigated by natural stream, if—Beds and banks belonging to Inamdar.*

A natural stream, of which the beds and banks belonging to the Inamdar, is not a stream belonging to the Govt. and the Govt. has no right to levy water-cess on lands irrigated by such stream. Where the channels or the tanks in a village grant had no connection with a Govt. source of irrigation and are not controlled by the Govt. an inam grant besides poramboke includes the channels also. (*Benson and Sundara Aiyar, JJ.*) SECRETARY OF STATE FOR INDIA *v.* VEKATARATNAMMA. **37 Mad. 364 Note : (1912) M W. N. 771 : 15 I. C. 594 : 23 M. L. J. 109.**

——Ss. 1 and 2—*Water-cess—Retrospective levy.*

The Govt. is not entitled to levy cess retrospectively from before the date of levy. "Arrears" means payments due and unpaid after the levy was made (Per *Sankaran Nair, J.*) The liability to pay water-cess does not attach the moment that Govt. water is used. The Govt. can impose the cess only within fasli, *i.e.*, before the crop is harvested and not at pleasure. (*White, C. J., Munro and Sankaran Nair, JJ.*) ZEMINDAR OF NUZVID *v.* SECRETARY OF STATE. **35 Mad. 197 : 10 M. L. T. 5 : (1911) 2 M. W. N, 359 : 10 I. C. 633 : 21 M. L. J. 678.**

——S. 2—*Liability to cess—Stream or channel belonging to Government.*

The liability to pay cess under S. 2 arises only when irrigation is carried on at least to a substantial extent with water from a stream or channel belonging to Govt. 37 M. 322 ; 30 M.L.J. 163, Foll. Unless it is expressly provided to the contrary the Zemindar or Inamdar can increase the cultivation without any further liability for payment provided he uses no more water than lying within the adjacent land has a right to the usufruct of the stream. Mention of quantity of wet lands does not disentitle him to increase the cultivation. S. 2 of the Madras Land Encroachment Act deals with unappropriated properties and not things. The Govt. is not owner of the water in which the Zemindar or other adjacent owner has riparian rights. The extent of these riparian rights depends on the capacity of the stream and the extent of land of other people with riparian rights. In case of small stream the words "Besides poramboke" in an inam title-deed would give rise to a presumption in favour of inclusion of river beds. Even where a stream belongs to Govt. it must show that the Inamdar is storing more water than he is entitled to under the engagement with the Govt. ——Ss. 6 and 14—*Eviction by Collector—Suit to recover land—Limitation.*

S. 14 of the Act gives an aggrieved party a right to sue for damages in respect of unlawful proceedings under the Act and also a right to sue for declaration of his right to property or for recovery thereof. An occupant of land evicted by the Collector under S. 6 of the Act can sue to recover the land and the period of limitation applicable is the shorter period provided by the Act. ——S. 14—*Suit for recovery of penal assessment—Cause of action—Bar.*

The cause of action for the recovery of a penal assessment alleged to be wrongly levied arises, under S. 14 Expln. of Madras Act III of 1905, on the date on which such assessment or penalty is levied. Consequently the omission to object to the penal assessment in a previous fasli does not bar a suit for the recovery of penal assessment levied in a subsequent fasli. 25 M. L. T. 227; 1914 M. W. MADRAS LAND REVENUE ASSESSMENT ACT (I OF 1876), S. 2.

——S. 14—*Person aggrieved — Eviction—Suit for possession—Limitation.*

S. 14 of the Act substitutes a period of six months for the periods provided in the Limitation Act for suits coming within the purview of the first part of the section. A landlord whose tenant is evicted in proceedings under the Act is an aggrieved person who must sue within six months after the eviction. Recovery of possession is one of the ways of redress for a wrongful eviction and S. 14 applies to the suit. Though a man may not be a party to the proceedings resulting in the order of eviction he may be aggrieved by the actual eviction. ——S. 14—"*Person aggrieved*" — *Meaning of.*

Under S. 14 the cause of action arises on the date of the levy of penalty or assessment or forfeiture or eviction. A mere notice given by the Govt. preliminary to the exercise of the powers under the Act is not a proceeding by which a person is 'aggrieved' and is not a grievance and cannot be taken as the starting point of limitation. A Court deciding the fact of possession for a period should find that the subsequent holder was in the possession before that period also. Acquisitions by prescriptions are not excluded from the description "alienated by sale or otherwise" in the preamble of the Madras Land Revenue Assessment Act, 1876. The present Zemindar on the refusal of the Collector to order separate registry, instituted a suit against defendants for the said relief. Per *Sadasiva Iyer, J.* (*Spencer, J., contra*) :—The Governor in Council has no power under the Act to make rules ousting the jurisdiction of Civil Courts in the matter of inquiring into the validity of elections and relegating those matters to a special tribunal. A person owning properties and residing within the administration area of a Taluq Board has sufficient interest to entitle him to sue for a declaration of the invalidity of an election of a member to that Board. The granting of such a declaration however is entirely in the discretion of the court and the plff. cannot claim as of right. The rules framed by the Governor-in Council under the Local Boards Act, dated 6th June 1917, have the effect of excluding the jurisdiction of Civil Courts to entertain objections to the validity of elections even when those objections were

The procedure laid down for sales under this Act is the same as that under the Revenue Recovery Act by virtue of S 76 of the Local Boards Act. But the provisions of the Revenue Recovery Act (Ss. 32 and 42) that a sale for arrears of land revenue frees the land from all encumbrances and from all favourable rented leases, do not apply to a sale under the Local Boards Act. MADRAS LOCAL BOARDS ACT (XIV OF 1920).

——S. 10—*Creation of Taluq Board with twenty members—Only 19 members appointed—Election of President—Validity.*

When the Local Boards Act, 1920, came into force it was decided to bifurcate the existing Taluq Board at Negapatam and to provide a Taluq Board for each Revenue Taluq under S. 6 of the Act which requires that there should be a Taluq Board constituted for each Taluq, the Government having the power under S. 4 to declare by a notification any part of a District to be a Taluq. It was consequently decided to have one Taluq Board for the Revenue Taluq of Negapatam (and another for Nannilam). In order to effect this bifurcation the necessary notifications were published in the *Fort. St. George Gazette*. The District Board of Tanjore resolved that the Negapatam Taluq Board to be twenty. The Government by notification appointed 19 persons to be members of the Taluq Board, Negapatam. While a twentieth member had not been appointed, the nineteen members elected a President on the 21st August 1922. The Subordinate Judge having held that the election of the President was invalid for the reason that there were only 19 members in the re-constituted Taluq Board of Negapatam at the time of election, *held*, in revision that the High Court has power to revise the order of the Subordinate Judge notwithstanding that R. 12, cl. 3 of the rules to the conduct of enquiries and the decision

The permanent settlement in Madras as in Bengal proceeded on the footing that, whatever may have been the interest of the Zemindars and other landholders prior to the British occupation the Govt. would grant them and their heirs "permanent property in their land" subject to a fixed Jamma. ——Ss. 3 and 4 — *Sanad— Construction of sanad—Right of Government to resume Inam lands.*

A sanad issued by the Government on 24-8-1802 to a Zemindar in the Presidency of Madras (Arcot) stated that in consideration of the relief which the Zemindar's finances would derive from the relinquishment of his military sevices and of the Government charging itself with the duty of protecting his territories, "The British Government has fixed your annual contribution, including equivalent for military service and the established peishkush for every year, at the sum of star pagodas 111,058 which said amount shall never be liable to changes under any circumstances", Cl. (5) reserved to the Government the revenue derived from salt and saltpetre, and certain other subjects, witnout making any mention of lakhiraj or inam lands. It appeared that the assessment had been fixed on the whole zemindari, irrespective of the assets derived from each particular unit of property within it. Madras Regulation XXV of 1802 which was passed on July 13, 1802 provided by S. 3 that in all cases of disputed assessment reference was to be had to the sanads and kabuliyats executed; and by S. 4 that the Government having reserved to itself certain articles of revenue including "lakhiraj lands (or lands exempt from the payment of Government revenue) and of all other lands paying only favourable quit-rents, the permanent assessment of the land tax shall be made exclusively of the said articles now recited." At the time of issue of the sanad there were in the zemindari certain religious and charitable inams and lakhiraj lands granted by the Zemindar or his predecessors. *Held* that having regard to the terms of the sanad and the circumstances in which it was issued the Government was not entitled to resume them or assess them to the public revenue. MADRAS PERMANENT SETTLEMENT REGULATION (XXV OF 1802), S. 4.

——S. 4—*Construction—Lands granted by Zemindar prior to Permanent Settlement.*

Both the Madras Regulation XXV of 1802 and the sanads issued under it speak from their dates so that all grants of Inam made by Zemindars prior to 1802 are *prima facie* excluded from the Permanent Settlement. ——S. 4—*Scope of.*

S. 4 does not restrict the power of Govt. to alienate all classes of land revenue. It is largely declaratory and explanatory of the position which the *Zemindars* were to occupy under the *sanads* granted to them. (*Wallis, C. ——S. 4—*Inam—Jodi— Liability to pay—Resumption—Effect.*

Under S. 4 what was excluded from consideration in fixing the permanent assessment payable by a *Zemindar* is not *Jodi* payable by an *Inamdar*, to a *Zemindar* but a difference between the *Jodi* and the proper assessment claimable from the lands if they had not been granted in *Inam*. The Govt. reserved its powers to deal with the difference only and not with the *Jodi* itself. The resumption of a service *Inam* and the levy of full assessment by Govt. thereon does not therefore, take away the liability of the *Inamdar* to pay *Jodi* to *Zemindar*. ——S. 4—*Small quit-rent—Meaning.*

The words 'small quit-rent' in the Sanad granted to the Zemindar meant a favourable rent. 'Alienated' included only permanent grants and not temporary leases. Gatthi Toomula is a voluntary payment made to a Zemindar under a contract to keep a tank in repair ; such a cess is not revenue within Ss. 4 and 12 of Regn.XXV of 1802 and is not an illegal levy. In a suit for possession by an auction purchaser at a rent sale against a defaulter in possession after the sale, the deft. can plead the illegality of the sale as a defence, though he may have taken no steps to set aside the sale ; but the irregularity should however be a material one depending on the circumstances of each particular case. An adjourning of the sale by the selling officer from the date fixed by the Court for want of time, the sale of items of property in a different order from what was advertised in the sale proclamation, the inclusion of the property of many defaulters in one sale notice, are not grave or material irregularities to bar a suit for possession, unless substantial injury has been caused thereby. MADRAS REVENUE RECOVERY ACT (II OF 1864).

——*Land Revenue— Nature of— Suit for refund of.*

Land Revenue is a tax imposed on lands by virtue of the prerogative of the estate. The liability to pay Land Revenue does not rest on contract or a relation resembling contract. It is entirely a matter for the Government to decide what amount of revenue should be levied on any land and civil courts have no jurisdiction to try any question relating to it. A suit for refund of land Revenue on the ground that as the government failed to supply water for raising wet crops, it was not entitled to levy the revenue assessed on the land, is outside the jurisdiction of a civil court and cannot be tried by it (*Benson and Sundara Aiyar, JJ.*) SECRETARY OF STATE *v.* RAJU. **(1912) M. A mere demand by Government under the Madras Revenue Recovery Act does not amount to a proceeding under it and thence S. 59 has no application. A suit to claim refund of *Tiruvajasti* under the Irrigation Cess Act is governed not by S. 59 of the Madras Revenue Recovery Act but by Art. 16, Sch. II, of the Lim Act. ——*Illegal sale.*

Although an owner or proprietor of land, that has been sold under S. 44 of the Madras Revenue Recovery Act illegally, has failed to take steps for setting aside the sale under S. 38 of the Act, he is not debarred from pleading such illegality as a bar to an ejectment suit by the purchaser. ——Ss. 37, 38 (1)—*Proviso, and 59—Revenue sale -Confirmation by Deputy Collector--Approved by Collector—Collection of sale by Collector on the direction of the Board of Revenue—Suit to set aside order—Limitation.*

The power of general superintendence over Collectors given to the Board of Revenue by Regs. I and II of 1803, did not authorise the latter to direct the Collector to pass a special order contrary to what he had already done and to cancel a revenue sale which he had confirmed. The order under S. 38 (3) of the Revenue Recovery Act, having been passed by the Deputy Collector within S. 38 (3) neither he nor the Collector had power under the Act to pass any further order. The proviso to S. 38 does not give power to set aside a sale after it had been confirmed under the first part of the section. The order setting aside the sale was, in effect, a review of the previous order confirming the sale and passed wholly without jurisdiction and not under any power confirmed by the Act. Consequently a suit to set aside the order need not be brought within the period prescribed by S. 59 of the Act II of 1864). ——S. 38 — *Revenue sale—Irregularity — Collusion.*

In case of a revenue sale, the Collector has the right to set it aside on the ground of any irregularity in the conduct of the sale. But for a Civil Court to interfere with the validity of a Revenue sale there must be sufficient ground. Omission to distrain moveables or thecrops or an agreement between the purchaser and the mortgagee of the property, acollusive agreement among bidders not to bid against each other, these do not constitute sufficient grounds for the Civil Court to set aside a Revenue sale. to the Govt. has not been assigned, it is recoverable by the Govt. like *Peishkush*, by sale of the *Inamdar's* interest under the Rev Recovery Act. Where the right to collect the *jodi* has been transferred to a *Zamindar* or *Mittadar*, in consideration of his undertaking to pay a fixed *Peishkukh*, the *Zamindar* or *Mittadar* has no charge upon the lands therefor and he can only recover arrears of *jodi* in a suit for rent. ——S. 59—*Fraud or irregularity—Suit to set aside—Limitation.*

A suit under S. 59 must be brought within 6 months after the plff has knowledge of fraud or irregularities in the conduct of sale for arrears of revenue, and time runs from the date of discovery of fraud and not from the date of sale. Per *Ramesam, J.* 'Cause of action' in S. 59 means not only the transaction by which the plff. is aggrieved but also the discovery of fraud by which the transaction was brought about. MADRAS REVENUE RECOVERY ACT (II OF 1864), S. 59.

——S. 59—*Suit by aggrieved person—Revenue sale—Illegality—Suit to set aside—Limitation.*

A suit to set aside a sale under S. 59 of the Madras Revenue Recovery Act by an officer competent to conduct under the authority of the Act must be instituted within six months from the date of the sale. The onus is on plff. to prove that the provisions of the Act could not be legally applied and that his case is out of the scope of S. 59. (*Wallis, C. ——S. 59—*Suit by aggrieved person—Revenue sale—Omission to serve notice—Effect.*

Omission to serve notice of demand is an illegality or irregularity by the Collector and would vitiate his proceedings but this is not enough for the aggrieved party to enable him to obtain a declaration that the sale is invalid if he does not sue within the period prescribed by S. 59 of the Act. He cannot ignore and sue for possession or declaration. 34 C. 811; 44 C. 328 (P. C.) Dist. (*Seshagiri Iyer and Napier, JJ.*) VADUR CHINNA NAGI REDDI *v.* DEVINENI VENKATARAMANIAH. **23 M. L. ——S. 59— *Applicability of— Purchase by mortgagor—Benami.*

S. 59 of the Act does not apply to a case where the mortgagor purchases the mortgaged property at a revenue sale due to his own default, benami in another's name, the revenue sale need not be set aside by the mortgagee before suing on the mortgage. Whether the provision of the Lim. Act applies to cases under special or local Acts providing for limitation, depends on whether the special Act enacts a complete body of provisions as to the limitation of suits under the Act. S. 59 of the Madras Revenue Recovery Act is subject to the general law of limitation for the time being in force, and a suit to set aside a sale for fraud is subject to S. 15 (2) of the Lim. Act notwithstanding S. 29 of the Act. 34 M. 505, Dist. 12 M. 168; 3 M. L J 255, Rel. (*Benson and Sundara Aiyar, JJ.*) SRINIVASA AIYANGAR *v.* SECRETARY OF STATE. **38 Mad. 92: 18 I. C. 617: 24 M L. ——Ss. 11 12 and 13—*Order of Survey Officer—On what point final.*

The order of a Survey Officer in a boundary case under S. 12 (3) of the Act is final only with regard to the dispute about the boundary to go into the Survey. ——Ss. 12 and 13—*Suit to establish right—Limitation for—Starting point—Party to dispute before survey officer—Party to appeal—Who is.*

A statement in the judgment of the appellate Survey Officer that a party to the appeal had notice of the appeal is not conclusive of the fact of service of the notice where the Civil Court finds that neither party to the appeal in the Survey proceedings had notice of the appeal. In such a cause the jurisdiction of the civil court is not ousted. The first defendant and plaintiff had been given rough pattas at the survey for the lands found to be in their possession. The first defendant presented to the superior Survey Officer a petition in which he stated that his patta included too little and the plaintiff's too much and asked for correction of each. He did not formally set out the plaintiff as respondent to his appeal though he desired relief against her by way of appeal. Notice of the appeal was issued to the plaintiff but was not duly served on her before the date fixed for the hearing, but the superior Survey Officer nevertheless declared her *ex parte* and allowed the appeal. Custom.

——*Custom—Exclusion of daughters—Onus of proof—Presumption—Bom. Regn. IV of 1872, S. 26.*

When either party to a suit sets up custom as a rule of decision the onus lies on him to prove the custom. No presumption in favour of custom is created by S. 26 of Bom. Regn. IV of 1872. It is only when custom is proved that it is made the rule of decision. Where instances are adduced in proof of a custom of exclusion of daughters from the inheritance in a Mahomedan family the position and relationship of the different members of the family must be considered in determining whether claims were not met because the rights to which they relate did not exist or whether they were put on one side because in the circumstances, there was no need for asserting them. ——*Custom — Joint family — Hindu Law if applicable*

A Mahomedan family, governed by Mahommedan law adopted the Hindu religion in matters of worship but there was no evidence of any custom in the family by which the Mahomedan law in respect of descent of property had been altered or varied. *Held*, that the family did not cease to be governed by Mahomedan law in matters of succession and that the females succeeded to propriety interest in accordance with that law. Dower.

——*Dower—Lien—Right to interest on unpaid dower—Mesne profits.*

Dower is an essential incident under the Mussalman law to the status of marriage; and even if it is not specified at the time of marriage, the law will adjudge it on definite principles. The dower ranks as a debt and the widow's right is no greater than that of any other unsecured creditor, except that if she lawfully, with the express or implied consent of the husband, or his other heirs, obtains possession of the whole or part of his estate, to satisfy her claim with the rents and issues accruing therefrom she is entitled to retain such possession as against the heirs until it is satisfied. This is called the widow's lien for dower and the only creditor's lien of Mahomedan Law judicially recognised. The widow lawfully in possession of her husband's estate in lieu of her dower cannot, in the absence of an agreement to that effect, be made to account for the profits of the estate without being allowed reasonable compensation for forbearing to enforce her right to the dower debt; and this compensation is best calculated on the basis of an equitable rate of interest on the dower debt. If the annual profits are less than 6 per cent. interest on the dower debt the widow need not be made to account at all and the heirs might be given a decree for possession of their respective shares on payment of a quota of the dower proportionate to

those shares. 9 W. R. 318. Rel. (*Lord Parker.*) HAMIRA BIBI *v.* ZUBAIDA BIBI.

——*Dower—Nature of right—Widow's lien.*

A dower debt due to a Mahomedan lady is not a secured debt but a simple debt ranking equally with other debts due from the estate The widow's lien for dower is the right which she has where she has taken peaceable possession of her husband's estate to hold that estate as against the heirs of her husband until they satisfy her claim to dower It has no application to the share which she holds in her own right as heir of her husband still less can it give her right to prevent another creditor against her husband's estate from recovering the amount which is due to him. It is not the Mahomedan Law that a woman who is pregnant is considered to be suffering from a mortal disease but the Law is that the danger does not begin until the pains of labour appear. Consequently to vitiate a remission of dower by a Mahomedan lady on the ground of its having been made during her mortal illness it must be shown that it was made after the pains of labour has commenced. A Mahomedan and his wife belonging to the Shia sect, referred their disputes as to dower to arbitrators, who under a registered award, transferred the absolute ownership of the husband's property *in praesenti* to the wife, reserving possession of it to the husband for his life and giving him control over its income with the proviso that, if the wife died before the husband, the possession over the entire property should continue for his life and that no lawful heir would have any right to sue for the property and its profits ; that if the husband died before the wife, the wife should be owner of the property and its mesne profits and that the heirs of the husband could not interfere. Mutation of names was effected in favour of the wife and she executed a general power-of-attorney in favour of her husband for the management of the property which she got under the award: *Held*, that the fact that possession was reserved for the husband, in no way shows that the ownership of the property did not pass, the award was sufficient to transfer ownership to the wife *in praesenti*, 26 All. 266, Ref. Under Mahomedan Law, the dower is a debt and the moment it is settled, it is enforceable as a debt. The dower becomes the property of the wife by the mere contract and she may therefore, deal with or dispose of it before taking its possession. The woman is entitled to give it up or relinquish it in continuance of the contract. Such relinquishment need not take place immediately after the husband's death. She can relinquish at any time. It can be remitted in favour of the heir after the husband's death. No consideration is needed for such relinquishment, but free assent must be established. As the debt is enforceable under the Contract Act, it can also be released under S. 63. It is doubtful however, whether a dower debt could be discharged by verbal relinquishment. Under the Mahomedan Law, when a widow is in possession of the property of her husband, and her dower or any part of it is due and unpaid, she is entitled, as against the other heirs of her husband, to retain such possession until her dower debt is paid, provided that her possession was obtained lawfully and without force or fraud. The widow, in such a case, may be required to account for the profits received by her, deducting the amount she might have made if the dower had been paid to her immediately on her husband's death. Dower is a debt due from the entire estate, her share in the inheritance also being liable to contribute proportionately. Where the widow is in possession of the entire estate, she cannot sue for dower, unless, by an administration suit, in which she will have to place the property in the hands of the Court. If she is in possession of only a portion, she can recover her dower debt by an administration suit or by a suit against the other heirs, provided she offers to surrender the possession of the property in her hands. in which case the litigation assumes the character of an administation suit. If she is in possession of no property, she can sue the persons in possession, and realise the amount out of the assets of the deceased. ———*Dower—Amount of—Discretion of Court to reduce it—S. 5, Oudh Laws Act—Shiah and Hanafi law.*

In exercising the discretion vested in it by S. 5 of the Oudh Laws Act (XVIII of 1876) the Court may reduce the amount of dower though fixed by contract. The Court considers the status of the lady and the assets of the husband's estate irrespective of the liabilities incurred by the husband before his death. Under *Shiah* Law, consummation is not the only means of establishing

dower : under Hanafi Law, the right is founded on consummation and the physical act of consummation is presumed, whereas in the former case it has to be proved. Under the shiah law, the wife's right to dower vests in her when the marriage is consummated. When she or her husband dies before consummation and during the subsistance of the contract it is doubtful whether the wife is to have her dower in full or only half of it. The Court may accept the more equitable doctrine which secures to, the wife a right to dower in full. Till the contrary is proved it should be assumed that a husband lived in good terms with his wife and that he had no desire to deprive her of the full rights accruing to her under the nuptial contract. ———*Dower—Lien in favour of widow—Transfer of debt and the property—Transfer of the property without the debts—Rights of transferee—Death of widow—Effect of merger.*

Where a Mahomedan widow in possession of her husband's property "in lieu of dower" transfers the security, either with or without the dower debt, the transferee is entitled to retain possession of the property until the dower debt is paid, though, where the transfer is without the privity of the persons bound to discharge the dower debt, the transferee takes the security subject to the state of account between the widow and the persons bound to discharge the dower debt at the date of the transfer and any payment made by these persons to the widow after, but without notice of the transfer must, in the absence of collusion, be allowed to those persons as against the transferee.

But the case is different where there is a sale of the property and not an assignment of the security. The right to hold the property as security for the dower debt, and to continue in possession thereof until the dower debt is satisfied is property, and is both heritable and transferable. 43 A. 127 : 32 *A*. 551 ; 43 M. 214 Ref.

But the widow has no proprietary title in the property except to the extent of her share therein ; and where she purports to sell the property and not the security only, the sale is utterly ineffectual so as to confer any title on the vendee. But though the vendee takes no title to the property by virtue, of the sale, he is entitled to retain possession of the property, if he is put in possession thereof, not indeed by virtue of the deed of sale but because, so long as the debt remains unsatisfied, the heirs at law could not claim to be put in possession of the property, and the widow herself would be bound to make good her representation to the vendee to the extent of such interest as she could lawfully transfer. The widow is entitled to retain possession of the property so long as her claim is not satisfied. There is nothing to prevent her from putting some one else in possession of the property, and conferring on him the same right which she could exercise over the property. Having done so, she could not maintain ejectment against him, if she has received consideration for the transaction ; and it follows that, though the sale does not operate to confer any title on the vendee, he is still entitled to retain possession of the property as against the widow and all persons claiming through the widow. so long as there is a debt due to the widow. He is also entitled to maintain his possession of the property as against the heirs at law so long as they do not discharge the dower debt.

Where therefore a Mahomedan widow in possession of her husband's property as a security for her dower debt, purports to sell the property and puts the vendee in possession of the property the vendee is entitled to retain possession of the property so long as her claim to the dower remains unsatisfied. But the moment the dower debt is satisfied either by payment to the widow or to her heirs the heirs of the husband are entitled to recover possession of the property from the transferee; and the same result follows where the heirs of the widow happen to be heirs of her husband, for in such an event, the right to receive the dower debt and the liability to pay the dower debt unite inthe same persons and there is consequently

———*Dower—Widow's lien in respect of—Transfer of lien—Rights of transferee.*

The lien on the property of her husband given by the Mahomedan law to a widow in respect of her dower is a right to possession until the debt is discharged. It is not an interest in property which can be severed from the right to dower and transferred as a separate interest. It is a right to the possession of the property by the person entitled to be paid the dower as long as the debt is not discharged either by the income from the property or by payment by the heirs or others interested in discharging the debt. It gives the widow the right to possession and so long as she does not transfer her dower debt and that debt remains undischarged, she may transfer, for her life-time possession of the property the proceeds of which belong to her until the debt is paid off. The position of the transferee in such a case might be regarded as constructively her possession and in this sense it would not be severed from the dower debt. Just as she could dispose of the proceeds in any way she chose during her life-time and until the debt was discharged so also she could transfer possession of the property in the same circumstances, the transferee being entitled to the usufruct. But if she should transfer the dower-debt or if she should die and her estate devolve upon her heirs or assignees, the transferee's rights to possession would be extinguished as the debt and the security cannot be severed, thereby converting the security into a separate interest in the property. ———*Dower—Transfer of dower debt—Express words—Necessity.*

In proving a transfer of a widow's dower debt with security it is necessary to show that words were used to the effect. *Quaere* If express words are sufficient to prove a transfer of a dower debt with security why should not a covenant clearly implied in a document, have the same effect, when a document executed by a Muhamadan widow purported to sell willingly and vend absolutely the whole of her estate for a consideration of a monthly allowance till the widow's death and it was expressly stated in the document that the widow reserved no right of cancellation of the document and that the proprietary interests, title and rights which she had, were all transferred to the persons in whose favour the document was executed and that on her death her heirs would have no right of interference or claim to the said rights in the properties. *Held* that the instrument showed an out and out sale of the whole estate but it had not the effect of transferring the dower debt or its security, and that even though the transferee was put in possession by the widow it was not adverse possession against her heirs inasmuch as it was only the widow's possession and the cause of action arose only after her death. Family Arrangement

———*Family arrangement — Maintenance charged as income—Validity of.*

In a suit relating to 'wakf' properties the parties entered into a compromise as a result of which the claim to the properties was given up and a family arrangement was made pursuant to the deed of wakf to the effect that certain maintenance allowances were to be paid regularly to the parties and their heirs, and the mutawalli afterwards failed to pay the allowances to the heirs on the ground that the original wakf itself

was invalid so far as the provision for the heirs was concerned.

Held, even though the family arrangement purported to confirm the wakfnamas, which were invalid, maintenance had thereby become a charge on the properties and the agreement having become a contract for valuable consideration, was quite valid and enforceable. Gift—Conditional Gift.

———*Gift—Conditional gift—Construction.*

According to Hanafi Law, any derogation from the completeness of a gift is null; in conditional gifts, if the intention to give to the donee the entire subject-matter be clear, the gift is valid but the condition void Where A, gifts property to B, stipulating that B should pay a certain part of the usufruct periodically to C both the gift and the condition would be valid and an alienee of this property from B would take it subject to this condition.(11 M. MAHOMEDAN LAW—Gift—Delivery of possession

——*Gift—Death illness—Testamentary disposition.*

Under the Mahomedan Law a gift made by a person suffering from illness of which he eventually died is invalid as it is made under pressure of the sense of the imminence of death. Whether the donor was or was not seeking to defeat the legitimate heirs by means of a deposition of his property which though nominally a gift, was really of a testamentary nature was the real question inasmuch as the donor was suffering at the moment from a fatal illness, and had no expectation of recovery. Such an alienation of his property would affect his own personal interest no more than a testamentary bequest. The essential ground of impeaching a death bed gift under the principle of marz-ul-maut is that a conveyance of gift is being used to effect what is really a testamentary disposition. The fact that the deed itself contains expressions more suitable to a will than to a deed of gift should not be regarded as wholly without significance. 12 I. C. 730 : 8 A. L. J. 1154.

——*Gift—Death illness—Nature of.*

Gifts by a Mahomedan during marz-ul-maut cannot take effect beyond a third of the surplus of his estate, unless the heirs consent after the donor's death to the excess taking effect. Nor can such gift take effect if made in favour of an heir unless the other heirs consent thereto after the donor's death. The same rule applies to a waqf created during death illness. 35 Cal. 1 ; 2 Cal. 184, 30 Cal 683, 36 All. 431 foll. Whether or not a particular illness constitutes a marz-ul-maut is a mixed question of law and fact. To establish it it must be proved that the illness was the preponderent cause of the apprehension of death and there must also be some external indicia, such as inability to attend to ordinary avocations. In the absence of direct evidence of the state of health of the settler, evidence of antecedent and subsequent conditions of the settler should convert to that point of time. According to the Mahomedan Law a voluntary gift is invalid unless it is accompanied by delivery of the thing given so far as it is capable of delivery; if it is an undivided share of immoveable property, physical possession is impossible and the receipt of the appropriate portion of the rent or income issuing out of or derived from it is the only form the necessary possession could assume. The necessity for delivery of possession exists even though the gift is made by a registered trust deed. In this respect the Mahomedan Law is not affected by the T. P. Act or the Trusts Act, 1882. In the case of a gift for consideration, delivery of possession is not necessary but actual payment of consideration and a *bona fide* intention on the part of the donor to divest himself *in praesenti* of the property and to confer it on the donee must be proved. Where a Mahomedan makes a gift of property in consideration of a previous arrangement regarding his wife's claim for dower, and the arrangement is found to be false, then the gift is without consideration. The fact that the wife might subsequently elect to accept the arrangement does not make the gift one for consideration. (*Lord Atkinson.*) SADIK HUSAIN KHAN *v.* HASSIM ALI KHAN. **38 All. 627: 14 A. ———*Gift—Delivery of possession.*

Where A executed a gift deed in respect of certain lands in his actual possession and certain lands in the possession of a mortgagee, and perfected the deed by transfer of possession of the former property, *held*, that the court was bound to look at the gift as a whole and could not split it up and consider the gift in respect of the portion of the property of which possession could be given, as valid, and in respect of the other portion invalid. Looking at the gift as a whole the principles of the Mahomedan Law had been complied with and is sufficient to support a claim by the donee to redeem the properties in the possession of the mortgagee. ———*Gift—Delivery of possession.*

Under Mahomedan Law, there must be a delivery of possession to validate a gift. Where the donor and the donee both are present on the premises gifted away, an appropriate intention may be gathered to put the one out as well as the other into possession without any actual physical departure or formal entry. But it does not follow necessarily that in every case where the two are present, the possession must be deemed to have been transferred. ———*Gift—Delivery of possession—Property mortgaged.*

According to modern conditions and conceptions of legal rights, an equity of redemption, as distinguished from the property itself can be the subject of a valid gift. A gift is valid even if the donee obtains possession subsequent to the gift. Property in possession of mortgagee can be the subject of gift if the mortgagor-donor can divest himself of the whole of what he can. Gift being a contract under Mahomedan Law, and a voluntary contract without consideration, it is not enforceable unless accompanied by possession. By possession in the law of gift is meant such possession as the nature of the subject of gift is capable of. As, property in possession of a tenant or lessee is considered to be in the constructive possession of the landlord or lessor, so, property in possession of the mortgagee may be considered, for the sake of making a gift, to be in the constructive possession of the mortgagor. 15 Cal. 684 (P.C.) ———*Gift—Delivery of possession—Undivided share—Musha—Gift to two brothers—Adult and minor—Possession taken by the adult brother—Effect of.*

Mookerjee, J.—In a case of gift by a Mahomedan when it is alleged that the transaction was fictitious the Court has to rely upon the surrounding circumstances contemporaneous with the gift and the subsequent conduct of the parties concerned. If on a gift of a house by a Mahomedan donor to two of his sons, one of whom is an adult and the other is a minor, the adult son takes possession of it, is absolutely void. Under the Mahomedan Law as administered by British Indian Courts where the subject of the gift is incorporial property not susceptible of physical possession, a gift thereof may be appropriated and possible in the circumstances. The doctrine relating to the invalidity of gifts of musha though not favoured, cannot altogether be ignored or repudiated. *Sanderson, C. J.*—A gift to two donees one of whom is an adult and the other a minor but not in the guardianship of the donor at the time of the gift, is valid. Where the adult son accepts the gift for himself and his minor brother at one and the same time and thereby places himself in the position of a trustee or guardian for his brother, and consequently the donor will not take seisin of the property for his minor son and no "confusion" will arise. According to Mahomedan Law, seisin or actual possession is not necessary. To complete the *hiba*, donor must evince his intention of making a complete transfer of the ownership in the property from himself to the donee by placing the latter in a position to enjoy it beneficially, or to make use of it consistently with its purpose, and in considering this question the relationship of the parties must be kept in view. ———*Gift — Delivery of possession—Gift by grandfather to grandson—Transfer of possession to grandson—Onus.*

Though the ordinary rule of Mahomedan Law is that a gift is not valid till it is completed by the delivery of the property as given, so far as it is capable of such delivery, no transfer of possession is necessary in the case of a gift by a father to his infant son, the declaration of the gift being considerd to change the possession of father on his own account, into possession as guardian on his son's account. The law is the same in every case where the donee is a minor in the lawful custody of the donor. If the minor is living with the grandfather under his care and in his custody, no express acceptance or transfer of possession is needed to complete the gift, though the minor's father is alive. The presumption is that the donor subsequenty holds possession and collects the income on the minor's behalf. The burden of proof is not in the first instance on the minor or on any one who seeks to support the gift to show that the income of the property was spent for the minor's benefit. On the other hand the person seeking to invalidate the gift must show that in spite of the gift the donor continued to deal with the property as if it was his own. 29 M.L.J. 733 ; 15 M.L.T. 345, Dist. ———*Gift—Delivery of possession— Incorporeal right—Hanafi Law.*

Under the Hanafi Law the gift of an incorporeal right is valid and complete if the donor has done all he could to put the donee in a position to get the benefit of the right gifted and also divested himself of all the signs of title to the subject-matter of the gift. Where the question is whether the donor had done all the acts necessary to divest himself and invest the donee with the *indicia* of title, the fact that the gift deed contains an invalid condition is irrelevant. The assignment of monies due under a policy or under promissory notes is an assignment of an incorporeal right and therefore the technical rules of Mahomedan Law as to gifts do not apply to it even where both the parties are Mahomedans. 38 I. C. 248 : 4 L. W. 339.

———*Gift—Delivery of possession— Essentials —Registration—If effective in transferring possession.*

The donor should do everything in his power to transfer possession and the donee must be placed in such a position that without any further act on the part of the donor or his representatives or the Court, the donee can have the benefit of that which he claims ; the essential condition of a valid gift being transfer of possession, mere registration of the property in the name of the donee does not amount to a transfer of possession. If a donor executes a deed of gift but reserves to his own use the rent and pronts of the property given, the gift is not complete. There must be delivery of possession. 31 I. C. 545 : (1915) M. W. N. 430.

———*Gift—Delivery of possession— Necessity.*

Delivery of possession is necessary in a gift under the Mahomedan Law ; hence a donor who makes a gift by a change of names in the Collector's certificate, but retains the benefit of the property gifted for himself after the gift-deed is executed and continues to treat his possession not as a trustee or agent of the donee, but on his own behalf and lives there, makes no delivery to constitute a valid gift. 30 M. 519 ; 28 A. 439 ; P. A father made a gift of the house to his minor son by a registered deed, reserving in himself a right to take the rent for his livelihood and there was nothing to show that anything was at all done beyond the execution of the registered deed ; *held*, that the gift cannot be said to be valid without a consideration of the question whether possession of the property was transferred and in what manner. The presumption that after the gift by a father to his minor son, possession by a father must be deemed to be on behalf of his son, cannot be extended to cases where the property is of such a nature that a mere physical control over it is not the only indication as to the ownership of the property. ———*Gift—Delivery of possession— Transmutation of possession—Donor living in house.*

The Mahomedan Law insists upon that there should be complete delivery of seisin for a *hiba* to be valid. The Mahomedan Law does not contemplate any particular mode of delivery of possession. The question whether there has been a complete delivery or not in a particular case is a question of fact, to be determined with regard to the intention and conduct of the parties and the nature of the property concerned in each case. It is not necessary in every case that the donor should formally depart from the premises and there should be a formal entry on the part of the donee. 9 B. 146 ; 29 B. 468 ; 16 M. 43 ; 30 M. 305 ; 28 A. 147 Rel. 19 M. 343 Expl. A Mahomedan lady subject to the Hanafi Law executed a deed of gift and excepted some of the property, retaining possession over it free of rent and revenue, and stated that after her death the donee would be its proprietor and that the donor would have no power to transfer it by mortgage, sale or gift. *Held*, that even in respect of the excepted property the deed was a valid gift, inasmuch as the donor transferred the corpus of the property to the donee, reserving for herself the usufruct for life, which was permitted under the Hanafi Law. The stipulation not to transfer her interests in the property during her life time satisfied the conditions of the Hanafi law with regard to the delivery of possession. (*Stuart and Kanhaiya Lal, A. A gift of two distinct properties perfected with regard to only one of which there was delivery of possession is not void in its entirety but takes effect with regard to that duly delivered. A gift under Mahomedan Law is not valid without seisin and does not become complete until possession of the thing is taken ; but if the property is incapable of physical possession, such possession, actual or constructive as it is capable of, is sufficient, provided however, the donor himself is out of possession. A gift of a house therefore conveys no title unless accompanied by delivery of possession or followed by taking possession with the permission of the donor. (*Kanhaiya Lal, A. J. The owner of the property if not in possession, cannot make a valid gift of it, or rather a gift made by him will not pass the ownership of the property to the donor until the donee takes possession with the donor's consent, unless the subject-matter of the gift is in the possession of a trustee or agent of the donor. ———*Gift—Undivided share—Gift of a portion of a house by father to son—House in actual possession of another son.*

A gift of a share in property is not invalid on the ground of mushaa if the defect has been cured by subsequent possession. Where a father gifts a portion of a house to his son B but that part is actually occupied by another son C, it is sufficient for the father to direct B to take possession of it. Even if C be regarded as being in adverse possession, the father having done all that he could possibly have done under the circumstances the transaction was complete and gave the donee or transferee a complete title to recover possession inasmuch as to allow a person claiming adversely to the true owner to set up the invalidity of the gift would be to put a premium on acts of violence. ———*Gift—Validity of—Gift to private persons—To the donor for life and then to other persons not valid.*

A gift to the donor himself for life and then over to others is not in accordance with the principles of Mahomedan Law and is bad *ab initio* as far as the remoter donees are concerned. While the Mahomedan Law insists that a gift to private persons should be free of all pious and religious purposes, it does not necessarily prohibit the making of the gift to *wakf* which may be contained in a deed which makes other gifts at the same time to private persons. If the two gifts can be completely separated, then the gifts to private persons are not necessarily invalid because there is a separate gift made at the same time in the *waqf*. The expression "within the prohibited degrees of consanguinity" includes the case of a father and son. A *waqf* of four-tenths of a property settled by way of gift, is bad and void. ———*Gift—Validity of—Acceptance.*

A gift not accepted by the donee at the time of the execution or registration of the deed is not invalid. It is not necessary for the validity of gift that it must be accepted at any particular moment of the transaction. A declaration by the donor in the deed of gift giving possession binds the heirs of the donor and possession once taken is not invalidated by any subsequent change of possession. Possession given and taken effectually transfers undivided property. ———*Guardianship* — De facto *guardian — Power to bind minor son's interest by reference to arbitration—C. P. Code, Sch. II para,* 17—*Subsequent assent by* de jure *guardian.*

A Mahomedan mother on behalf of her minor children entered into an agreement with some others to refer to arbitrators a dispute about some properties and they all made an application to Court under Sch. II, para. 17 C. P. Code. The guardian of the minors' properties appointed by the District Judge subsequently gave his assent to the agreement to refer and participate in the said application under para 17. The Court thereupon acted upon the agreement and referred the dispute to arbitration : *Held*, that the mother was not competent to bind the infants by the agreement to refer to arbitration. The mother has no larger powers to deal with her minor child's property than any outsider or non-relative who happens to have charge for the time being of the infant. The natural guardian can perform acts which are purely advantageous to the infant, but can impose no obligation on the infant. 45 Cal. 878 foll. A party who entered into the agreement to refer under a misconception as to the legal authority of the mother, may afterwards withdraw therefrom. The legal guardian's assent subsequently given to the agreement to refer and his participation in an assent to the application under para. 17 cannot validate the agreement which was the basis of that application.

Per *Beachcroft, J.*—The fact that the Subordinate Judge subsequently found the mother fit to act for the minors would not validate an arrangement which in its inception was invalid, there being no appointment of the mother to act for the infant in the partition proceedings by the District Judge who takes the place of the Kazi in Mahomedan Law. An alienation of minor's property by his unauthorized guardian is neither void nor voidable.

MAHOMEDAN LAW—Guardianship — Guardian for marriage.

It becomes valid or void if it is affirmed or disaffirmed by the minor on his attaining majority whose decision then dates back to the date of the transaction. Generally dealings of a *de facto* guardian with the minor's property do not bind the minor but there might be exceptional cases of urgent and imperative necessity which would bind the minor. In the case of a continuing obligation, an absence of repudiation or acceptance of service with full knowledge of the facts implies an undertaking to adhere to the obligation. An alienation of the minor's property without justifying cause by a guardian must be regarded as manqif or dependent, its validity depending on the minor's accepting the transaction after majority. 34 A. 213, P. C. Dist. A guardian *de facto* of a minor could bind the minor in cases of urgent and imperative necessity by entering into transaction for the benefit of the minor as for his maintenance or for performance of funeral ceremonies or the discharge of other obligations binding on the minors. Guardianship—Guardian for marriage.

——*Guardianship—Guardian for marriage.*

Under the Mahomedan Law the guardian for marriage of a minor is different from the guardian of the property of the minor and from the guardian of the person of the minor; and though a guardian is necessary for the validity of the marriage of a minor, it is not obligatory on the guardian for marriage or the guardian of the person to provide a suitable marriage for the ward. The Mahomedan law of guardianship of marriage has not been abrogated by implication by S. 24 of the Guardian and Wards Act. (*Mookerjee and Beachcroft, JJ.*) MONIJAN BIBI *v.* DT. ———*Guardianship—Right to—Elder brother, not a guardian—Alienation by* de facto *guardian void.*

Under the Mahomedan Law, in the absence of duly appointed testamentary guardians, the care of a minor's property would devolve first on the father and his executor, next on the paternal grandfather and his executor, and failing these, the right of nomination of a guardian rests with the ruling power. A brother of the minor would therefore have no right to act as guardian except under the authority of an appointment by the court. A person who has without authority been acting as the *de facto* guardian of a minor may by his *de facto* guardianship assume important responsibilities in relation to the minor's property but he cannot thereby clothe himself with legal power to sell it. Under Mahomedan law, acknowledgment cannot establish the legitimacy of a child proved to be illegitimate. It is only when it is uncertain whether there was a marriage or not or legitimacy or not that acknowledgments are effectual to establish legitimacy. Disproof of both a marriage and a semblance of marriage is necessary to invalidate an acknowledgment valid in other respects. *Per Woodroffe, J.*—If mere concubinage is established there is neither marriage nor semblance of marriage which, a proved concubinage excludes. Mere acknowledgment as son for the purpose of getting him admitted into certain educational institutions and procuring his marriage with a ward of the Court of Wards are not acknowledgments with the intention of conferring legitimacy. *Per Woodroffe and Chitty, JJ.*

———*Legitimacy—Rules governing— Burden of proof.*

The question whether the rule of Mahomedan law as to the maximum period of gestation is a rule of evidence or a rule of substantive law, is a highly debatable question. The modern view of Mahomedan jurists limits the period of gestation to 10 months. Hence it is for the person who alleges there were abnormal circumstances attending his birth to show that they existed. (*Shadi Lal C. J. and Abdul Quadir, J.*) UMAR HAYAT *v.* MISRI KHAN. **1924 Lah. 177.**

———*Legitimacy—Acknowledgment of—When applies.*

1922 Lah. 706.

———*Legitimacy—Acknowledgment—Effect of Presumption.*

Acknowledgment by a Mahomedan father creates a presumption of legitimacy but an acknowledgment has only the effect of legitimation where either the fact of the marriage or its exact time with reference to the legitimacy of the child's birth is a matter of uncertainty. Where however there is clear evidence that no marriage ever took place, the presumption has no place, 10 A. 289. 11 M. I. A 94; 21 C. 966 Rel. (*Broadway, J.*) ABDUL AZIZ *v.* MT. AMEER BEGAM.

———*Legitimacy—Acknowledgment of sonship —Effect of.*

The result of an acknowledgment is to invest the son with a legitimate status with all the consequences which that imports 38 A. 627 (P. C.) Ref. The law refuses to declare a man a bastard except on the clearest and most positive proof of his illegitimacy, and there must be positive evidence that the marriage did not take place before it can be disproved. An acknowledgment by the master that he had a son from the slave girl who had married and that the son is entitled to succeed him, gives the son all the rights of a legitimate son. ———*Legitimacy — Presumption — Long co-habitation—Acknowledgment by father—Rebuttal —Non-Muslim wife—Adoption—Child begotten by zina, if legitimate—Evidence Act, S. 112.*

Wherever marriage may be presumed from co-habitation combined with the other circumstances for the purpose of conferring upon a woman the status of a wife, it may also be presumed for the purpose of establishing paternity and legitimacy. Paternity is established in the person said to be the father by proof of legal presumption that the child was begotten by him on a woman who was at the time of conception his lawful wife or was in good faith or reasonably believed by him to be such or whose marriage though irregular (*fasid*) was not at that time been terminated by actual separation. Paternity and legitimacy may also be presumed by acknowledgment by the putative father, where it is humanly and legally possible that he might have been the father in fact and there might have been a valid marriage between him and the mother of the acknowledged child. Where a child has been acknowledged by a Mahomedan father, the burden of disproving the paternity and legitimacy of such child lies heavily on the person who denies them. The evidence necessary to disprove the paternity and legitimacy must be extremely cogent to displace the presumption of legitimacy which is not an ordinary presumption of evidence but a strong rule of the Mahomedan Law. Neither paternity nor legitimacy can be obtained by adoption. A child begotten by *Zina* cannot be made legitimate by the subsequent marriage of its parents before its birth, S. 112 of the Evidence Act being inapplicable to Mahomedans. The marriage of a Mahomedan with a Non-Muslim woman who is not the lawful wife of another man, is merely irregular (*fasid*) and not altogether void (*batil*) and the children of such a union are legitimate. Where the legitimacy of a person is disputed and it is shown that a lawful union between his parents was impossible, but at the same time there is evidence as to the treatement of that person as a legitimate son, the presumption arising from the course of treatment of this kind must yield to proof of circumstances which, when established preclude all possibility of a lawful union between his parents. ——*Legitimacy—Proof of.*

Legitimacy may be proved without direct proof either of marriage or formal act of legitimation by circumstantial evidence, such as a statement by the deceased father in a prior litigation, treatment of the boy as a son in the family, being brought up and educated in the house, marriage into the same family, introduction by the father into society as his son, etc. When this is proved the burden is on the persons who deny the status of the wife to prove it conclusively. The allegation by the mother who was a co-deft, in the case along with the son, throwing doubt on the validity of marriage is immaterial. Under Shiah Law, connection by fosterage is a ground of prohibition for marriage. Facts constituting by fosterage laid down 3 M. I A. 295; 8 M. I. A. 136 Ref. to. (*Lindsay, J. Marriage—Ante-nuptial agreement.

———*Marriage —Ante-nuptial agreement — Agreement that wife may live with parents, if valid.*

There is nothing in Mahomedan law opposed to an agreement entered into at the time of marriage which does not allow the wife to deny her husband conjugal rights but permits her, on certain contingencies arising to leave her husband's house and to insist on the conjugal rights being exercised at her parents' residence. Conditions entered into at the time of marriage and contained in a *Kobinamah* are enforceable although the *Kobinamah* is executed subsequent to the marriage. (*Newbould and Duval, JJ.*) SABED KHAN *v.* BITATUNNESSA BIBI.
52 I. C. 322 : 30 C. L. J. 510.

———*Marriage — Ante-nuptial agreement —* Kobinamah—*Illegal.*

A *Kobinamah* or an agreement whereby the wife is given a right to ask her husband to live with her in her father's house is illegal as the agreement implies that the wife will continue to live in her father's house. The wife is not entitled to use this agreement for supporting her claims to divorce her husband and consequently the right to her deferred dower. (*Stephen and Mullick, JJ.*) IMAM ALI PATWARI *v.* ARPATUNNISSA. **21 I. C. 87 : 18 C. W. N 693.**

———*Marriage — Ante-nuptial agreement — Agreement to stay with the girl's parents—Breach —Effect.*

An agreement by the husband to live with his wife in her parents' house is invalid and the wife cannot put it as a defence in a suit by the husband for restitution of conjugal right and if she is proved to have left her father's house and went to live with the husband, she is deemed to have waived the right if any under such agreement. (*Broadway and Abdul Raoof, JJ.*) FATIMA BIBI *v.* NUR MAHOMED. **60 I. C. 88 : 1 Lah. 597.**

———*Marriage—Ante-nuptial agreements.*

As regards ante-nuptial stipulations, when a marriage contract is entered into subject to a reasonable or essential condition, not opposed to the Mahomedan Law, the Court may set aside the marriage on the breach of that condition unless there is waiver or acquiescence. ———*Marriage — Ante-nuptial agreement — Dissolution—Divorce—Conditions.*

An agreement that the wife should be entitled to get a divorce pronounced on the breach of a certain condition of the marriage contract by her husband, is not void as being opposed to the principles or policy of the Mahomedan Law, as it treats marriage as a purely civil contract (*Hallifax, A J. Marriage—Consent of Guardian.

———*Marriage—Consent of guardian—Minor girl—Essentials for validity of—Right to give girl in marriage.*

A ceremony of marriage performed between a Mahomedan adult and a minor Mahomedan girl would, however regular in other respects, be ineffectual to create a valid marriage unless the guardian of the minor had previously consented to the marriage, such consent being essential. When the marriage of a Mahomedan girl alleged to be a minor with a Mahomedan adult is questioned on the former's behalf, it is incumbent on the latter to establish by legal evidence either that the marriage was contracted with the consent of the girl's lawful guardian or that the girl having reached her majority herself consented to the same. Neither under the Mahomedan Law nor under any statutory enactment has the maternal grandmother of a Mahomedan minor, any preferential right to take charge of the minor as against the minor's paternal uncle. Under the Mahomedan Law, after the death of the father, the daughter can be given in marriage by the paternal uncle only and when there is a paternal uncle, the maternal grandmother cannot give the daughter in marriage even if authorised by the paternal uncle, or by the terms of a nuncupative will of the father. ———*Marriage — Consent of guardian — Puberty.*

The marriage of a minor girl without the consent of her guardian is void. If in a suit for restitution of conjugal rights, it is shown that the girl was 15 years of age at the time of the marriage, puberty would be presumed. Marriage—Forms of.

———*Marriage — Forms of — Shiah School—* Muta *and* Nikha *Marriages—Incidents.*

A *Muta* marriage is a temporary marriage fixed by agreement between the parties. This confers no right of inheritance on the wife, though the children born of this union are legitimate. A *Nikha* marriage is a marriage performed with due religious ceremonies and confers on the woman the full status of a wife with rights of succession, etc. Where co-habitation originates in a *Muta* marriage and it is continued for a long time there being no evidence as to the term, the presumption is that it was continued by agreement during the whole period of co-habitation. Where a Mahomedan marries a woman in the *Muta* form and had two daughters by this marriage and afterwards married her in the *Nikha* form and a daughter was born by this marriage. *Held*, on a claim by her third daughter for a 7/8th share of her father's estate, that she was entitled to only ⅛ of 7/8 inasmuch as according to the *Shiah* law, the two daughters born during the continuance of the *Muta* were also legitimate and entitled to an equal share with her. Where there is a co-habitation

after period of *Muta* is over, there is a presumption in favour of its continuance and the continuation does not as such confer on the wife any rights of inheritance to her husband Where the claims of some of the heirs are barred the benefit of the same goes to the party in possession and not to the other co-heirs. ———*Marriage—Forms of*—Muta *form—Essentials—Legitimacy.*

The essentials of a *muta* form of marriage are :—(1) there must be a definite period for the marriage to last, (2) a sum of money should be paid to the bride as dower. Mere proof of cohabitation and parentage is not sufficient under Mahomadan Law to establish legitimacy, there must be an acknowledgment express or implied as son by the reputed father. (3 M I. Marriage—Formalities.

———*Marriage— Formalities — Ceremonies—Absence—Effect of.*

Under the Shia law the presence of witnesses is not necessary in any matter regarding marriage, and if a marriage were contracted by the spouses themselves or their guardians in private, it would be valid; even if there were an injunction to secrecy that would not invalidate it. There is nothing in the Mahomedan Law which countenances the doctrine that a marriage which is a valid marriage can be invalidated by the desire of the parties to have a more elaborate ceremony performed later. There is no provision for a ceremony which would create a marriage if afterwards ratified by a subsequent ceremony. If there had been a stipulation after the marriage had taken place to the effect that it would not be consummated until the lapse of a specified period, such a stipulation is valid. The law appoints no specific ceremony for the performance of a *nikha* marriage and no religious rites are necessary for contracting a valid marriage. Where the essentials are present, *viz.*, the declaration and the acceptance expressed in such a manner as to demonstrate an intention to give away without any ambiguity, presence or the absence of religious ceremonials is immaterial and in no way affects the validity of the marriage.

There is nothing in the Shia law to justify the imposition in the matter of marriage of conditions

which have been imposed upon persons dealing with pardanashin women in business matters. The Shia law lays down that, if a woman is adult and sane, she is competent to enter into a matrimonial engagement without advice or consent from anybody (*Stuart, J.*) MT. NAFIS UNNISSA *v.* MIRZA MUMTAZ HUSAIN. **4 U. P. L. R 17 (A) : 1922 All. 363.**

———*Marriage—Formalities of—Witnesses—Absence of.*

No particular type of class of witnesses is necessary for a marriage under the Mahomedan Law. Only some witnesses must be present. Marriage contracted without witnesses is not illegal but merely irregular. Irregularity caused by absence of witnesses to the contract of marriage, can be cured by consummation. (*Banerjee, J.*) BASHIRUNNISA *v* BUNYAD ALI. **50 I. C 677.**

———*Marriage—Formalities—Agent for minor—Marriage if valid.*

For a Mahomedan marriage all that is necessary is a proposal and acceptance in the presence of witnesses. The fact that the vakil who acted for the girl at the marriage, was a minor would not affect the validity of the marriage inasmuch as under S. 184 of the Contract Act a minor can act as agent between the principal and a third person (*Beachcroft, J.*) ERFANDDIN MOLLA *v.* BADAN SHEIKH. **51 I. C. 583.**

——— *Marriage—Formalities necessary for.*

The Mahomedan law appoints no specific ceremony for the contractual performance of a marriage but according to recognised custom marriages among all the sects are solemnized by a person conversant with the requirements of the law (*i.e.*) the Kazi while two other persons are appointed for the purpose of acting on behalf of the contracting parties with a certain number of witnesses. Marriage—Fosterage.

———*Marriage—Fosterage — Prohibited degrees of marriage*—Factum valet.

Under Mahomedan Law the prohibition regarding marriage attaching to a woman's natural son and foster-daughter is absolute and not conditional upon the birth of the one and the suckling of the other occurring within any limited period. The principle of *factum valet* does not render good in law a marriage which ought not in law to have been celebrated. (*Walmsley, J.*) JANAB ALI MIA *v.* NAZAMADDIN PRADHANIA. **29 I. C. 871 : 19 C. W N 897.**

Marriage—Incidents.

———*Marriage — Incidents — Dissolution—Death or divorce Remarriage.*

Under the Mahomedan Law death or divorce dissolves the tie between the husband and wife. On the happening of either event the relationship between the parties ceases. Much more would it be so in the case of a woman who after the death of her first husband marries into another

family. (*Rafique and Piggott, JJ.*) JAHANGIR KHAN *v.* SYED ABDHUR RAHMAN.
20 A. L. J. 56 : L. R. 3 A. 23 : 1923 A. 128.

——*Marriage — Incidents — Restitution of conjugal rights—Discretion of court.*

Where there is a valid marriage under the Mahomedan Law, a Court has not very great discretion in granting or refusing restitution of conjugal rights but in a case where the wife is anxious to go to her husband but is being restrained by her relatives, there is every reason why the relief should be granted. 11 M. I. A. 551 ref. (*Stuart, J*) MT. NAFIS-UN-NISSA *v.* MIRZA MUMTAZ HUSAIN. 4 U. P. L. R. 17 (A.) : 1922 All. 363.

——*Marriage—Incidents—Change of status.*

Marriage under Mahomedan Law, though spoken of as a contract involves a change of status. The contract is merged in the new status acquired by the parties and as long as that status continues so long do the rights and liabilities of the parties under the contract continue. (*Macleod, C. J. and Heaton, J.*) KULSAMBI *v.* ABDUL KADIR. 45 Bom. 151 : 59 I. C. 433 : 22 Bom. L. R. 1142.

——*Marriage—Incidents — Puberty — Presumption—Husband neglecting her even after puberty—Effect.*

Where a Mahomedan girl was married when she was 3 years old as an exchange for her father marrying the sister of the husband, and from that time until 2 years after she attained puberty the husband neglected her he is not entitled to restitution of conjugal rights. The age of puberty is generally fixed at 14 in the case of males and 12 in the case of females but according to Mahomedan Law a girl must be presumed to have reached puberty on completing her 15th year. (*Shadi Lal, C. J. and Zafar Ali, J.*) MT. NAWAB BIBI *v.* ALLAH DITTA.

——*Marriage—Incidents — Agreement for future separation—Legality of.*

An agreement for future separation between a Mahomedan husband and wife is void. 7 Bom. L. R. 602 Ref. Similarly an agreement which leaves the wife absolutely free to separate herself from her husband without reason. Where however an agreement provides for wife leaving her husband in case of ill-treatment and the husband agrees to pay the wife a monthly sum in consideration of the wife giving up her defences in a suit for restitution by the husband the agreement is valid and enforceable. Marriage—Presumption.

——*Marriage—Presumption — Long cohabitation—Dancing girl.*

Where a dancing girl of questionable antecedents, whose connection with her employer was illegitimate from its inception, sets up a valid marriage at a particular time and place and fails to prove it, such marriage cannot be

inferred from mere circumstantial evidence, nor from evidence of long continued and exclusive cohabitation on the ostensible footing of lawful wife. (*Piggott and Walsh, JJ.*) MUSSAMMAT SHABBAN BIBI *v.* KHALIQ SHAH. 51. I. C. 624 : 16 A. L. J. 754.

——*Marriage—Presumption—Cohabitation.*

It is not mere cohabitation and birth of a child but cohabitation and birth with treatment amounting to acknowledgment of marriage and legitimacy of the child that will suffice to establish the marriage of the parents 7 W. Marriage—Repudiation.

——*Marriage — Repudiation — Option of puberty.*

A girl can exercise the option of repudiation of marriage under the Mahomedan Law only after she attains puberty and not before. A denial of the *factum* of marriage by the girl when examined as a witness in a criminal case where her mother was charged with bigamy does not amount to the exercise of the option of repudiation of marriage on puberty. A minor girl, given in marriage by a person other than the father or grandfather, can repudiate the marriage on attaining puberty. Though equality in family or descent is one of the requisites of Hanafi School it is a moot point of the *Sunni* law whether a marriage of adult woman, otherwise lawful, can be or must be set aside by a British Court at the instance of the guardians, that is the relatives who would be guardians, if the woman had been a minor, if they prove such social inequality on the part of the bridegroom, as would injuriously affect the family credit or interest. The doctrine of Shia Law is clear that the social inferiority of the husband is no ground for the cancellation of the marriage. In the absence of fraud a minor girl given in marriage by her father, cannot avoid the marriage merely on the ground of the husband's social inequality. Nor can the Court dissolve the nuptial tie. ———*Partition—Partial partition — Law of administration.*

Mahomedans under their own law are never joint in estate but only tenants in common whether they live together or whether they do not. Tenants in common are not obliged when anxious to distribute a particular property, to sue for a partition of all other properties in which they are interested. There is nothing to preclude one of the joint owners of several items of property from seeking a partition of one of such items of property. Under Mahomedan Law, the estate of a deceased person devolves on his death on his heirs and each of the heirs becomes entitled to his definite fraction of every part of the estate. It is therefore futile to describe a suit, in which one heir claims to receive his share of the property of the deceased from another heir, as a suit for partial partition and to say that therefore the suit is not maintainable. Both the terminology and the principles of Hindu Law are in such case inapplicable. 28 All 39 ; 6 B. L. R. 140 foll. 38 Mad. 684 Referred to. (*Kinkaid, J. C. Raymond and Kennedy, A. J. Religious office.

———*Religious Office—Endowment--Khankah, meaning of—Succession of eldest son is not by right.*

A Khankah is a monastery or religious institution where dervishes and other seekers after truth congregate for religious instruction and devotional exercises. It has generally been founded by a dervish or a sufi professing esoteric beliefs, whose teaching and personal sanctity have attracted disciples whom he initiates into his doctrines. After his death he is often revered as a saint, and his humble takia (or abode) grows into a khankah and his durgah (or tomb) into a rauzah (or shrine). The khankah is usually under the governance of a sajjadanashin (the one seated on the prayer mat) who not only acts as mutwali (or manager) of the institution and of the adjoining mosque, but also is the spiritual preceptor of the adherents. The founder is generally the first sajjadanashin and after his death the spiritual line (silsilla) is extended by a succession of sajjadanashins, generally members of his family chosen by him or according to directions given by him in his lifetime, or selected by the fakirs and muries, and formally installed ; and the income of the institution is usually received and expended by them. On the death of a sajjadanashin, his eldest son is not entitled as of

right to succeed him; but the eldest son, if qualified is the natural successor of his father, and, where the evidence is clear that he was formally recognised and installed by the pirs with the express consent and assistance of the opponent it is not open to the opponent to question his position as sajjadanashin or his right to manage the mosque and the property attached to the khankah. Dedication may be inferred although the word wakf is not shown to have been used Where the serais and langars were used for the accommodation of the pilgrims, but were never appropriated to the religious purposes of the khankah; and were not erected out of the offerings at the shrine and where the Tumandars and the arbitrators all of them skilled in Mahomedan Law treated these houses as private property and partible, and the parties to the dispute accepted this view and agreed to a partition *Held* they must not be treated as wakf. Ordinarily speaking, the sajjadanashin has a larger right in the surplus income than a mutwalli for so long as he does not spend it in wicked living or in objects wholly alien to his office he, like the mahant of a Hindu math has full power of disposition over it. But this does not mean that in every case the whole income from a khankah is at the disposal of the sajjadanashin; and it is plain from the authorities that at certain shrines the members of the founder's family other than the sajjadanashin are treated as entitled to share in the surplus offerings which remain after payment of expenses. A religious office can be held by a woman under the Mahomedan law, unless there are duties of a religious nature attached to the office which she cannot perform in person or by deputy and the burden of establishing that a woman is precluded from holding a particular office is on those who plead the exclusion. 41 Mad. 1033, Rel. The doctrine is based on the fundamental distinction between the temporal affairs of a mosque and the spiritual function connected with it. *Quaere.*—Whether the uniformity which characterizes the successive appointments for nearly a century may not improbably indicate that the practice had a lawful origin in the direction given for appointments of successor to the office of mutwalli by the original founder, though they can no longer be traced with certainty owing to the lapse of time. A Sajjadanashin maintains the unbroken spiritual line from the original preceptor. The office of Sajjadanashin can exist only by virtue of the direction of the spiritual founder or by a valid custom. Two-thirds majority of the mutwallis on whom very wide powers were conferred by the resolution having concurred in passing the resolution removing the plaintiff from the committee of the management of the institution plaintiff was legally removed. The new trustees were bound to take steps to acquaint themselves with the state of the trust property and to get in the trust estate including any funds belonging to the institution. The mere charge upon the profits of the estate of certain items which must in the course of time necessarily cease, being confined to one family, and which after the lapse will leave the whole property in fact for the original purposes for which the endowment was made does not render the endowment invalid under the Mahomedan Law. Waqf—Management—Public and private trusts—Court's powers of interference

The Mahomedan Law like the English draws a wide distinction between public and private trusts. In the case of a waqf created for the benefit of specific individuals, the express intentions of the founder have to be given effect to in carrying out the trust. With respect however to public religious trusts, the Kazi's (now represented by the Civil Court) discretion is wide. He may not depart from the intentions of the founder or from any rules fixed by him as to the objects of benefaction, but as regards management, which must be governed by circumstances, he has complete discretion. MAHOMEDAN LAW—Waqf—Management.

———*Waqf—Management—Devolution—Trust Act (Mahomedan Law)—Committee.*

A will embodying waqf of a property dedicated to some charitable and private specified objects with directions for its application creates a good trust in spite of its vagueness because of vesting all sorts of powers in the managing committee. A committee appointed to manage a trust created by will has no sufficient number of persons than a Court has power to add strangers to serve on it, even against the directions of the testator, of appointing only his descendants, when none or sufficient number of them is available. ———*Waqf — Mosque — Charitable objects—Mode of dedication—Tomb of a saint—Cutchi Memons—Position of the High Priest.*

Under Mahomedan Law, a gift for charity may take two forms, *viz*, either by way of waqf signifying an endowment or else by way of Sadakah, which signifies a donation. In the Mussalman Waqf Validating Act, 1918, a waqf is defined as the permanent dedication by a person professing the Mussalman faith of any property for any purpose recognised by the Mussalman law as religious, pious or charitable. Though the Act is not retrospective, the definition contains a statement of the Mohomedan Law on the point. All works of religious charity or public utility not condemned by the Mahomedan religion are objects of waqf. But the particular objects intended must be indicated with a reasonable degree of precision in order that the Courts of British India may apply to the endowment. A gift by way of sadakah indicates the special motive of the gift is to acquire religious merit or nearness to God, but it does not follow that because such a gift is made it is a charity in the eye of law. Where the distribution of a gift is to be made by persons in succession as holders of a particular religious or charitable office that goes far to establish—and it may be, goes sufficiently far to establish—that the whole gift is charitable. But the mere fact that the donee holds a religious office is not by itself enough, and if

MAHOMEDAN LAW—Waqf—Mosque.

trusts are added which are not at all charitable, the whole gift fails. Although a gift for public purposes generally is void as being so general and undefined that it cannot be executed by the Court, yet a gift for public purposes in a specified locality is a valid charitable gift. In a suit for a a scheme against the High Priest of the Dawoodi Borah community on a declaration that a mosque named after one Chandaboy who was regarded as a saint by the Dawoodi Borah community and that the tomb of Chandaboy and the offerings placed in an offertory box and a building partly acquired out of such funds were annexed to a public trust, the defence was Chandaboy was not a saint and the mosque was not named after him, that the offerings belonged to the High priest by virtue of his office and that there was no public religious or charitable trust. It was found on the evidence (1) that the mosque was regarded as God's house and held by the High Priest and passed to his successor on the gadi and not to his heirs ; (2) that the High Priest could not alienate or sell the mosque ; (3) that he could not close it except for some temporary and necessary purpose, such as repairs or sanitation ; (4) that it was a mosque for the use of Dawoodi Borah community although others were occasionally permitted to use it ; and (5) that it could not be used for any other purpose than a mosque. It was also proved that the site had been used for a mosque for over 100 years : *Held*, that there was a public trust of a charitable or religious nature and that the High Priest was the trustee thereof, though the sole right of management vested in him and his successors in office. Consequently the defendant was accountable as a trustee though he had wide powers of management and also a wide discretionary power as the particular purposes for the benefit of the community on which the surplus should be expended. There was no necessity for framing a scheme and disturbing the possession of the High Priest (*Martin, J*) THE ADVOCATE GENERAL OF BOMBAY *v.* YUSUFALLI EBRAHIM **24 Bom L. R 1060.**

——*Waqf—Mosque — Worshippers in the vicinity—Rights of.*

——*Waqf—Mosque—Essentials of.*

It is not necessary that a mosque should have a minaret. Any place dedicated for prayer is a mosque. A mosque dedicated to God cannot be appropriated by any particular sect of Sunnis. It is not necessary that a mosque should be a dedication with reservation, that it should be used only by persons holding particular views of the ritual. Every Mahomedan had a right to enter mosque and perform his prayers according to his conscience. If a mosque is reserved for the use of a particular sect the dedication is valid But the reservation is not. (*Abdur Raoof, J.*) MAULA BAKHSH *v.* AMIRUDDIN. **57 I C. 1000 : 1 Lah. 317.**

——*Waqf—Mutwalli—Appointment of.*

A manager of the mosque is not necessarily the mutwalli thereof. The waqf in the first place has the power of appointment to the office of mutwalli ; on his death it lies with his executors and failing them it rests solely with the *Kazi* or under the present system with the District Judge. *Quere*:--If devotees or the congregation of a mass can validly appoint a mutwalli. *Semble* : Where the waqf is in favour of an ascertainable body the beneficiaries may elect a manager and not a mutwalli. The appointment of mutwalli is not essential for the validity of an appropriation. A manager who collects subscription and defrays expenses is not necessarily the mutwalli of the mosque. Though a public mosque was used by both the Hanantes and Raja-Yadins but was appropriated for the use of the latter community, the fact that the mutwalli had become a Hanafite does not discharge him from Mutwallship. A Mutwalli of a waqf has in the absence of a special prohibition in the deed of endowment, the right to lease the waqf property for 3 years and with the consent of the *kazi* for a longer period. ———*Waqf— Mutwalli— Powers of—Alienation of property—Suit to set aside—Power of Court to appoint mutwalli.*

There is no power in the *Mutwalli* of a mosque to effect a partition of the land belonging to a mosque. Where there is an alienation of the *Waqf* property anybody interested in its due administration may question it, though he is not the *Mutwalli* and not entitled to be put into possession of the property. The texts of Mahomedan Law ordinarily contemplate only one *Mutwalli* but when two are more persons are appointed by a waqf their position would be similar to co-trustees. A "partition" between them would not affect their legal possession or joint responsibility. If there is a vacancy in the office of mutwalli the Court can designate a person who, in accordance with the terms of the dedication, is entitled to act as *Mutwalli* or if there is no *waqfnamah* it can appoint somebody as Mutwalli. The Court can also remove a mutwalli for misconduct under S. 92, C. P. C. (*Oldfield and Tyabji, JJ.*) MUHAMMAD GHOUSE *v.* MOIDEEN SIDDIKH.

———*Waqf — Mutwalli— Removal of—Issue of inam title deeds in the name of Mutwalli—Mutwalli subject to waqf and liable to removal by him—Mosque—Object of—Succession — Principle of—Kazi—Office involving performance of religious duties—Majority of holder.*

Certain villages granted by the Mahomedan rulers as *inam* for carrying religious worship in a mosque, were resumed by the British Govt. and given back to the grantors. The inam title-deeds were issued in the name of the Mutwalli for the time being to be nominated by the grantors. *Held*, that the intention was to make a grant of the villages an inam to the original waqf or founder of the endowment and not to that Mutwalli himself personally. Where the Mutwalli of a mosque has according to precedent, to be recognised and appointed at each succession by the waqf, the former cannot claim a hereditary right in such office. Nor can a bequest of the Mutwalliship by the predecessor-in-office in favour of his son, be of any effect. A Mutwalli of a mosque is subject to the control of the waqf and is removeable by him for proper reasons. Defiance of the authority of the waqf and failure to submit accounts on being required to do are sufficient reasons for dismissing a Mutwalli. Per *Sadasiva Aiyar, J.*—All mosques should be treated being intended for the use of the Mussalman public without distinction. 7 A. 461, Ref. The determination of the question of succession to an office in a mosque depends not on the general law of property but upon the rules which the founder of the endowment has established or in the absence of such rule on custom. Under the Mahomedan Law the power of removing the Mutwalli is ordinarily vested in the Kazi but if under the scheme settled by the waqif, the grantor reserves to himself and his heirs the power of removing the Mutwalli and of making nominations from time to time such a power would not be illegal, provided it is not detrimental to the interests of the mosque. 11 C. Waqf—Objects of.

——*Waqf—Objects of—Provisions contained in waqfnama—Validity.*

Where the provision intended to benefit the family of the settlor was not the preponderating feature of the settlement, nor was the provision made for the prepetuation of religious ceremonies and charitable gifts by any means illusory or unsubstantial but were equally undoubtedly, the two provisions—that for the upkeep of the mosque and celebration of worship there on the one hand and that for the benefit of the settlor's family on the other—are, as a matter of drafting separate and severable dispositions, there is a valid creation of a waqf. If the effect of the deed is to give the property in substance to charitable uses, it is valid waqf, but not if the effect is to give the property in substance to the testator's family. When once it is declared that a particular property is waqf or any such expression is used as implies waqf, the right of the waqf is extinguished and the ownership is transferred to the Almighty. Neither the *sajjadanashin* nor the *mutwalli* has any right in the property belonging to the waqf : the property is not vested in him, and he is not trustee in the technical sense. The *waqfnama* does not transfer the property to trustee. Such property as is held in waqf is inalienable, except for the purposes of the waqf. Where an attempt is made to grant a mortgage for purposes foreign to the necessary purposes of the waqf, which is therefore as such unsustainable, the whole mortgage fails. It cannot, for purposes of enforcement, be severed into two distinct charges one declared for pious uses on one part of the property, and another separate charge declared on another part for the use of the mortgagor only. The property itself is not to be regarded as severable and chargeable according to the measure of the interest, which the settlor's family may have in the

———*Waqf—Validity — Power of sale saved to donor.*

The reservation of a power to sell and transfer the property during her life-time by the dedicator derogates from the nature of the grant. Such a condition is inconsistent with a valid waqf which must be certain as to the property appropriated and at the same time unconditional, and not subject to an option. There might be a reservation of the annual profit of the donor for her life, but a provision empowering the donor to sell and appropriate the proceeds thereof for his own or other's benefit, would make the settlement invalid. 6 B. 42; 16 A. ———*Waqf — Validity — Charity illusory—Perpetual family settlement— Life-estate.*

Whether the rule of the Mahomedan Law that a life estate is bad and would resolve itself into an absolute estate can be maintained in the case of *Shaffies* is doubtful. A trust for the granddaughter of the settlor for life and thereafter on her descendants from generation to generation and in default thereof on the settlor's husband's relatives from generation to generation in perpetuity and in default within an ultimate trust for the education and instruction of Mahomedan youths, is void as being an attempt to create a perpetuity in the nature of a family settlement under the guise of a *waqf*. ———*Waqf—Validity —Reservation of life interest.*

A donor can give his property in *waqf* ; that is to say appropriate and dedicate the corpus to the service of God while reserving for himself life-interest in the usufruct. But in case of private persons Mahomeden Law does not allow merely a contingent gift in *waqf*.

This necessarily flows from the jural conception of a *waqf* which is the immediate appropriation and consecration of specified property to the service of God and the reservation of the donor's life-interest in that property does not in any way clash with that conception, for the corpus is there and then definitely and finally appropriated to its intended purpose. But it is plainly otherwise, while the gift is conditioned upon the happening of some future uncertain events. There can on such circumstances be no appropriation synchronizing with the declaration, because should the future events happen, it is neither the donor's intention then nor after the happening or that event that the property should ever be appropriated to the service of the God. ———*Waqf—Validity—Substantial.*

Where there is a substantial dedication of the corpus and income to charitable uses within the test laid down by the Privy Council, the waqf is not invalid as being illusory. The deed containing a substantial dedication of corpus and income for charitable purposes creates a valid waqf. A founder depriving himself of the disposing power of the corpus makes a substantial dedication when he excutes a deed of endowment with a reservation of the power to himself of the disposal of the income in his life time, but not so to his successors and directing the employers of the income to distribute half of the balance after defraying all the necessary costs of rent, and repairs, to his heirs according to the share of each and half to the declared charitable and religious purposes. When a deed of waqf is found to be invalid, though the parties do not plead the illegality and do not wish to raise that objection, a court cannot with propriety declare on the invitation of the plff's, that one of them is the muttawalli in respect of the waqf and is entitled to invoke the assistance of the Court to place him in possession of properties for the furtherance of the objects of the waqf (*Mookerjee and Panton JJ.*) NAWAZADA KHAJAH ATIKULLA *v*, NAWAB KHAJAH HABIBULLAH. **24 C. ——— *Waqf—Validity — Essentials of—Shiah law—Completion of the trust—English law.*

There are four essential requisites on which depends the validity of the *waqf*: (1) that it must be perpetual. (2) it must not be contingent, (3) that possession must be given of the thing dedicated, or more properly, the properties should cease to be the properties of the donor, and (4) that the right of the donor should be entirely divested therefrom. It is, however, recognised in Shiah Law that it is lawful for the *waqif* to constitute himself or herself the *muttwalli*, and that, in such a case, a formal change of possession is out of the question, and that all that is required is, not actual delivery of possession, but a change in the character of possession. The Shia Law differs from the English Law on the question of the completion of the trust, though they agree in this that where the trust was in the first instance created, the Court will enforce it and will not enter into the question whether the trust was acted upon. In England transmutation of possession is not, whereas in Shia Law it is, an essential apre-requisite to the creation of the trust. In England' if the settler purposes to convert himself into a trustee, then the trust is perfectly created as soon as the settler has executed an express declaration of the trust intended to be final or binding on him. In Shia Law, the *waqif* must still show that he has changed the character of his possession, (*Das and Adami, JJ*) MT. BIBI KANIZ ZAINAB *v.* SYED MOBARAK HOSSAIN. **1924 P. 284**

One Y made a will by which he left one-third of the portion of the property, of which he was competent to dispose, to be dealt with for charitable purpose. His executor bought out of the estate certain property known as the Puzandaung property and he then sold all the remaining assets of the estate, except the Puzandaung property for a sum one third of which represented Rs. 1,64,600. In a suit for a declaration that the gift to the charity was bad and that a partition of the estate should take place, the court of first instance decided that the gift to the charity was good and directed that the charity should be entitled to one third of the estate of the testator as it existed at the date of his death. In other words it assumed that the effect of the will was to give to the charity, not one third part of the estate, but a sum that would be measured by ascertaining what one third part of the estate would be at the date when he died. *Held* the will is incapable of bearing any such interpretation and that the charity is entitled to one-third of the whole of the estate, *viz*,, one third of the Puzandaung property and Rs. 1,64,600 representing one third of the proceeds of the property which was realised together with interest on that sum at 6 per cent, from that date. A Mahomedan can dispose of one-third of his estate. Any bequest in excess of one-third requires the consent of heirs. A bequest to an heir is void unless consented to by the other heirs after the testator's death. It is not necessary for the executor of a deceased Mahomedan to take out Probate. A Mahomedan can make on oral will. (*Hartnoll, O. C. J, and Ormond, J.*) MAUNG LU MAUNG *v.* MAUNG PE.
17 I. C. 868 : 5 Bur. L. T. 255.

——— *Will—Consent of heirs—Bequest—Consent, what constitutes.*

A Mahomedan cannot bequeath more than one-third of his property to a stranger or a portion to any one of his several heirs unless his will is expressly or impliedly assented to by his heirs after his death. Voluntary assent given by the heirs during the life time of the testator though in his last illness cannot by itself validate the will. Where there is a direct evidence of the refusal to consent to a will a court ought not to infer from indirect evidence that consent was given. (*Hayward, J. C., and Waley Cohen, A. J. A Mahomedan lady of 15 years of age relinquished her right of dower when her husband was dying and subsequently sued to recover it, *held*, that she was not acting "in the matter of dower" when she gave up her right to it. The ordinary law of the land regarding age of majority applies to renunciation of dower. The exception mentioned in S. 2 of the Indian Majority Act does not apply in such a case, and the relinquishment by her before she attained age of majority according to the Indian Majority Act does not bind her. MALABAR COMPENSATION FOR TEN. IMP. ACT (I OF 1900), S. 3.

MALABAR COMPENSATION FOR TENANTS IMPROVEMENTS ACT (I OF 1900.)

——*Object and Scope of.*

Wallis, C. J.—The Act aims at securing the interests of improvements to the tenants. *Abdur Rahim, J.*—The Act does not interfere with the rights of proprietors to contract with tenants for payment of rent. *Phillips, J.*—In Malabar, improvement can hardly mean cutting down valuable trees like teak, jack or rosewood. ——Ss. 3, 5 and 19 — *Improvements—Increased income—Compensation—Re-valuation—Reclamation land with waters of Jenmi—Admissions—Commissioner's report.*

Under S. 5 of the Act the burden is on the tenant to prove that he or the predecessors in interest have made improvements by some work which has added to the value of the holding and that the said work is suitable and that it is also consistent with the object with which the *kanom* was given. If there were improvements on the land the tenant in possession is not entitled to their value at the time of ejectment if any person other than the landlord had made the improvements. He is entitled to the benefit of the improvements made by himself or by his predecessors in interest. There is no irrebuttable presumption that a tenant has improved the land if the income therefrom has increased. S. 7 of the Act of 1887 deals only with contracts which limit the right of the tenant to make improvements after the date of the contract and does not take away the effect of the settlement as to compensation for improvements effected before the date of the contract. An order for appointing a second commissioner to assess the compensation is not a direction for re-valuation within S. 6 (2) of the Act. Consequently, the second commissioner could only take into account the value prevalent when the first commissioner made his report. Where a tenant, under a contract by the jenmi to supply water at a fixed rate, reclaims the land and raises a second crop on the land, his improvement causes an increase in the value of the net produce of the holdings within the meaning of S. 9 (1) of the Act, though the charge for water must be deducted as a part of the cost of cultivation, in estimating the net income. Where the net annual value of mortgaged land has increased after the mortgagee's coming into possession, it may be presumed that it is due to such works as are referred to in Ss. 3 (3) and 4 of the Act. ——— **Ss. 4. 5, 10 and 19**—*Trees of spontaneous growth—Compensation to tenant for—Right of Jenmi to value of—Agreement enabling Jenmi to cut and remove.*

Rights of landlord and tenant to trees of spontaneous growth are not dealt with by the Act. The Act is confined to the question of compensation payable to the tenant mortgagee in respect of improvements existing at the time of eviction or redemption. The Act awards compensation to the tenant in respect of all spontaneously grown timber left on the holding on ejectment which came into existence either during the term of the tenant or that of his predecessor, if no compensation has already been paid for it. A contract entered into after 1886 which allows the landlord to come on the land and cut and remove spontaneously grown trees is void as it is against the Act. During the tenancy, the tenant is entitled to cut down trees in the ordinary course of prudent forestry though they may belong to the landlord. *Quaere*: Whether trees of spontaneous growth in Malabar before the passing of Act I of 1900 belong to the *jenmi* or to the tenant. ——— **S. 5**—*Improvements—Changes in the property altering its condition—Injunction by Civil Court—Revision—C. P. Code, S. 115.*

There is nothing in S. 5 of the Malabar Compensation for Tenants Improvements Act which ousts the jurisdiction of a Civil Court in a suit between landlord and tenant to grant a temporary injunction restraining the tenant from making changes in the property, changes not made *bona fide* for purposes of agriculture but to harass the plaintiff. Consequently the High Court would not interfere under S. 115, C. P. Code with the grant

Where a landlord in Malabar obtained a decree for ejectment of his tenant for payment by him of an ascertained amount for compensation for value of improvements, applied for the execution of the decree by ejectment of the tenant after depositing into the Court the amount specified in the decree for the value of improvements, *held* that the landlord was entitled to an order for execution in ejectment of the tenant from all the lands specified in the decree even though the value of the improvements effected by the tenant on some of the lands subsequent to the decree had not been ascertained under S. 6 (3) of the Act. A landlord can set off arrears of rent though time barred against a tenant's claim for improvements Tenant's failure to claim immediate restitution where possession passes to the landlord in a decree which is reversed, leads to the presumption that the tenant has impliedly surrendered the land to avoid a suit by the landlord for possession and the tenant is estopped from claiming profits for the period he was out of possession. A mortgagee in Malabar has a right to remain in possession till he is actually paid or till he is ejected by decree of Court and hence he is not accountable for mesne profits till either of those events happen. 33 M. L. J. 591, Foll. *Per Napier, J.*—S. 5 of the Act applies to all tenants except such as have been paid If payment has been made and the term is determined or the mortgage has been discharged, the section has no application. According to the policy of the Act, the compensation is to be ascertained by the Court. If a tenant

accepts payment he waives his right; but if he claims assessment by the Court, there is nothing to deprive him of his statutory right under S. 5, even if the amount tendered is found to be sufficient. ——— **Ss. 5 and 6**—*Ejectment, partial—Assignee of reversion in part of demised premises—Right to eject lessee from part of the premises—Improvements.*

Where several items of property are comprised in a lease, the lessor is not entitled to eject the tenant from a part only of the holding, but the assignee of the reversion in part of the demised premises can eject for due cause from such part on payment of the value of improvements to that part. This is applicable to tenancies in Malabar. *Per Seshagiri Aiyar, J.* (*dissenting*).—Under the Malabar Compensation for Tenants Improvements Act there can be no partial eviction until payment of compensation in respect of the holding as a whole. Neither under S. 109 of the T. P Act nor under the general law of the land can an assignee of part of the demised premises eject the tenant from that portion compulsorily during that period of the tenancy. (*Wallis, C. A mortgagee tenant to whom the Malabar Compensation for Tenants Improvements Act applies is not bound to pay mesne profits from the date of tender of the amount due under the mortgage into Court even when it was found that the money so tendered sufficiently covered the compensation for improvement. ——— **Ss. 5 and 6**—*Object of—'Any sum of money.....of the tenancy.''*

Per *Spencer, J.*—The object of Ss. 5 and 6 of the Act is that there should be complete and final settlement between the lessor or mortgagor and his lessee or mortgagee of all that is due from the former to the latter and from the latter to the former up to the date when the transfer of possession takes place and that the subsequent reopening of accounts between parties whose relationship has ceased, should be avoided. The words "any sum of money accruing due for rent or otherwise in respect of the tenancy" in S 6 of the Act are wide enough to include damages for injury done by the tenants to his mortgagors or lessor's property even though the money may not strictly be said to accrue due until the value of the damages has been ascertained (*Sadasiva Aiyar and Spencer, JJ.*) ABDULLA KOYA *v.* KALLUMPORATH KANARAN. **6 L. S. 9 of the Act applies to cases where the court has to give the entire valuation under the Act ignoring the contracts, if any, between the parties. There cannot be first a valuation under the contract and then under S. 9. S. 9 deals with cases where at the time of the demise the land was of some value and an additional value has been imparted to it by the labour of the tenants. Where a forest was reclaimed into paddy fields by means of tanks and channels dug by the tenants, the tenants cannot claim compensation for the tanks and wells under S. 9 but only under S. 11. The tenant is not entitled to the value of timber cut from the landlord's forest and utilised for constructing farm houses and granaries. The preparation of tables under S. 15 is not intended to create any fresh right in favour of the tenant or of the landlord. Tables prepared under S. 15 are admissible in evidence to prove the compensation to which the tenant is entitled and are presumptive evidence of the proper amount of compensation which however is determined by the market value. So when tables are prepared pending appeal, the appellate Court should not remand the suit for re-valuation according to the tables though if such re-valuation

The imposition of a small *kutti kanom* (stump-fee) does not contravene the provisions of S 19 of the Mal. Compensation Act. If on the other hand the fee imposed is the full value of the trees, it does contravene the provisions of S. 19 of the Act. An agreement to pay some fee on each tree cut during the duration of the lease does not limit the right to claim compensation for improvements. If the trees are in existence at the end of the tenancy the tenant is entitled to compensation but not otherwise, and if he chooses to enjoy the benefit of the tree by cutting it down during the tenancy, no question of compensation arises. 40. ——*Anandravan—Right to sue Kanomdar for redemption.*

Only under special circumstances could the anandravans of a Malabar Tarwad maintain a suit for redemption of a Kanom granted by their Karnavan, as such a suit would amount to an act of interference in the karnavan's management of the tarwad. Collusion between the Karnavan and the Kanomdar or prejudice to the tarwad interest by the continuance of the Kanom would be sufficient to entitle the anandravan to redeem. 43 M. 393 Ref. ——*Applicability—Mappilas.*

The question whether party is governed by Marumakkattayam Law or Malabar Law is a question of fact. (Essentials of a valid custom laid down). A previous decision on the enforceability of custom may be binding on the Court considering the same question subsequently, that question being whether it can be enforced at all. It is always a question of law but the question whether a particular party has adopted the custom is a question of fact. Where the fact of the existence of a custom amongst a particular class of people has been repeatedly proved in the Court, the Courts have the power to take a judicial notice of it. 22 M. 494 ; 27 M. 77 ; 28 M. 1. ——*Applicability of—Moplah of tarwad living in Rangoon.*

The mere fact that a *moplah* member of a tarwad governed by the Marumakkattayam Law had lived for a short period in Rangoon will make no difference in the law applicable to him. The self-acquired property of a member of a tarwad governed by that law devolves upon the tarwad on his death. (*Twomey, C. J., and Ormond, J.*) SALIKA UMMA *v.* MOOPANNATA GATH AMU. 46 I. MALABAR LAW—Custom of impartibility.

Custom of impartibility.

———*Custom of impartibility—Thattans in North Malabar following Makhathayam Law—Presumption—Onus of proof—Veetukutti—Right to share in joint family property—Basis of—Presumption.*

In the case of the Thattan caste in North Malabar, which caste follows Makhathayam Law, the ordinary Hindu Law has in the first instance to be applied, unless and until proof of custom to the contrary is established. Under Makhathayam Law, as under the ordinary Hindu Law, partibility is the rule, and impartibility is the exception *Held*, therefore that in a suit for partition by a member of the Thattan caste in North Malabar, there was no presumption of law in favour of impartibility, and the onus of proving the same lay on the defendant. Evidence of witnesses to the effect that they had never known a case of partition does not afford in law sufficient proof of a valid custom of impartibility. The mere fact that the plaintiff in such a suit is what is known as a Veetukutti or the son of a Sambhandam wife, does not disentitle him to a share in the joint family property. Assuming he is illegitimate, he may claim to be a Sudra for the purposes of Hindu Law, and to be entitled to a share as in the case of an illegitimate son of Sudra under the ordinary Hindu Law ; or he may rest his claim on the ground that his caste follows Sudra custom in the matter of the inheritance of an illegitimate child. If the Hindu Law for Sudras is to be applied to the plaintiff's caste, he will, *prima facie* even if illegitimate, be entitled to a share without further proof or disproof of that custom, while if the case is to rest on proof of a custom by which Sudra's custom is applied to his caste or on proof of independent custom altogether then such custom will have to be proved (*Schwabe, C. A devise by a Malabar testator giving property to his wife and children who are governed by the *Marumakkattayam* Law is presumed to give it to them as a *tavazhi* to be held with the incidents of *tarwad* property. But this presumption is based on the principle of construing the terms of a will in the light of surrounding circumstances and must not be used for the purpose of controlling and modifying the express words of a Will. 16 M. 201; 29 M. Where a *Marumakkattayam* donor gives properties to the childern of the same mother or to a

———*Gift—Delivery of possession — Minor donee—Formalities for*

It is essential for the validity of a gift that there should be a transfer both of ownership and of possession ; where the donor is the *de facto* guardian of the minor donee, a declaration of intention to hold the property on behalf of the minor is sufficient to transfer possession ; the declaration would be of no effect if the person in whose possession the property is, is not in a position to act on behalf of the owner, for a gift in favour of a minor to be valid, possession need not necessarily be given to his guardian and it is sufficient if there is a trustee who can act in his behalf. Where property gifted is land, possession will be deemed to be in the minor only when it is shown that he was in receipt and enjoyment of its produce. Where the donor himself is in possession of the property gifted, there must be some act of his which must show that he intended to hold the property on behalf of the minor ; where there is no such act, the presumption is that he never intended to make any gift (*Ayling and Tyabji, JJ.*) ALAMANAYA YAKUNI NABI SAB *v.* MURUKUTI PAPAIAH. **29 I. ———*Kanom — Nature of transaction— Redemption—Set off.*

In construing whether a kanom and lease form part of the same transaction, the intention of the parties must be gathered from facts of each case. In the circumstances of the case, where a lease was executed on the same day as the mortgage and the arrears of rent was added as a fresh sum in the second mortgage it was held that the mortgage and lease formed but one transaction. In a suit for redemption by the mortgagor, the mortgagee is entitled to set off all arrears of rent, barred or not, against the value of improvements payable by him to the lessees (mortgagees). It is well settled that when redeeming a Kanom, the jenmi is entitled to set off any arrears of rent without regard to limitation against the Kanom amount and the value of improvements. (7 M 545; 8 M. 381 and 415 F.) A mortgagor is ordinarily entitled to his costs in a redemption suit unless by laches he forfeits his rights thereto. Though in Malabar the question of compensation complicates redemption suits, yet where the mortgagor fails to deposit even the mortgage amount in full, the mortgagee must be given his costs. A *tarwad* is not a public or religious charitable trust or company and as such no suit lies for settling schemes for a *tarwad*. To remove a *de jure karnavan* court must be satisfied that the interests of the *tarwad* have been or would be seriously jeopardised by his continuance. Mere carelessness to observe the strict terms of a *karar* is no ground for removal and Courts have no power to impose conditions on a *de jure karnavan* without his consent. Since the members have no general right to partition on good cause shown, the Courts will permit suits for removal of a *de jure karnavan*. Family *Karars* entered into by a majority of the members with the consent of the *de jure guardian* seem to have been upheld, as binding on the whole *tarwad*. An *anandravan* cannot sue on behalf of the tarwad for relief claimable by the *tarwad* nor can he be allowed to sue for a mandatory injunction requiring the *karnavan* to act in a particular way for this will be asking the Court to substitutes its discretion for the *karnavan's*. Karnavan—Position of.

——— *Karnavan—Status of.*

A *Karnavan* of a Malabar *tarwad* has two capacities—a temporal and spiritual. In the former he is the manager of the family properties, maintains the junior members, represents the *tarwad* in transactions with strangers, etc. In his latter capacity he presides at the ceremonies and performs all the religious duties incumbent on him. He has full powers of management of the family property and is even allowed to give Kanoms of the tarwad property without necessity, though the Kanom amounts to an alienation of the family property. The reason for holding that necessity must be proved in order to validate a renewal executed before the expiry of the subsisting Kanom is that it is impossible to predicate some years in advance what the state of affairs will be when the original Kanom expires. ——*Karnavan—Powers of—Trade—Power to carry on—Debts—Liability of junior members*

The pursuit of trade is not one of the ordinary powers of a Malabar karnavan. ——*Landlord and tenant*—Verumpattam *lease—Nature of—Notice—Required to be reasonable and not 6 months.*

In the absence of an express contract to the contrary a *Verumpattam* lease must be treated as a lease from year to year, and the ordinary presumption about twelve years in case of a kanom, is not applicable to a *Verumpattam* lease.

In case of a *Verumpattam* lease, only a reasonable notice to the lessee and not a six months' notice is necessary. The question of what amounts to a reasonable notice is one of facts and is to be determined according to the particular circumstances, and local customs regarding harvesting and letting of lands. The exact synchronizing of the date fixed in the notice of relinquishment with

the termination of the lease period is only of importance in so far as it prevents difficulty in apportionment. (*Ayling and Napier, JJ.*) GANGADHARAN PATTAR *v* CHARIA KUNJUN NI RAJAH.

Maintenance.

———*Maintenance—Junior members—Separate maintenance—Right to—Decrees against karnavan—Form of.*

The junior members of a Malabar Tarwad are entitled to receive maintenance out of the Tarwad house when there is no room for them in the house. If the karnavan makes an insufficient allowance, they can apply to court to rectify the same.

Prima facie the junior members living out of the Tarwad should be treated equally, but the circumstances of each may be looked into in fixing the amount. It is for the karnavan to judge what each should get. Such considerations as health, need for education, earning capacity, prior maintenance grants, can be taken into consideration. What is reasonable maintenance is a question of fact, and a Court will not lightly interfere with the decision of a karnavan as regards the rate he fixes. When a decree for maintenance or arrears is passed against the karnavan of a Malabar Tarwad the proper form is not to make it personally against him but against him as karnavan and against the income of the tarwad properties and the properties of the tarwad. Where a *karar* between a *karnavan* of a Malabar *tarwad* and the head of *tavazhi* provides for the maintenance of the then existing members of the *tavazhi*, members born in the tavazhi subsequent to such karar are entitled to similar maintenance and the *karar* does not bar their claim and in a suit for maintenance of the minor members it is not necessary to make a prayer to set aside the *karar* as they were not parties to it. ———*Maintenance—Menchilavu—Meaning — Right of members of tarwads, and tavazis—Karar fixing Menchilavu—If binds members not parties to its.*

Menchilavu means an allowance required for purposes other than mere food and clothing. It includes sums required for keeping up a respectable appearance consistent with the position and dignity of the family to which a person belongs. Members of Malabar tarwads and Tavazis are entitled by usage to this allowance. A karar fixing the Menchilavu will not bind the members, not parties to it. The award of Menchilavu even if fixed by karar is subject to fluctuations under the altered circumstances of the tarwad. ———*Maintenance—Female member of tarwad living separately with her husband, whether entitled to claim.*

A member of a tarwad who leaves the tarwad housd for a justifiable or proper purpose would be entitled to enforce his or her right to share in the tarwad by receiving maintenance out of it. Separate residence is no ground for refusal A waiver of the right to maintenance may be inferred by the court where the wife lives separately with her husband, a rich man, without making any demand for maintenance. The desirability of living with one's husband is a good or justifiable course for a lady to live away from the tarwad house, though custom is against it. Some social customs may change without affecting legal rights. (*Sundara Iyer and Sadasiva Iyer, JJ.*) PAYYAM VELLATHUMKARA MUTHU AMMA *v.* PAYYAM VELLATHUMKARA GOPALAN. 36 Mad. 593 : 23 M. L. ———*Maintenance—Separate maintenance—Grounds—Discomfort in dwelling in family house.*

It is not open to a junior member of a Malabar tarwad to leave the tarwad house and claim separate maintenance, simply because he or she does not feel comfortable there, but such maintenance should be allowed when the discord between the claimant and the other members of the tarwad is so great as to make it impossible for her to live in the family house. In each case the Court should decide whether the discomfort is so serious as to justify the award of separate maintenance and whether the plff. himself or herself was not greatly responsible for the discomfort A junior female member of a Malabar tarwad left the family house and three years afterwards claimed separate maintenance on the ground that after she returned from a pilgrimage, there was friction between her and the other members because she refused to ratify a *karar* executed by them in her absence. *Held*, that she has not established her right to separate maintenance. MALABAR LAW—Maintenance.

———*Maintenance—Separate maintenance—Rights to—Arrears—Part maintenance*

Separate maintenance in a family governed by *Aliyasanthana Law* will be awarded only where there is inconvenience in living in the family house on account of want of space or quarrels among the members or misconduct of the *karnavan* or where the woman and her children are living with her husband in his house. In awarding maintenance one member should not be allowed more than what he would be entitled to, if he remains in the house and it is also wrong to divide the total income into as many shares as there are members because the ceremonial expenses and other expenses of management have to be met by the *karnavan*. 7 M 233, 14 M. 101 relied upon. In a suit for part maintenance, the Court can infer waiver of the right to it from the conduct of the parties and it may be sufficient to show that the conduct of the parties was such as to lead to that inference. 24 M. 73 Rel. The Othidar's right to pre-empt consists in his right to elect, where there has been an attempt on the part of the owner of the property to sell it to a third person, from the moment the fact comes to his knowledge, whether he will buy it for the same price as that offered by the third person or not. ———*Pre-emption—Othidar's right.*

An *othi* of temple land was executed by A, the trustee in favour of B. A then wanted a further loan from B. Before this further loan was granted, A created an *othi* in favour of C in respect of property mortgaged to B. A part of the consideration for the second *othi* was the discharge of a previous kanom mortgage held by C. In a suit for cancellation of the second *othi*, instituted by B. *Held*, that B had not waived his pre-emption right as A gave no notice to B as to how much money and on what conditions C was prepared to advance. The mortgage in favour of C being a complete transaction, pre-emption could be claimed by B As C was not bound under his mortgage to surrender the lands previously held by him on *kanom* unless he was put in possession of B's lands, the Court could not direct a conveyance in favour of B. The proper course is to declare C's mortgage invalid as against B's *othi* right. (*Benson and Sundara Iyer, JJ.*) PALLAKUNNATH KOLAYI *v.* NARAYANA MANGALNATH.

Stanom.

———*Stanom—Stanomdar— Powers of alienation.*

A *Stanomdar* is also a manager of the family for the time being ; if he grants a lease or makes an alienation to enure beyond his life-time which is for the benefit of the family, it will be upheld, as, on the other hand any such transaction, if prejudicial to the family will be set aside. ———*Stanom — Alienation by stani— When binding on successor.*

The party by whom it is alleged that an alienation by a stani is valid beyond the life-time of the grantor, that is, that it is binding on his successors, ought to prove that the alienation was for the benefit of the estate or (to put it in a different way) was such as would be binding on the other members of a joint Hindu family if made by a

——*Stanom—Succession.*

If a member of a *Tarwad* succeeds to a *Stanom* and acquires property which he does not dispose of his *Tarwad* will be entitled to it. If the *Tarwad* becomes extinct the quondam member who had become a *stani* may claim the property Attainment to a *Stanom* does not sever the relationship altogether. ——*Stanom—Stani—Position of.*

A stanom property vests in the *stani* and not in his family. A *stani* has an estate in the property similar to that of a Hindu widow and on his succession to the *stanom* he loses his rights in the tarwad property, though there is no breakage in his relationship for religious and ceremonial purposes. Succession to *stanom* property is determined by seniority in age and any disqualification to succeed such as the holding of a *palni hakar Rajaship* must be made by clear evidence of family tradition and custom. Tarwad.

——*Tarwad—Tavazhi — Exclusion of male members—Custom.*

There is no custom or usage prevailing among the Marumakkattayam Mappilas of the North Malabar, by which property may be settled as *strisothu* on the female members of *tarwad* or *tavazi* to the exclusion of the males or so as at least to authorise the female members to sell the family property otherwise than for necessary *tarwad* purposes without the consent of the males. *Held* that the evidence was wholly inadequate to prove the prevalence of any custom by which males are treated as having no right to be consulted in the management of the affairs of the *tarward* or *thavazi* and no right to participate in the income of the *tarwad* or *tavazi* properties. MALABAR LAW—Tarwad.

Under the Malabar law the acquisitions of a member of the tarwad if undisposed of at his death do not go to his nephews but form part of the family properties being managed by the eldest surviving male member. Where the eldest male member of a Tavazhi forming a branch of a tarwad, also happens to be the karnavan of the tarwad, there can be no question of adverse possession by the Tavazhi as against the Tarwad. ——*Tarwad—Conversion of a member to Mahomedanism—Effect.*

Apostacy from Hinduism does not entitle a member of a Malabar *Tarwad* to claim partition of the property and delivery to him of his share under the Removal of Caste Disabilities Act. The effect is not to enlarge the convert's interest in any property or to get rid of any condition or restriction to which it was originally subject. (1912 M. W. N. 386 Diss from) (*Wallis, C. J. ——*Tarwad — Renewal of lease by junior members—Effect.*

Where a *tarwad*, which took a lease, refuses to renew it, but the junior members alone take the renewal, it does not enure for the whole *tarwad*. A presumption may however arise in favour of co-lessees. *Per Oldfield, J* :—The renewal of lease by junior members is presumed to be taken on behalf of the other members of the *tarwad* as well. ——*Tarwad—Alienation—No steps by junior members Attaladakam heirs.*

——*Tarwad—Alienation of property—Right of sale.*

A sale of the joint property of a *tarwad* by some of the members cannot bind the other members of the *tarwad* as a whole, unless it is for consideration and is beneficial to the family as a whole and unless the *karnavan* also joins in it representing the *tarwad*. ——*Tarwad—Acquisition—Property in name of one member—Presumption.*

There is no presumption that properties standing in the name of an *Anandravan* are *Tarwad*

properties; nor is there a presumption that the property is self-acquired by the Anandravan. ——*Tarwad—Right of junior members—Reimbursement.*

When it appears that money was taken and spent by junior members of the family for protecting the tarwad property from malversation or mismanagement the lender should have a claim on the tarwad for the loan. *Per Wallis C. J.*—If the *Karnavan* is submitting to an infringement of the tarwad right of property it is competent to the next senior members to institute a suit to protect the rights of the family. *Per Seshagiri Aiyar, J,*—Though as a rule only the *Karnavan* can represent the *tarwad* in transactions with strangers or pledge the family credit, yet when the *Karnavan* is acting improperly and to the detriment of the *Tarwad*, the junior members have the right to take necessary steps to protect the family interest and the expenses rightly incurred for this purpose can be reimbursed out of the family estate, even though lenders in such cases have a risk of losing the money, if it is found that the purpose of the loan is unnecessary or not beneficial to the family. The right of junior members to question alienations to sue to recover property from trespassers to claim maintenance and to succeed to the *karnavanship* are all personal rights. Where the acts of a *Karnavan* are such as to endanger tarwad property the junior members of the tarwad have power to act on their behalf. There is no right to proceed against the share of the alienating member in a *Tarwad* unlike in a joint Hindu family in case the alienation does not bind the whole family. Defendants 1 and 2, two junior members of a *Tarwad*, contracted to engage the services of a certain person the plff. in the suit in connection with a contemplated suit against Government to protect the family estate and had promised to pay him certain remuneration in the event of success. The first defendant compromised the suit. In a suit by a plff to recover his remuneration, *Held*, that in the absence of proof that the suit was in the interest of the family and also that the agreement to pay the plff. the remuneration stipulated for was necessary, the action was unsustainable. ——*Tarwad—Acquisition—Purchase of property in son's name.*

Where a person, governed by the *Marumakkathayam Law* purchases property in the name of his son to benefit his own wife and children, the property is that of the family and not of the sons. They become tenants-in-common of their joint property and on death of each of them his or her rights descend under the Succession Act by inheritance to his or her children. It is not open to the converts to retain the original law of succession A contract by the converts with the other members to hold property subject to survivorship might be proved even by conduct without evidence of any express agreement. 10 M 69 Foll ; 31 B. 25, not foll : 1 W. ——— *Damages—Suit for—Proof of malice—Reasonable belief—Privilege.*

As a rule, an action lies for the malicious publication of statements, which are false in fact and injurious to the character of another within certain limits, and the law considers such publications malicious, unless, it is fairly made by a person in the discharge of some public or private duty, whether legal or moral, or in the conduct of his own affairs in matters where his interest is concerned. In the later class of cases the occasion prevents the inference of malice which the law draws from unauthorised communications and a qualified privilege attaches to the statement so made, if fairly warranted by any reasonable occasion or exigency and honestly made or made in good faith for common convenience and welfare of society. There are three elements necessary to make the defence of qualified privilege good, namely, the occasion must be fit, the matter must have reference to the occasion and it must be published from right motive. Indeed, it is a duty which every one owes to society and to the state to assist in the investigation of any alleged misconduc and to promote the detection of any crime When it comes to the knowledge of any one that a crime has been committed a duty is laid on him as a citizen of the country to state to the authorities what he knows respecting the commission of the crime; and if he states only what he knows and honestly believes, he cannot be subjected to an action of damages merely because it turns out that the person as to whom he has given the information is, after all not guilty of the crime For the sake of public Justice charges and communications which would otherwise be slanderous are protected, if *bona fide* made in the prosecution of enquiry into a suspected crime Odgers on Libel Slander, p. 272 (5th Edn.) 5 W. Innocence.

———*Innocence—Proof of.*

In an action for malicious prosecution the plaintiff has to prove first that he was innocent and that his innocence was pronounced by the criminal court before which the accusation was made. It is not enough for plff. to produce the judgment of the criminal court which acquitted him but he must prove his innocence by other independent evidence. (*Lindsay and Stuart, JJ.*) GOBERDHAN SINGH *v.* RAM BADAN SINGH. **44 A. 485 : L. R. 3 A. 199 : 20 A. L. J. 284 : 1922 A. 209.**

———*Innocence—Acquittal—Charge of theft of electricity thrown out.*

The plaintiff in the case made certain alterations in the electric wires of his estate which had the effect of transmitting the current avoiding the metre kept for measuring the energy supplied. The Municipal Chairman prosecuted plaintiff for theft of electricity under S. 39 (5) of the Electricity Act, but the plaintiff was acquitted. He then sued the Chairman for damages for malicious prosecution. *Held* that the plaintiff cannot, as a reasonable man, have been ignorant of the fact that his alteration of the wires would cause wrongful loss to the Municipality, there was no malice in law on the part of the defendant and on the ordinary principle that a person intends the reasonable and probable consequences of his acts, plaintiff's conduct was dishonest within the meaning of the Penal Code. The suit was dismissed. (*Holmwood and Chapman, JJ.*) CARL FORSTMANN *v.* H. T. S FORREST. **27 I. C. 591.**

———*Innocence—Finding of Criminal Court.*

In a civil suit for damages for malicious prosecution, the criminal Court's finding as to plaintiff's innocence though *prima facie* strongevidence is not conclusive. ———*Innocence—Proof of—Acquittal in criminal case.*

In a suit for damages for malicious prosecution, the plaintiff must lead evidence to prove that he was innocent of the charge that had been brought against him and that it had been brought without reasonable and probable cause. It is not enough to show that the criminal proceedings terminated in his favour especially if the criminal case had been dismissed on technical grounds. 31 I.C. 324, 24 Mad 50, 6 Bom. 376, Ref. (*Broadway, J.*) POHLG RAM *v.* HUKUM SINGH. 32 P. R 1919 : 51 I. C. 279 : 77 P. L. R 1919.

Apart from showing that he was discharged or acquitted in the case, the plff. is not bound to prove his innocence affirmatively. (*Wallis, C. J and Spencer, J.*) GOPAL KRISHNA KUDWA *v.* BANGLE NARAYAN KAMTHY. 23 M. L. T. 341 : 7 L. W. 604 : (1918) M. W N. 454 : 45 I. C. 803 : 34 M. L. J. 517.

———*Innocence—Proof of.*

In an action for malicious prosecution the plff. has to prove that his innocence was pronounced by the Court before which the accusation was made. A man is not to be mulcted in damages merely because he fails to prove another's guilt nor is a man to receive compensation merely because there is a reasonable doubt about his guilt ; if there is any doubt about his innocence, he fails to prove the absence of reasonable and probable cause. A man is acquitted in a criminal case if there is a reasonable doubt of his guilt but a Civil Court will not award him compensation in a subsequent suit for damages for malicious prosecution, unless it has not only itself no reasonable doubt as to his innocence but considers that the prosecutor either had or should, as a reasonable man, have had, none either. ———*Malice—Proof—False charge.*

A false charge to the knowledge of the prosecutor imports in law malice sufficient to support a civil action. No question of reasonable or probable cause arises in a case where the charge must have been true or false to the knowledge of the defendant and in which there could be no mistake on his part. ———*Malice—Inquiry by Police Officer.*

The term "malice" does not necessarily imply personal spite or grudge on the part of the deft. and it exists wherever there is an improper motive actuating the prosecution in instituting the criminal proceedings against plff. A police officer directing the prosecution of a person on a criminal charge after an enquiry is not liable in damages, if it turns out there was no reasonable cause for the inquiry. (*Rattigan, C. ———*Malice—What is.*

The use of the expression legal malice as distinguished from malice in fact is misleading in actions for malicious prosecution. ———*Malice—Proof.*

When a person makes a complaint against another which is false to his knowledge, not only is want of reasonable and probable cause proved but malice also is proved That the defendant had grounds for suspecting the plaintiff or her husband of having committed some wrongful act in connection with his property is no reason for holding that the defendant could not be deemed to have been actuated by malice in himself bringing a case on allegations false to his knowledge. ———*Malice—Carelessness—Recklessness.*

Carelessness on the part of the deft in deciding whether there was reasonable and probable cause would not amount to malice If a man has been reckless, whether the charge be true or false, that might amount to malice but recklessness in coming to the conclusion that there was reasonable and probable cause would not. ——*Malice—Discharge of accused— Police prosecution—Liability of complainant.*

The discharge of an accused person is such a termination of the prosecution as entitles the accused to maintain a suit for malicious prosecution. If a complainant does not go beyond giving what he believes to be correct information to the police he should not be made liable for damages. But if he has given a wilfully false charge he ought not to escape on the technical ground that the prosecution was not concluded by him. To sustain an action for malicious prosecution there must be malice proved or such a wilfully false statement that would justify an inference of malice. (*Saunders, J. MALICIOUS PROSECUTION—Prosecution.

——*Prosecution — Prosecutor— Defendant's liability—Measure of damages.*

In a suit for malicious prosecution, plaintiff need not prove that the defendant in the case was in fact the actual prosecutor in the proceedings before the Criminal Court. Where the prosecution of the plaintiff before the Criminal Court was substantially the work of the defendant, he is liable for damages on failure of the criminal proceedings and the plaintiff is entitled to claim damages for his mental distress and bodily discomfort resulting from his arrest and detention in the lockup. (*Piggott, J.*) BALDEO SHUKUL *v.* BALBHADAR. **27 I C. 410.**

——*Prosecution- Cause of action—Application for sanction to prosecute—Damages*

The maintainability of a suit for malicious prosecution does not depend on there having been a prosecution in the sense in which that term is used in the Code of Criminal Procedure. The application for sanction is a preliminary or initial stage in a criminal prosecution and it is immaterial that this was done as the law required, in a civil and not in a criminal court. Where the allegations in the plaint are that the defendant maliciously and without just, reasonable or probable cause instituted proceedings for sanction and the plaintiff was obliged to defend the case they are sufficient to disclose a cause of action for malicious prosecution. ——*Prosecution—Master and servant.*

If a person maliciously and without reasonable cause sets the machinery of the criminal law in motion, he is liable in a suit for damages for malicious prosecution. The proof upon which all actions for malicious prosecution turn is the state of the mind of the prosecutor at the time he initiates or authorizes the prosecution. If he receives information from others and acts upon it by making a criminal charge against any person, the motives of the informant or the truth in fact of the story they tell are to a great extent irrelevant. Three questions are most important : (*a*) Did the deft. believe the story upon which he acted ? (*b*) can his conduct in believing and acting on it be said to be that of a reasonable man of ordinary prudence ? (*c*) was his motive in making the charge an indirect one ? (1909) A. ———*Reasonable and probable cause—Malice —Proof of.*

To succeed in an action for malicious prosecution the plaintiff must allege and establish both (*a*) absence of reasonable and probable cause and (*b*) malice, and must fail altogether if he fails to establish both. An honest belief in the guilt of the accused based upon a full conviction founded upon reasonable grounds, which, assuming them to be true, would reasonably lead any ordinarily prudent and cautious man, placed in the position of the accused, to the conclusion that the person charged was probably guilty of the crime imputed The malice necessary to be established is not even malice in law, such as may be assumed from the intentional doing of a wrongful act, but malice in fact ; *malus animus* indicating that the party was actuated either by spite or ill-will towards an individual or by indirect or improper motives though these may be wholly unconnected with

any uncharitable feeling towards any body. In all these questions the burden of proof is on the plaintiff. If, in order to show the absence of reasonable and probable cause, there are minor questions which it is necessary to determine, the burden of proving each of those minor questions lies upon the plaintiffs, just as much as the burden of proving the whole does. The test as to the burden or onus of proof, whichever term is used, is simply this: to ask oneself which party will be successful if no evidence is given, or if no more evidence is given than has been given at a particular point of the case, for it is obvious that as the controversy involved in the litigation travels on the parties from moment to moment may reach points at which the tribunal will have to say that, if the case stops there it must be decided in a particular manner. ———*Reasonable and probable cause—Acquittal of pltf.*

In a civil suit for damages against the prosecutor in a criminal case in which the plaintiff was acquitted it must be affirmatively shown that there was absence of reasonable and probable cause. There was a longstanding feud between the families of the plaintiff and the defendant and the latter's son was murdered. The defendant prosecuted plaintiff for murder on the strength of the allegations in the dying declaration and the statements of certain witnesses. In the circumstances defendant had reasonable and probable cause for the prosecution. No action for damages will lie against a witness for giving false evidence though it was given in pursuance of a conspiracy to obtain the conviction of the plaintiff. The proper remedy against the witness is to prosecute for perjury. (*Shah Din and Jones, JJ.*) KAMAL DIN *v.* MIR ABDULLA. **32 P. R. 1917 : 47 P. W. R. 1917 : 38 I. C. 678 : 66 P. L. R. 1917.**

———*Reasonable and probable cause—Meaning of.*

The term reasonable and probable cause, means a cause which an ordinarily reasonable man having knowledge of facts and the belief (arrived at in a reasonable manner) as to facts which the defendant then had would be justified in considering as affording a fair basis for the opinion that a criminal offence has been committed by the plaintiff. The Courts should not draw a distinction between reasonable cause and probable cause. The question of want of reasonable and probable cause is one of fact and not of law Cases reviewed. 36 Mad. 475. MALICIOUS PROSECUTION — Reasonable and Probable cause.

———*Reasonable or proper cause—Ulterior and improper motive.*

In an action for malicious prosecution the plaintiff must prove that the prosecution was launched without reasonable or proper cause and not simply that it was improper or had an ulterior object. Where, in an action for malicious prosecution, evidence as little incriminating the plaintiff as possible was let in by the defendant as a result of a compromise of the civil disputes between the parties, it is no proof of the absence of reasonable or probable cause. (*Wallis, C. J. and Seshagiri Aiyar, J.*) MUTHU VEERAPPA CHETTI *v.* RAMASWAMI CHETTI. **40 Mad. 285 : 34 I. C. 401 : 31 M. L. J. 264.**

———*Reasonable and probable cause—Malice—Burden of proof—Judgment of Criminal Court—If evidence.*

In an action for malicious prosecution, the guiding rule is that there must have existed a state of circumstances upon which a reasonable and discreet person would have acted. The rule prescribes not a standard of absolute rectitude and certainty but of reasonableness and probability, in relation to a defendant's mind. A prosecution, not malicious in the outset, may become malicious if the prosecutor, having acquired knowledge of the innocence of the accused perseveres in the prosecution. The allegation of want of probable cause must be substantively and expressly proved From the want of probable cause, malice may be, and is inferred, but from the most express malice, want of probable cause cannot be inferred. The judgment of a Criminal Court, discharging or acquitting the plaintiff is no evidence either of malice or want of probable and reasonable cause. (*Wazir Hasan, A. J. C.*) KAZIM HUSAIN *v.* BASIT HUSAIN. **61 I. C. 970 8 O. L. J. 147.**

———*Reasonable and Probable cause — Presumption—Conviction by trial Court—Reversal on appeal.*

If in a suit for damages for malicious prosecution the plaintiff has been convicted in the first instance and ultimately acquitted on appeal, the presumption is against the absence of reasonable and probable cause unless the original conviction is proved to have proceeded on evidence known to the defendant to be false or on the wilful suppression by him of material information. 12 C. L. J. 410 foll. A Court ought not to try the issue as to malice and the absence of reasonable and probable cause as a preliminary issue, without taking any evidence and on the simple fact that the plaintiff had been convicted by the Original Court, although he had been acquitted on appeal. 30 A. 525 foll. MARTIAL LAW ORDINANCE (II OF 1921).

The Martial Law (Further extension) Ordinance 1919 is not limited to persons taken in the act of committing one of the offences specified in Regulation X of 1804, or to the persons and offences described in Martial Law Ordinance I of 1919, but extends to all offences commited on or after 30—3—19. S. 65 (2) of the Govt. of India Act, 1915 does not prevent the Indian Government from passing a law which may modify or affect a rule of the constitution or of the common law upon the observance of which some person may conceive or allege his allegiance to depend; it only refers to laws which directly affect the allegiance of the subject. ——— *Dismissal from service—Provision for period of notice—Damages.*

In an action for wrongful dismissal, the general rule is that the plff. may recover damages for the whole unexpired period of service; where however, it is provided that the agreement may be terminated at an earlier date by giving a previous notice, the parties may reasonably be held to have contemplated the time limit of the notice as attaching to any liability for wrongful termination of the agreement. In such cases, damages for wrongful dismissal should be limited to the period of notice required under the agreement. Where the law creates a duty and a party is disabled from performing it without any default of his own by the act of God, the law will excuse him, but where a party by his own contract creates a duty he is bound to make it good notwithstanding any accident by inevitable necessity. Where the master does not repudiate a contract which has been broken by the servant, but merely intimates, that he would claim damages for the breach of contract and allows the servant to continue to perform his part of the contract, such conduct amounts to a waiver of the master's right to repudiate the contract. (1893) 2 Q. B. D. 274, Rel. Ordinarily, it is not necessary that a servant should be dismissed by his master for a valid reason; it is sufficient if a valid reason in fact exists even if the master be not aware of it at the time of the dismissal. But this rule has no application to a case where the master has knowledge of the facts constituting the justification for the dismissal, and deliberately condones them and waives his right to dismiss the servant on account of them. ———*Offence by servant—Breach of condition in a license.*

A licensee or other persons permitted to sell timber in accordance with certain conditions under rules framed under the Forest Act is liable to be punished under those rules for the acts of his servants whether authorised by him or not, even if this Act is in contravention of his instructions provided that those servants were acting within the scope of their master's authority, unless the master can show that he acted in good faith and did all that could be reasonably expected of him to prevent the breach of the conditions under which he is permitted to sell the timber. Reasonable Notice.

———*Reasonable notice—Tutor in family.*

The position which a tutor holds, the station which he occupies in the family and the manner in which such a person is usually treated in society place him in a very different situation from that which mere menial and domestic servants hold. Consequently a month's notice to terminate his employment is not sufficient. A term's (six months) notice would be reasonable in the case of a tutor. (*Greaves, J.*) WITTENBAKER *v.* J. C. GALSTAUN. **36 C. L. J. 256 43 I. C. 11: 44 Cal. 917.**

———*Reasonable notice—Schoolmaster.*

The rule of one month's notice which applies to menials, will not apply to the case of a school master. The rule as to yearly hiring extends to domestic and other servants such as clerks and others, but it is not an inflexible rule and each case must be considered by itself and in each case it must be decided what notice would be reasonable. In the case of a schoolmaster, especially when he was intending to leave his profession and join another, a notice of three months would be reasonable and the period of three months may be regarded to be equivalent to about a term, (1858) 8 Exch, 150 distinguished, 44 Cal. 917 followed. (*Jwala Prasad and Adami, JJ.*) NIROD CHANDRA ROY *v.* RAJA KIRTYA NANDA SINGH. **1922 P. 24.**

———*Reasonable notice—Municipal Secretary—Termination of service.*

In the absence of any custom or stipulation as to notice, and where a contract of service is not one which can be regarded as a yearly hiring, the service is terminable on reasonable notice. What is "Reasonable notice" will depend on the circumstances of each case. A Municipal Secretary in India is entitled to a 3 months' notice. (25 B. 387; (1897) P. J. 140 F.) (*Fawcett, J. MASTER AND SERVANT—Test by Servant.

Resignation by Servant.

———*Resignation by servant—Notice—Office clerk.*

An office clerk like a menial servant is bound to give one month's notice before leaving the service of his employers and is not entitled to get a remuneration for the broken portion of the month when he leaves the service in the middle of the month without his master's consent. 10 B. ———*Resignation by servant—Wages payable.*

Ss. 39 and 64 of the Contract Act and justice, equity and good conscience requires that a servant who quits his master's service in India before the expiry of the contract period should be ordinarily paid for the full period he worked under the master deducting the damages of the master by the breach. ———*Resignation by servant—Default without notice.*

A master is entitled to reasonable notice and if no notice is given he can plead set off in a suit by the servant for recovery of wages The default of payment of a servant after the day on which a periodical payment of wages accrued due would not deprive him of his right to recover such payment. Tort by servant.

———*Tort by servant—Liability of master.*

A master is liable for the acts of his servant (1) if the injury caused is the consequence of an act done by a servant with ordinary care in the execution of the master's specific orders, (2) if it is due to want of care in the execution of the above-said work, (3) or if it is due to excessive or mistaken execution of a lawful authority and (4) or if a wilful wrong is done in the master's behalf

MASTER AND SERVANT—Tort by servant.

Where the driver and guard of a Railway Company assaulted the plaintiff for stopping a running train by pulling a chain, it was held that the Ry. Company was not liable, for the Ry. Company itself had no power to arrest persons for pulling a chain and consequently the acts of the servants were not done in the course of the employment. (*Scott, C. ———*Tort by servant—Liability—Test—Onus.*

To maintain a suit for damages against a master for wrong done by his servants plff. must show that the act complained of was done in the course of employment or was authorised by the master to be done. (*Das, J.*) RAJA DHAKESHWAR PRASAD NARAIN SINGH *v.* MANNA LAL.
51 I. C. 753.

———*Tort by servant—Authority—Onus.*

A master is liable for the wrongs of his servant if they are done in the course of the employment of the master's work and for his benefit. Whether an act is or is not within the scope of the servant's employment has to be proved only by the master and the onus of proof is on him since it is a matter specially within his knowledge. The owner of a vessel is liable as employer for the negligence of the crew. (*Twomey, C. J. and Maung Kin, J.*) BRUCE, D. M. *v.* KYAW ZIN.

MAXIMS.

———*Actio personalis moritur cum persona—Applicability*

The only cases in which apart from breach of contract a remedy for a wrongful act can be pursued against the estate of a deceased wrongdoer are those in which the property or the proceeds of the value of the property belonging to another have been appropriated and the deceased's estate has increased thereby. (*Benson, O. C. J. and Abdur Rahim, J.*) LUMMADA NAGABHUSHANAM *v.* SRI RAJAH VENKATADRI.
(1912) M. W. N 899 : 12 M. L. T. 383 : 17 I. C. 226 : 23 M. L. J. 255.

———*Actio personalis moritur cum persona—Applicability of—Tort.*

In cases of tort, this maxim, coupled with the variation in England and India is applicable. (*Kotwal and Macnair, A. J. Cs.*) RAKHMA BAI *v.* DHANRAJ.

———*Act of Court—Not to prejudice party.*

A person cannot suffer for an act or default of the Court. (*Das, J.*) DHUNMUN SINGH *v.* LACHMI LAL.
57 I. C. 492.

———*'A man shall not take advantage of his own fraud'—Distinguished from estoppel.*

Estoppel and the above equitable rule are quite different. The former is no more than a

rule of evidence and its operation hardly extends to cases falling under the above equitable principles The applicability of the maxim depends on the question whether any fraud was committed at all by the person and on the question whether any advantage was derived by him by the fraud assuming constructive fraud on his part. (*Beaman and Heaton, JJ.*) MOTI RAIJI *v.* LALDAS JIBHAI. 41 Bom. 93 : 37 I. C. 945 : 18 Bom. L. R. 954.

——*'Delay defeats equities'—Limitations of rule.*

The maxim that delay defeats equities should not be applied to a case where want of fair dealing and inequality have been proved to exist and a person to whom great inconvenience will be caused by re-opening certain matters, cannot complain that the other party should have acted more promptly, if his own conduct has not been above board. (*Wallis, C. J. and Seshagiri Aiyar, J.*) ABDUL HUSSAIN *v.* MOHAMED IBRAHIM. 3 L. W. 379 : 35 I. C. 243 : 19 M. L. T. 346.

——*Equity considers that as done, which should have been done—Applicability of- Nemo-est haeres viventes — Contingent interest and mere expectancies.*

The doctrine that " *Equity considers that as done which should have been done*" cannot be applied to a case of a transfer of a *res successionis, i.e.*, such as the interests of a reversioner. There is no such character in law as the heir of a living person or his statutory next of kin. Possibilities coupled with an interest such as contingent interests may be called contingent interests and a bare possibility such as a hope of inheritance, mere expectancies inasmuch as a possibility coupled with an interest is more than a possibility and is a present devisable interest. ——*Expressio unius exclusio alterius.*

——*He who seeks equity must do equity.*

When the person affected by a voidable transaction seeks to avoid its consequences, he is in the position of a person who seeks equity and he must do equity. Thus not only can he not ignore the transaction but he must try to offer to reimburse the prior transferee whose money has benefited the transferor. ———**S. 15**—*Limitation—Long silence—Penal Code, S. 482—Infringement of trade mark.*

The period limited by S. 15 of the Merchandise Marks Act for a prosecution under S. 14 begins from the date of the particular infringement alleged against the accused. S. 15 does not prevent a prosecution under S. 482, I. P. C. The owner of a trade mark should not wait for several years while his trade mark is infringed continuously and then bring a criminal complaint in respect of some recent infringement. 2 Bur. L. T. 83 Foll. If the goods of a manufacturer from the mark he has used are known by a particular name the adoption by a rival trader of any mark which would cause his goods to bear the same name in the market may be as much a violation of the rights of that rival as an actual copy of his device. In such cases dissimilarity of the rival mark is not a complete defence. (1865) 1 Ch. App. 192 Foll. ———*Basis of claim for mesne profits by reversioners against alienee.*

A voidable transaction is good as against third parties till it is set aside, but as regards the person who has a right to avoid it, it is in a state of suspense until such party exercises his option. If he avoids it, it is treated as void from the outset as against him It is on this principle that mesne profits are always allowed in a suit by the reversioners to recover property from a transferee from a Hindu widow after her death. A plaintiff cannot ordinarily recover more than what he claims in the plaint but in a suit for mesne profits. S. 11 of the Court Fees Act permits the plf. to make an estimate of what is due to him and allows the Court to pass a decree for more than the amount at which he valued his relief if the profits are found to be in excess of the profits claimed provided additional Court-fee is paid thereon. Mining differs from agricultural operations on the surface. The coal which the judgment-debtor might have got was still there. (*Richardson and Huda, JJ.*) SHAMBHU NATH *v.* SATISH CHANDRA 20 C. W. N. 369.

——"*Open mines*"—*Meaning of.*

An owner of a lower mine, must, if he wishes to guard against, the natural flow of water from the mines of his neighbours, have a barrier in the upper part of his mine to pen back the water and the lessee of such a mine may be held liable for any damage done by breaking down the barrier between the mines. It is however, not obligatory upon the lessee to leave a barrier of coal merely to prevent communication with the adjoining mines and therefore where the object of the plaintiff is only to prevent communication with adjoining mines an injunction cannot be issued. Alienation by Guardian.

——*Alienation by Guardian*—Defacto *guardian—Powers of.*

The idea that a *defacto* guardian by reason of the fact that he is in charge of a child, he is in vested with certain powers over the infant's property, is erroneous. The situation of an unauthorised guardian is not bettered by calling him *defacto* guardian. He may, by his *defacto* guardianship, assume important responsibilities in relation to the minor's property, but he cannot clothe himself with rights and assume legal power to sell it. ——*Alienation by guardian—Sanction of Court not obtained—Effect.*

A certified guardian cannot alienate the minor's property without a sanction of the court and the sale is voidable at the instance of the party aggrieved. But such person, before applying to set aside the transfer must offer to reimburse the prior transferee for the money which has benifitted the minor. ——*Alienation by guardian—Avoidance of sale—Conveyance of properties to stranger.*

Property belonging to a minor was sold by his mother and guardian. Subsequently on attaining majority he ignored the sale by mother and conveyed the property to the plaintiff who sued for possession. *Held* that, by selling the property to the plaintiff on the footing that the prior sale by his mother was not binding on him, the plaintiff's vendor had chosen to avoid the prior sale and that the plaintiff could sue for recovery of possession of the property without a prayer for setting aside the sale. 38 M. 867 distinguished. ———*Appointment of guardian— Considerations to be taken into account—Adopted boy—Right of adoptive parents.*

In matters relating to the appointment of a guardian for a minor the main question for the court is the welfare of the minor child and the court is not always bound to appoint the person having the best title to be the guardian of the person of the minor. In the absence of proof of incompetency or serious ill-treatment, the adoptive parents are the proper guardians of their minor adopted son, (*Ashworth, J. C.*) MT. GANGA JALI *v.* DIP NARAIN.

MINOR—Compromise

Compromise.

———*Compromise by guardian — Leave of Court not obtained—Effect — Invalid though supportable on other grounds.*

The provision of law, making it necessary to obtain the leave of the Court is of great importance to protect the interests of minors and in the absence of such leave, a compromise cannot be supported. A mortgage given by a trustee in pursuance of a compromise in a suit in which he was the guardian *ad-litem* of a minor without the sanction of the Court, is invalid on that very ground though supportable as a proper act on the part of the trustee. ———*Compromise—Guardian's powers.*

A minor is bound by a comoromise made by his guardian unless his interest is not properly protected by the latter. A compromise made by the father of his minor son as his guardian to the effect that he gave up his (minor's) claims in an estate and the other parties to the compromise gave up their claim under an alleged will is not binding on the minor unless it is proved that there was a will and that their claim was honest and *bona fide.* Proof of the will in such a case need not be in a very solemn form. ——*Contract by guardian—Duty of Court.*

It is open to a minor to either affirm or disaffirm contracts entered into by his guardian but not binding on him. But it is the duty of the guardian to protect his interests by suing on his behalf. When such a suit is brought, it is the duty of the Court to entertain it and dispose of it according to law and not on grounds of expediency real or supposed. If the Court refuses to give relief on the ground that the suit can be brought by the minor after he has arrived at the age of majority, then the minor's interest may be seriously prejudiced by reason of important evidence, disappearing by the time the suit is brought. ——*Contract by guardian—Benefit.*

Per Ayling and Seshagiri Iyer, JJ. (*Wallis, C. J. dissenting*). No decree should be passed against a minor or his estate on a contract entered into on his behalf by his guardian under which no charge is created on the estate except where the minor's estate would have been liable for the obligation under the personal law to which he is subject. ——*Contract by guardian — Minor — Sole proprietor of business.*

A minor who is the sole owner of a business is not bound by the acts of his guardian unless such acts were done for the benefit of the minor. The natural guardian of a minor is personally liable in India on contracts entered into in the course of the business of the minor; the guardian is, however, entitled to indemnity for liabilities properly incurred but only out of the *assets of the minor embarked in business.* Similar right exists with the creditors of the minor. The guardian has no power to bind a ward by a personal contract. 11 B. 551 ; 19 C. 507 Relied upon. (*Wallis and Munro, JJ.*) SANKA KRISHNA MURTHI *v.* BANK OF BURMA. 35 Mad. 692 : (1911) 1 M. W. ——*Contract by guardian — Ratification—Power of on attaining majority.*

The occasion for ratification only arises when the obligation was not one originally binding on the minor and so far as he is concerned, the minor has full power to ratify a contract entered into by his guardian, with this qualification that he cannot ratify a transfer made during his minority by his guardian so as to affect the rights of an intermediate transferee for value. Where a debt contracted by the guardian is barred by limitation it is open to the minor to execute a fresh bond on attaining majority and such bond could be enforced against him under S. 25 (3) of the Contract Act. ——*Contract by guardian—Personal liability—Acknowledgment of pre-existing debt—Liability of minor or his estate Court of Wards.*

Where the guardian of a minor executes a simple money bond in renewal of an antecedent debt due from the minor's estate, a decree on the bond could be passed on the bond against the minor's estate. An acknowledgment of a pre-existing debt stands on a different footing from the creation of a fresh liability by the guardian. In respect of the former a decree against the

MINOR—Contract by minor.

———*Contract by minor—Equity—Misrepresentation.*

A Court would at least direct restitution by minor of such part of the consideration of a void agreement which may be in a his hands. Even in the case of innocent misrepresentation, the minor is bound to refund the property over which he has control. This liability attaches to a minor not on the ground of estoppel but on the ground that an infant shall not take advantage of his own fraud. If therefore a contract has been induced by a minor's false representations the contractual obligation is under no circumstances enforced against him but equity may compel him to restore any benefit received by him If the property which the minor has obtained is still existing in specie he may be compelled to restore it, but if he has obtained money which has probably been spent and there is no possibility of tracing it and therefore of restoring the very thing obtained by fraud, it would be enforcing a void contract if he were made to re ly it. In other words a distinction must be observed between restitution and repayment. (*Kennedy, J. C. Raymond and Kemp, A. J. C.*) MT. HURI *v.* KOSHAN KHUDABUX.

——*Decree against—Ex-parte—Grounds for setting aside.*

Although a minor can impeach a decree passed against him during minority for reasons such as fraud or collusion, yet in absence of such special reason the decree is perfectly valid as one passed against an adult. That the guardian *ad litem* did not appear on the date of hearing and an *ex parte* decree was passed against the minor would not justify a presumption of gross negligence against the guardian. ——*Estoppel—Fraud of minor—Acts of guardian.*

As a general rule estoppel does not apply against an infant but there is an exception in cases of fraud. If an infant is old and cunning enough to contrive and carry on a fraud he ought to make amends for it. ——*Estoppel—Equity.*

A case of fraudulent misrepresentation by a minor on the subject of his age cannot be given effect to, and the plea of minority would prevail in spite of the minor's fraudulent misrepresentation. The minor however, cannot seek to set aside the transaction without restoring the benefit that he has received thereunder. (*Moti Sagar, J.*) KAPURA *v.* ARJAN SINGH. **1923 Lah. 511.**

——*Partnership business on behalf of—Presumption of benefit.*

In the case of a business undertaking, in which a minor is a partner, where transactions are carried on in the usual course of business, it is not necessary for the creditor to give specific evidence of benefit in each individual transaction. The fact that the transactions were carried on in the usual course of business is sufficient to raise a presumption that they were for the benefit of the business. (*Daniels, A. J. ——*Legal necessity—Lender's duty.*

The doctrine of legal necessity has application only when the minor has an estate or a fund which it is the duty of the Court of equity to protect as against the improvident act of the guardian. A minor, bought with funds supplied by his aunt, a property which had been sold in execution of a mortgage deed. As full purchase money had not been paid to avoid confirmation of sale in execution of mortgage decree, the property was mortgaged by the minor purchaser and the vendors became sureties. *Held*, looking at the two transactions as one, once it is realized that the minor was not in possession of any estate independently of the transaction which he was seeking to challenge, it becomes manifest that the Court cannot extend its protection to the minor by denying validity to the transaction which had brought the estate into existence. If the two transactions are regarded as separate, then in dealing with a guardian of a minor, the lender is bound to enquire into the necessities for the transaction into which he is invited by the guardian to enter and to satisfy

himself that the guardian is acting, in the particular instance, for the benefit of the ward. No authority imposes upon the lender the further duty of enquiring into the necessity for an altogether different transaction which perhaps has made the proposed transaction inevitable. If the law did impose such a duty upon the lender, then it might be said that he is bound to enquire into the antecedent management of the estate. But it is settled law that, provided the necessity for the loan has not arisen from any misconduct to which the lender is or has been a party, he is not affected by the precedent mismanagement of the estate. ——*Adverse possession.*

Mortgagees cannot rely on the 12 years' rule of limitation in support of a plea of adverse possession unless they can prove a subsequent valid sale. (*Scott-Smith, J.*) AMIR *v.* NADIR ALI.
1923 Lah. 74.

——*Adverse possession—Effect of.*

Where the Archaka's Office and his properties were usufructuarily mortgaged and where the mortgagee continued in possession during the prescriptive period after the period of redemption had expired, the mortgagee got by adverse possession the mere right of usufructuary mortgagee and not an absolute ownership (*Sundara Aiyar and Sadasiva Aiyar, JJ*) SUNDARA GURUKKAL *v.* SUBRAMANIA ARCHAKAR. **16 I. C. 960.**

——*Adverse possession — Mortgagee in possession—Receipt of rents and profits.*

So long as the mortgagee is in possession his possession is to some extent that of a trustee; unlike ordinary lessees he is bound to preserve the right, title and interest of a mortgagor and to prevent any invasion of that right by any stranger. The mortgagor having put the mortgagee in his stead in the possession of the property enjoys immunity and believes that so far as his possession is concerned, his interest will be protected by the mortgagee. Therefore, if the mortgagee has either by his neglect or in collusion allowed any other person to come into possession of the property, there will be no invasion of the rights of the mortgagor and when the time for redemption arrives, he will be entitled to treat the stranger as a trespasser, and the stranger's right by adverse possession will not commence against the mortgagor unless and until the mortgagor has exercised his rights of redemption and had redeemed the property. This is the case of a complete possession where no right of possession is exercised by the mortgagor. There may, however, be cases where the mortgagor and the mortgagee are both in possession of the property in accordance with the arrangements arrived at by them and set forth in the covenant in the bond The possession of the mortgagee consists in the appropriation of the usufruct of the property and that usufruct may be enjoyed by both mortgagor and mortgagee for the usufruct and the income of the property might far exceed the interest in lieu of which the mortgagee enjoys the possession of the property. In such a case the application of the principle will be varied; but the principle will apply to that portion of the usufruct which is supposed to be in the possession of the mortgagee. When *kakajri* or rents and profits are reserved by the mortgagee and are payable to the mortgagor there is no reason why the principle of adverse possession should not apply, though in order to take advantage of adverse possession it must satisfy all the conditions required for adverse possession, namely, it must be open and hostile and to the knowledge of the mortgagor. A mere non-payment of *kakajri* or forbearance to realise it for any length of time would not create any adverse possession nor a mere payment of the same to a stranger by duress, force or compulsion, unless such payment is made with the knowledge of the mortgagor that it was being paid against his interest. Construction.

——Construction — Provision for sale on default of delivery of possession—Enforceability—Agreement between mortgagor and mortgagee as to the amount of expenses.

A mortgage with possession to secure a sum of Rs. 1,80,000 with interest at 12 per cent. per annum, stipulated that the principal sum was to be repaid in annual instalments of Rs. 10,000 for 6 years after which the entire balance and interest was payable. There was a provision under which the mortgagor was to be allowed to remain in possession of the property for two years after which possession was to be delivered to the mortgagee. In case possession was not so delivered to the mortgagee the whole estate was to be sold to him for the entire amount due including principal and interest. *Held*, that the main object and obligation of the deed was to secure the payment of the instalments of mortgage money and that the other provisions in the mortgage, however extensive and far-reaching, were merely intended as security to enforce the obligation; that the mortgagee was bound to accept a tender of the first instalment though made a few days after the due date ; and that the mortgagor, though he did not deliver possession of the mortgaged property after the expiry of two years as stipulated, could sell the property to a stranger and pay up the mortgage and that there is nothing to prevent a mortgagor and a mortgagee from agreeing as to what sum could be charged annually for the expenses to be incurred by the mortgagee in possession. ——Construction— Interest— Payment of rents—Provision for realisation of arrears of interest and mortgage money by sale of the mortgaged property—Simple mortgage.

Under a deed of mortgage, the owner of a shop mortgaged it for Rs. 200 and put the mortgagee in possession. The mortgagee was to set off the rent of the shop against the interest on Rs. 100 out of the principal money and the interest on the remaining Rs. 100 was to be paid by the mortgagor. The mortgage money was to be paid within 2 years on default of which the mortgagee would have a right to realise it from the shop,

———*Construction — Mortgage — Mortgagor leaving a portion of money for payment to a prior mortgagee—Delay by mortgagee—Acquiescence of mortgagor—Reasonable time—How determined.*

A mortgage provided that the mortgagee was to pay off a previous mortgage to another and was to be entitled to possession on default of the mortgagor to pay interest in any one year. The mortgagee did not pay the prior mortgagee for more than six years and the mortgagor again mortgaged the same properties. The mortgagee after paying the prior mortgage, 11 years after the second mortgage, brought a suit for possession alleging non-payment of rent by the mortgagor and the latter pleaded that the suit must fail as the mortgagee did not pay off the prior mortgage till a very long time and that the suit was barred by limitation. *Held*, that the suit was within the time as the mortgagor himself admitted payment within 12 years before suit and that the mortgagor's conduct amounted to acquiescence in the mortgagee's delay and that he could not plead that mortgage was ineffectual. ———*Construction—Personal liability—Conditions negativing.*

If the mortgage is a mortgage with a condition of "*lahan gahan*" it ordinarily involves no personal liability on the part of the mortgagor for repayment of the debt, unless it may by special agreement or local custom confer on the mortgagee the option of recovering the money from the mortgagor personally. The parties having adopted a form of mortgage which ordinarily is understood to involve no personal liability must be taken not to have contemplated it. (*Kotwal, A. J. Default being made, mortgagees sued for possession on a mortgage comprising the terms that on default of payment of interest on a fixed day compound interest was to be charged, and the mortgagee may sell the property or enter into possession till redeemed. Mortgagee had accepted some deeds of charge for the arrears of interest. *Held*, that the acceptance of deeds of charge was not waiver of mortgagee's right to possession that the mortgage deed contained no penal clause, that the question of consideration cannot be gone into in this suit and that the mortgagor cannot be permitted to redeem in this suit. ———*Redemption—Partial rdemption when allowed—Sale under decree—Effect on right to redeem.*

A mortgage contract is indivisible and it is the right equally of the mortgagor and mortgagee to keep it indivisible. The general rule is that a mortgagee cannot be required at the instance of a purchaser of part of the premises to apportion his mortgage debt among the several parts into which the property has been divided and to look to each only for its proportionate share, unless circumstances have happened the effect of which, in fact or in law, is to create a severance of the security. In exceptional cases it will be allowed as where it is necessary for the benefit of one who has taken a part of the property under necessity and for the protection of his own interest, or where the mortgagee himself has been the owner of a part of the equity of redemption or where by his own conduct there has been a break up of the entire security. The test to be applied in each case is, whether there has been a severance of the security at the instance or with the consent of the mortgagee, and an apportionment will not be forced on him unless special equitable considerations are proved. Rights of mortgagee.

——*Rights of mortgagee--Equitable—Original satisfied—Indemnity.*

An equitable mortgage was created by a mortgagee by the deposit of mortgage deeds with another firm. Subsequently a settlement was arrived at between the mortgagor and the mortgagee whereby the latter contracted to indemnify the former against losses, etc., in respect of any matter relating to the mortgage-deed. The firm obtained a decree on the equitable mortgage against the original mortgagor but failed to execute it within time. The original mortgagor satisfied it although it was time-barred and relying on the indemnity bond sued his own mortgagee for recovery of the amount. The defendant pleaded that the payment was voluntary and therefore not binding on him.

Held, that though the decrees had become unenforceable the mortgagee had by his own act of depositing the deeds as a security with the firm blistered, encumbered and lessened in value their equity of redemption in the property mortgaged by these deeds and under the wide and far reaching turns of the indemnity the mortgagors were entitled to recover from his representaives what it had cost them to remedy the damage he had done to their property by paying off the encumbrance upon it which he had by his own acts created. ——*Rights of mortgagee—Prior and subsequent—Rights of purchasers in execution of decrees on prior and subsequent mortgages.*

The question in the case was whether the plaintiff respondent who was the purchaser of the property in dispute, under a prior mortgage decree, to which the defendants appellants were no parties, had a right to eject the defendants, the purchasers in execution of a decree, based on a puisne mortgage, to which the prior mortgagees were no parties. It appeared that in the year 1910 the second mortgagees obtained a decree on foot of their mortgage for sale of the property and purchased the property on 20th of April 1912, in execution of such decree. To this suit the prior mortgagee was not made a party. In the year 1915 the prior mortgagee got a decree for sale on foot of her mortgage, but to this suit, neither the puisne mortgagee, nor the purchaser in execution of his decree, were made parties. The prior mortgagee got a decree and put the property to sale and, in execution thereof purchased it herself. She obtained possession over three-fourths of the property and did not get possession over one fourth, which was in the possession of defendants.

She brought the present suit for the recovery of possession of the remaining one-fourth also, and in the alternative, for a conditional decree that the defendant should redeem her mortgage, and in case of his failure to do so, she should be put in possession of the property in dispute. *Held*, that the plaintiff had no right to possession of the property under the mortgage on which she based her title. It was a simple mortgage and not a possessory mortgage The suit was misconceived and should be dismissed. (*Stuart and Gokul Prasad, JJ.*) RAM NARAIN *v.* SOMI. **45 A: 189 : 1923 A. 449 (1).**

A suit brought by a puisne usufructuary mortgagee to redeem a prior mortgagee by conditional sale, who in his turn is ready to redeem this puisne mortgagee and who has acquired the equity of redemption by obtaining a foreclosure decree in a suit to which the puisne mortgagee was not made a party, is equivalent in fact to a cross suit. In such case each of the two mortgagees is entitled to redeem the other but having regard to justice of the case, convenience and balance of equities in favour of the two mortgagees the prior mortgagee should be allowed to redeem the puisne mortgagee and the latter should not be allowed to redeem the former who having acquired the equity of redemption is entitled to redeem the latter at any time. Harnam Singh mortgaged on a date unknown a house to Hira Singh for Rs. 700. On 12th March, 1917, Harnam Singh sold the same house to Ghulam Jilani for Rs. 1,700 and Rs. 700 were retained by Ghulam Jilani for payment to the mortgagee Hira Singh. On 24th November, 1919, Ghulam Jilali sold the bouse to Mt. Chet Kaur for Rs. 2,700 although she never got possession. The sale-deed recited that Hira Singh had a charge on the house and that Rs. 1,000 were left in deposit with the vendee for payment to Hira Singh or his legal representative. Harnam Singh's name is not mentioned. On 13th April, 1918, Hira Singh sued Harnam Singh on a bond and got a decree on 7th May 1918, for Rs. 115 and costs. Before suing out execution of this decree Hira Singh, according to his own statement in the present suit realised from Harnam Singh the mortgage charge of Rs. 700 on the house abovementioned by bringing to sale another house. In his application for execution of his decree for Rs. 115 against Harnam Singh, Hira Singh stated that a sum of Rs. 700 belonging to Harnam Singh was in the hands of Mt. chet Kaur and he asked for this to be attached. It was attached accordingly and was brought to auction sale. At the sale an objection was notified by Mt. Chet Kaur that she held no sum of Rs. 700 belonging to Harnam Singh. The money attached was purchased by Gurumukh Singh for Rs. 230, Gurumukh Singh then instituted the suit from which the present second appeal had arisen against Mt Chet Kaur for recovery of Rs. 700. Hira Singh and Harnam Singh were joined as defendants. The cause of auction was his auction purchase.

Held Chet Kaur's answer to the suit, that she possessed no money recoverable from her by Harnam Singh, mortgagor is effective. There is no privity of contract between the mortgagee and vendee. ——*Rights of mortgagee—Lease by mortgagor lis pendens.*

A mortgagor is not entitled after making the mortgage to grant leases which may have the effect of materially diminishing the value of the security or the remedies of the mortgagee under the mortgage. Where a suit has been filed to enforce the mortgage the rights of the lessee are subject to the result of that suit and no effect can be given to them over the rights which another person may acquire in enforcement of the mortgage, 15 O. ——*Rights of mortgagee—Simple mortgage—Provision for delivery of possession—Interest.*

Where a mortgagor undertakes to deliver possession after a certain period but does not do so, the mortgagee is entitled to enforce the initial terms of his mortgage independently of the position which would have been created had such possession been delivered. If the mortgage was originally a simple mortgage liable to be converted into a usufructuary mortgage at the expiry of a certain period the mortgagee can fall back on the simple mortgage and enforce it in case the mortgagor does not fulfil the obligation, he had undertaken. In such circumstances, if the mortgagor fails to deliver possession the mortgage should continue to retain its character of a simple mortgage and the mortgagee would be entitled to claim interest and also a decree for sale (*Kanhaiya Lal, J. ——*Rights of mortgagee—Lease to the mortgagor—Arrears of rent need not be included in the mortgage money.*

Where a mortgagee gives possession of the property mortgaged to the mortgagor in consideration of a payment of rent by the latter, he can recover such rent as ordinary arrears of rent and he need not include such sums in the mortgage money, when suing on the mortgage deed. (*Stuart, J.C.*) MAHADEI *v.* BHIKHAN. **17 I C. 424 : 15 O. C. 291.**

——*Rights of mortgagee—To take possession—Possessory right—Unaffected by subsequent mortgage.*

The mere fact that the defendant held a prior simple mortgage of the same property would not entitle him to resist the plaintiff's suit for possession, the mere execution of a subsequent usufructuary mortgage would not take away from the plaintiff his right to take possession which had already accrued to him prior to the execution of the usufructuary mortgage to the defendant. (*Piggott, J. C.*) RANGU SINGH *v.* GANESH RAM.

14 I. C. 735.

——*Rights of mortgagee—Prior and subsequent— Failure to implead latter — Effect—Release of some properties.*

A puisne mortgagee who has not been impleaded in a suit for sale by a prior mortgagee has still his right to redeem intact. The latter cannot by releasing from the security one part throw the whole burden on the rest to the detriment of the former. ——*Rights of mortgagee—Mortgagee becoming a part owner—Sale of entire property bad.*

Where a mortgagee has become a part owner of the mortgaged property which is ordered to be sold under the mortgage decree then in the absence of any direction in the decree to the contrary and of any equities created against himself, he is entitled to sell the mortgaged properties in whatever order he chooses: The purchase of the equity of redemptiom in a portion of the property splits up the mortgage and the mortgagee becomes entitled to recover only a proportionate share of the mortgage money by the sale of the remaining portion. He is not entitled to sell the remaining portion for the entire debt but the Court cannot compel him to sell the portion in

———*Rights of mortgagee to sell hypotheca—Rights of purchoser.*

The balance of authorities is clearly in favour of the view that a mortgagee decree holder has the conduct of the sale and is entitled to execute the decree against any of the mortgaged properties he pleases and if any question of equity arises between the decree-holder and the persons to whom the equity of redemption in the mortgaged properties in or in any of them may have subsequently become vested that equity can only be enforced by an independent suit for contribution and not in proceedings for execution. Though every parcel of the mortgaged properties is liable rateably to its value and the principle applies with equal force where the mortgagee himself buys the equity of redemption in one or more of such parcels or releases any part of the security, such an enquiry as in the rateable distribution of the mortgage debt cannot be made in execution proceedings without serious complications. Sub-Mortgagee

———*Sub-mortgagee—Rights of.*

A Sub-mortgagee may, not only enforce his own mortgage but also the original mortgage against the original mortgagor and thus cut off the equity of redemption of the original mortgagor, *i.e.*, his mortgagor's mortgagor. (*Mookerjee and Fletcher, JJ.*) KRISANA KISHORE DE *v.* AMAR NATH KHETTERY. **31 C. L. J. 272: 56 I. C. 532: 24 C. W. N. 633.**

———*Sub-mortgagee—Rights of.*

The interest of a sub-mortgagee is transferable and heritable. To a suit by the sub-mortgagee against the mortgagee for a declaration that the decree obtained by the latter against the mortgagor after the sub-mortgage, is held by the mortgagee in trust for the sub-mortgagee, the mortgagor is not a necessary party. (*Brett and Richardson, JJ.*) BHUPENDRA NARAYAN DUTT *v.* RAJENDRA NATH DUTT. **18 I. C. 455.**

———*Sub-mortgagee—Possession of—Payment to sub-mortgagee.*

A sub-mortgage involves a personal covenant by the sub-mortgagor and his position is closely analogous to that of a surety. He is entitled to recover the debt from the original debtor though he is bound to pay it over to the sub-mortgagee in discharge of the sub-mortgage. (*Scott-Smith and Leslie Jones, JJ.*) RAM CHANDA *v.* MEWA RAM. **44 I. C. 213 : 3 P. R. 1918.**

———*Sub-mortgagee—Suit by mortgagor for redemption—Omission to implead one of the sub-mortgagees—Right of sub-mortgagee.*

Certain properties, were mortgaged joint to B and C. C sub-mortgaged his interests to D and B his interest to R. The mortgagor brought a suit for redemption impleading B. C. and R, only and in that suit R claimed and obtained compensation or a shop on the footing that it was in the portion sub-mortgaged to him by B. Subsequently D filed a suit against C and R for recovery of the compensation on the ground that the shop was in the portion sub-mortgaged to herself and that the decision in the prior suit was erroneous. It was found that the shop was in the portion belonging to C. *Held*, (1) that notwithstanding the deeree in the suit for redemption, it was open to D the sub-mortgagee to pursue her rights against any property in the hands of the sub-mortgagor into which the security was converted; (2) that the plaintiff was not entitled to a decree against R. there being no privity of any kind between them; (3) that the plaintiff sub-mortgagee could, as against R, a stranger, subrogate herself only to such rights as her sub-mortgagor had against him and was bound by the decree between her sub-mortgagor and the stranger; (4) and that the plaintiff was entitled to a decree only against C her own mortgagor, for the money due to her.

——*Sub-mortgagee—Notice—Registration.*

The registration of a sub-mortgage is not a legal notice of its existence to the original mortgagor; and a mortgagor who in the absence of actual notice, of a sub-mortgagee, pays the amount under a decree in a redemption suit to the mortgagee is protected from the claims arising out of the sub-mortgage, 29 Bom. 199; 12 Mad 424; 40 All. 407 (P.C.); 39 Cal. 527 (P. ——*Sub-mortgagee—Rights of—Discharge of prior mortgage—Effect of.*

Want of notice of an assignment of the mortgage does not render the sub-mortgage invalid except that the sub-mortgagee holds subject to accounts between him and the original mortgagee. A sub mortgage is not extinguished by the substitution of another mortgage in the place of the original mortgage. The sub-mortgagee has the right to bring to sale the right of the original mortgagee against the properties mortgaged to him and in that case the remedy of the mortgagor is to redeem it. (*Wallis, C. ——*Sub-mortgagee—Suit by—Mortgagor suing 1st mortgagee—Prayer for decree, amount—Amendment of plaint—Discretion of Court.*

Where plff. mortgaged his property to 1st deft. who in his turn sub-mortgaged the property and when the mortgage was satisfied the sub-mortgagee obtained a decree against the plff. and the plff. before satisfying the decree sued the 1st deft. praying for the decretal amount or for deposit of amount in Court and before trial plff. paid off the sub-mortgagee and prayed for an amendment to that effect. *Held*, that the plff.'s suit for indemnity before actual loss was not sustainable though he might ask for deposit in Courts, and that he was entitled to the amendment of the plaint. ——*Sub-mortgagee—Rights of—Powers to sell property.*

A sub-mortgagee can ask for a sale of the original mortgagor's interest in cases and in circumstances which would have entitled the original mortgagee on the date of the sub-mortgage to claim such relief, 20 M. 35; 27 A. 472, foll. MORTGAGE—Time for.

——*Sub-mortgagee—Rights of sub-mortgagee—Payment to mortgagee after sub-mortgage, when valid.*

A sub-mortgage operates to transfer all the rights and remedies which the original mortgagee had against his mortgagor to the sub-mortgagee. The latter has an additional remedy against the original mortgagee whose position is that of a surety for the debt due by the mortgagor to the sub-mortgagee. The original mortgagee is not entitled to exercise a power of sale after the sub-mortgage. The original mortgagor if he has notice of the sub-mortgage must pay the debt only to the sub-mortgagee. The bringing of a suit and the obtaining of a decree for sale by the original mortgagee and the non-execution thereof for more than three years, does not bar the sub-mortgagee from exercising his right of sale of the mortgaged property. ———*Right to—Nature of.*

The fact that certain persons are entitled to cash *Nanker* does not mean that they have an under proprietary right in the land in the village. (*Campbell, J. M.*) SRI RAM KUAR *v.* HANOMAN SINGH. 30 I. C. 373: 2 O. L. J. 359.

———*Right to cash nanker—Under proprietary right.*

A right to receive cash nanker which is a set off against the rent in connection with other facts justifies the conclusion that a *prima facie* case for under-proprietary rights has been established. (*Tweedy, J. M.*) LAL MUNESHAR BAKSH SINGH *v.* SHAHZADE KHAN.

———*Nature of the right.*

Right to cash *Nankar* does not connote a right to possession as under proprietor. The grant of annual cash *Nankar* by usufructuary mortgagee to mortgagor for maintenance during or at the time of extention of the mortgage does not mean that the grant would operate after the mortgage becomes irredeemable as a grant of under proprietary right, (*Kanhaiya Lal, A. NATTUKKOTTAI CHETTIES.

———*Madura District—Custom of* patnibhaga —Moopu.

Among the particular class of Nattukottai Chetties living in the seven villages in the Madura Distict there exists a valid custom under which in the case of marriages of a second wife during the life of the first, the first wife is entitled to have some property set aside for her maintenance which would descend to her son if she had one and is called *moopu* and the property of the husband is notionally divided one mainly to the sons of the first wife and the other to the sons of the s cond wife as per division *patninbhaga.* (*Lord Phillimore.*) PALANIAPPA CHETTY *v.* ALAGAN CHETTY. 44 Mad. 740: 48 I. A. 539. 14 L.W. 609: 64 I.C. 439: (1921) M.W.N. 687(P.C.).

———*Rate of Interest.*

The Madras rate of interest prevailing among Nattukottai Chetties is 8½ per cent. (*Abdur Rahim O.C.J. and Moore, J.*) VENKATACHELLAM CHETTY *v.* RAMANADEN CHETTY. 12 L. W. 228: (1920) M. W. N. 502: 59 I. C. 501: 39 M. L. J. 269.

——— ——*Bankers of South India.*

It is a matter of general knowledge recognised in various decisions of the Madras High Court that Nattukottai Chetties are really the Indian bankers of this part of the country. (*Wallis, C. J. and Moore, J.*) THE OFFICIAL ASSIGNEE OF MADRAS *v.* RAMASWAMI CHETTY.
43 Mad. 741 : 12 L. W. 89 : 1920 M. W. N. 424: 59 I. C. 475: 39 M. L. J. 135.

———Thavanai *deposit—Meaning of.*

The "*Thavanai* deposit" with a Nattukottai Chetty firm means that the parties agree among themselves to add the interest at the end of each *Thavanai* period to the deposit instead of paying it in cash to the creditors treating both as fresh deposits. (*Wallis, C. J. and Krishnan, J.*) NARAYANAN CHETTY *v.* SUPIAH CHETTY.

———*Trading family—Status of members of family.*

In a Nattukottai Chetty trading family the onus would lie on a member to prove that he was not a partner in the trade during his majority. Where a son assisted his father in the trade both when he was a minor and after he became a major the inference is clear that he was a partner

with his father in the family business. (*Wallis, C.J., Sadasiva Aiyar and Spencer, JJ.*) THE OFFICIAL ASSIGNEE OF MADRAS *v.* V P. L. R. M. PALANIAPPA CHETTY. **41 Mad. 824: 24 M.L.T. 216: 8 L. W. 530: (1918) M.W.N. 721: 49 I. C. 220: 35 M. L. J. 473.**

——Thavanai *rate—Practice of.*

The expression *thavanai* interest in the case of deposits made with Nattukottai Chetty firm means the customary rate of interest which is fixed by Nattukottai Chetties every two months. (*Wallis, C. J. and Kumaraswami Sastri, J.*) MUTHIA CHETTIAR *v.* RAMANATHAM CHETTIAR. **(1918) M. W. N. 242: 43 I. C. 972: 7 L. W. 330.**

——*Usage—Signature—Mode of.*

It is the custom among Nattukottai Chetties not to sign their names at the foot of their letters but to begin them by saying that the letters are from such and such a firm. The name so written at the top is a sufficient signature within S. 19 of the Limitation Act. (*Abdur Rahim and Oldfield, JJ.*) MUTHIA CHETTIAR *v.* KUTTAYAN CHETTY. **6 L. W. 790: : 43 I. C. 20: (1918) M. W. N. 42.**

——*Custom—Drawing hundies in the name of the agent of firm.*

It is a well known custom among Nattukottai Chetties to draw hundies, bills and promissory notes in the name of the agent of a firm represented by the firm's vilasam and in such cases, it is the firm indicated by the vilasam which is intended to be the payee and not the agent whose name appears on the instrument. (*Abdur Rahim and Srinivasa Aiyangar, JJ.*) GHULAMSA ROVUTHAR *v.* VISVANATH CHETTIAR. **5 L. W. 721: 40 I. C. 347: (1917) M. W. N. 344.**

——*Accounts*—Ainthugai *account—Meaning of.*

Among Nattukottai Chetties an *ainthugai* account is an account of properties in the possession of a person and it may include properties held by him on trust. (*Wallis, C.J. and Seshagiri Aiyar, J.*) RAMANATHAN CHETTY *v.* MURUGAPPA CHETTY. **3 L. W. 210: 33 I. C 969: (1916) 1 M. W. N. 208.**

——*Custom—Marriage—Partition.*

In a suit to obtain a partition of family properties, plff. set up the existence of a custom among the *Athangudi Chetties* or *Yezhoor Nagarathars* of the Madura District, by which the division was effected *per stirpes* according to the number of wives having sons (or according to the *Patnibhaga*). They also set up another custom according to which a member of the community who wished to marry a second wife during the lifetime of the first could only do so after reporting the matter to the *Nagarathars* or headman of the village and executing an agreement styled *Moopu Moori* binding himself to set apart a certain sum of money or extent of immoveable property or both (which provision is known as *Moopu*) as and for the maintenance of his discarded wife, which *Moopu* became her separate and absolute property, descendible to her own sons. *Held*, that the custom as regards *Patnibhaga* was not proved but that as regards the

provision for *Moopu* was made out. (*Sankaran Nair and Spencer, JJ.*) ALAGU CHETTY *v.* PALANIAPPA CHETTY. **2 L. W. 272: 28 I. C. 278: (1915) M. W. N. 221.**

——*Trade-assets and family property.*

The presumption is that Nattukottai Chetties make no distinction between their family properties and trade assets. Courts may, therefore, treat the property of members of such families as partnership property. It is open, however, to the parties to rebut this presumption by showing in particular cases that the proprietary rights of individual members have been kept distinct from the common trade-assets. 27 I. ——*Trade assets and family property.*

Among Nattukottai Chetties there is no distinction between family property and trade assets. Family property is trade assets. 26 I. C. 911, Foll. (*Sadasiva Aiyar and Napier, JJ.*) THE CHARTERED BANK OF INDIA, AUSTRALIA AND CHINA *v.* VELLAIPPA CHETTY. **27 I. C. 376: 27 M. L. J. 654.**

——*Usage.*

Nattukottai Chetties usually make no distinction between their family property and their trade assets and in the absence of any evidence to the contrary their family properties should be treated as trade assets. ——*Mode of business—Whether guaranteeing another Chetti, necessary incident.*

In a Chetti banking business it is not necessary that the Chetti must necessarily guarantee another Chetti. In other words, Chetti business does not necessarily require standing guarantee for others who are not Chetties. (*Ormond and Parlett, JJ.*) RAMANATHAN CHETTY *v.* BANK OF BENGAL. **23 I. ———*Hundi—Substituted Hundi on unstamped paper—Liability under former not put an end to.*

Defendants executed a *hundi* which was not duly stamped for the same amount in favour of the plaintiffs by way of renewal of the previous *hundi* and made an endorsement on the back of the latter *hundi* that another *hundi* for Rs. 1,000 had been executed in lieu thereof. *Held*, the giving of the second *hundi* would have operated as a discharge of the previous *hundi*, only if the second *hundi* was legally enforceable. The question as to the negotiability or non negotiability of an instrument is quite distinct from the question of a party's discharge from liability of the holder, and that the liability of the drawer of a bill of exchange or of any subsequent party thereto is not in any way affected by the document being negotiable or otherwise. Nor can mere cancellation have the effect of discharging a party from liability unless it is made with the express intention of discharging that party for if it is made unintentionally or is made under a mistake it will be inoperative. The negotiable security by a debtor to his creditor operated as a conditional payment only and not as a satisfaction of the debt. A Shahjog Hundi is only payable to the respectable holder unlike a hundi payable to bearer or order. It is a bill of exchange payable to a certain person. The definition of "Bill of Exchange" does not contemplate that the drawer and drawee can be the same person. Where the drawer and the drawee are the same person, the holder of a bill of exchange can treat it at his option as a bill of exchange or as a promissory note. Where there is a prohibitory order of court restraining the payee from dealing with or receiving the money due under a promissory note an endorsee from him with knowledge of the prohibition is not a holder in due course under S. 9 of the Neg. Ins. Act. The title of a holder of a promissory note who is unable to deal with the note or receive money due under it is to that extent defective, and an indorsee from him who is aware of his disability has a sufficient cause to believe that a defect existed in his title and is therefore not a holder in due course. Such an indorsee is not even a holder of the note as the indorsement under which he derived title was an invalid indorsement, as the maker after the prohibitory order cannot transfer any better title to his indorsee. It is as much a nullity as a forged cheque or a forged hundi provided there has been no negligence on the part of the true owner in allowing the instrument to come into the hands of the forger. A holder under such a forged indorsement is not a holder in due course. When an endorsement has been forged, it becomes null and void and hence cannot convey a title to the endorsee. 36 C. 239 ; 28 A. 428 ; 24 B. 65 Ref. (*Kemp, A. J. ——Ss. 9, 10, 60 and 80—*Payments entered on back of pronote.*

Payments entered on the back of a promissory note do not prove full discharge of note and a former demand for its return. The maker of a promissory note is not discharged by paying off the payee if the note is negotiated. It is no defence against the holder that the maker should have secured the note in return and that his action cannot be said to be in good faith. Where the appellant, a book maker, having got a cheque which was obtained in a betting transaction, endorsed in his favour and it is proved that he had transactions for a long time with the endorser, the presumption in favour of the appellant as a holder in due course is rebutted. The onus is on the appellant to prove that not only he gave consideration but also that he gave it without having sufficient cause to believe the title of its endorsee. (1877) L. R. 2 A. (*Rigg, J.*) H. J. GREEN *v.* BALON. **51 I. C. 537: 12 Bur. L. T. 16.**

——S. 13—*Cheque—'Bearer' struck out and 'order' substituted—Custom of negotiability.*

A cheque from which the word 'bearer' is struck out without substitution of the word 'order', is not negotiable under the Negotiable Instruments Act. The custom of trade which exists in the Bombay market, whereby such a cheque is regarded as an order cheque negotiable, extends the definition of the phrase "negotiable instrument", contained in S. 13 of the Negotiable Instruments Act and cannot be recognised by law. ——Ss. 13, 118—*Promissory note payable only to a specified person—Presumption under S. 118 if applies—Effect.*

A promissory note payable only to a specified person is not negotiable within S. 13 and the presumption laid down in S. 118 does not therefore apply to such a note ; the onus in such cases rests upon the creditor, to prove consideration. ——S. 14—*Negotiability — Incidents of—Delivery order, if negotiable.*

A document is negotiable if by the custom of the money market, it is transferable like cash and the *bona fide* transferee obtains a good title although his transferor might have stolen it. A delivery order may or may not be negotiable ; the question depends upon the conditions attached to it and the usage of trade under which it is issued. A document containing conditions may be negotiated but when the real effect of a document is that the seller will hand over certain goods to any one producing the document provided he has them and has been paid his price, no usage of trade can compel him to hand the goods over if he has not the goods or has not been paid the price. ——S. 15—*Indorsement — Assignment — Modes of.*

A negotiable instrument may be transferred otherwise than by endorsement alone. It may be otherwise assigned and the assignee may sue in his own name, the only difference being that the assignee will have only the right, title and interest of the assignor while the indorsee will have all the rights of a holder in due course. 28 Mad. 544 Ref. ——S. 15—*Indorsement—Mere written acknowledgment of receipt of money is not.*

A mere written acknowledgment of the receipt of money due under a pro-note signed by the payee, does not by itself amount to an indorsement within S. 15 of the Act. ——S 20—*Blank* Hundi *signed and delivered—Presumption.*

A person signing and delivering a blank *Hundi* to another *prima facie* authorises the latter to fill it up and give to the world the bill as accepted by him. He enables his agent to represent himself as acting under a general authority and cannot set up secret stipulations between himself and his agent, against a *bona fide* holder for value. (*Macnair, A. J. C.*) SHANTI DAS *v.* HIRA LAL. **59 I. C. 657.**

——S. 20—*Delivery of signed* hundi *left blank— Attachment of unsigned stamp—Estoppel.*

The estoppel under S. 20 of the Neg. Ins. Act can only be applied to the paper or papers which the signature covers. The delivery of a *hundi* paper signed but left blank cannot be taken to give *prima facie* authority to make thereon a negotiable instrument outside the maximum value covered by the stamp by attaching thereto other unsigned stamps. The delivery of several signed stamps separately does not give *prima facie* authority to stick them together for the purpose of a single instrument. It is only when the signature is across two or more stamp papers pasted together showing thereby that the several stamps have been united with the sanction of the person making the signature, that section 20 will govern as one transaction an instrument engrossed upon the jointed papers. ——S. 20—*Omission to state amount of the note, in the body of the instrument—Effect of.*

Such an instrument is not negotiable. (*Twomey, J.*) M. N. P. L. FIRM *v.* KIRWAN GYAN. **17 I. C. 915 : 5 Bur. L. T. 162.**

——S. 22—*Time of presenting* hundi *for payment.*

Where a *Hundi* is drawn on 7th May and is payable 61 days after that date a presentment of it for payment on July 10th would be a correct presentment, the rule being that a bill of exchange not expressly payable at sight, on demand, or on presentment, must be presented for payment at maturity, *i. e.*, on the third day after the specified day for payment. Such a hundi need not be presented at once to the payee or the endorsee for acceptance. (*Walsh and Sundar Lal, JJ.*) GANGA PRASAD *v.* HIRA LAL. **39 All. 86 : 37 I. C. 656 : 14 A. L. J. 1166.**

——S. 28—*Hundi—Principal and agent—Liability of agent—Person not named as party not liable.*

The name of a person or firm to be charged on a negotiable instrument should clearly be stated on the face or back of the document, so that the responsibility is made plain and can be instantly recognised as the document passes from hand to hand. In order to make a person liable as principal on a hundi executed by his agent, it is not sufficient that the name is disclosed in such a way that on any fair interpretation of the instrument his name is the name of the person really liable. A statement after the signature of the drawer that he is the "Superintendent" of another's affairs is merely descriptive and does not

——— Ss. 32, 37 and 44—*Liability of maker and acceptor—Burden of proof—Promissory note, without knowledge and in absence of payee to enable third person to raise money.*

The liability of a maker or acceptor of a negotiable instrument is based on the following principles:—When it is admitted that the maker of a note or acceptor of a bill made or accepted it, unless the plaintiff is charged with fraud and some *prima facie* case is made against him he need not explain the circumstances at all, and except under peculiar circumstances, the proof of which lies on the deft. a man who signs a bill is presumed to be liable for the whole amount appearing on its face. A pro-note executed in the absence and without the knowledge of the payee, to help a friend of the maker to raise money on it and money is subsequently advanced on such instrument to a third party, must be deemed to have been executed for consideration. Power to obtain duplicate in case of loss is a part of the mercantile laws of countries and ample scope is given to it by Court of Equity in England both on bills lost before and after maturity and on notes as well. Indian Courts administering rules of equity, justice, and good conscience will adopt the above as being not only in consonance with the spirit of the section but also as being the rule applied to similar cases in England. The provisions of Ss. 91, 92 and 93 of the Neg. Ins. Act dealing with dishonur by non-payment are applicable to bills of exchange payable at sight or on demand. ——Ss. 93 and 98—*Rule as to—Presentment if admits of departure—Necessity for.*

The fact that the hundi was not presented on the due date did not have the effect of a non-suiting plaintiff as the *hundi* was expressly payable at the Aliance Bank of Simla at Delhi, and neither the acceptor nor any person authorised to pay had attended there during the usual business hours. Presentment was therefore not necessary under S. 76 (*a*) of the Act. The law in S. 93 of the Act requires the holder to give notice of dishonour to the person or persons other than the drawee or acceptor whom he seeks to make liable on a bill. This rule does not admit of any departure except in the cases enumerated in S. 98 and as the plaintiff in this case had failed to prove the only exemption relied upon by him *viz.*, that the party charged could not suffer damage for want of notice his suit against the drawers must also fail on the ground of want of notice of dishonour. ——S. 98—*Negotiable Instrument—Notice of dishonour not given to drawer—Damage—Onus.*

The more correct view is that reasonable opportunity should have been given to the plaintiff to prove their own point. In a suit by the holder of a dishonoured hundi where no notice of dishonour has been given to the drawer, the burden of proving that the party charged could not suffer damage for want of notice is on the plaintiff. There should be a definite issue on the point. (*Kensington, J.*) JHANDA RAM *v* TODA MAL. 96 P. W. R. 1911 : 10 I. C. 405 : 173 P. L. R. 1911.

——S. 118—*Consideration—Recital of payment of cash—Presumption.*

In a suit on a promissory note a decree can be passed against the defendant if the promissory note tells of the payment of the consideration in cash, in which case there is a presumption in its favour, and if the defendant does not rebut it But if the plaintiff himself states that a part of the consideration was paid in cash and the rest in some other way but fails to prove the payment of the latter part, his claim must fail to the extent of the amount covered by the latter part. ——S. 118 (a) — *Presumption — Criminal trial.*

The presumption that a pro-note was for consideration will not necessarily apply in a criminal trial and the prosecution must prove that the promissory note was in fact executed for consideration and that the accused committed perjury in saying that they were without consideration. Under the Act, it must be presumed that consideration passes when a *hundi* is drawn, unless evidence is given to the contrary. But if the plff. chose to open the case and lead evidence as to the passing of consideration, which was disbelieved by the Court, no such presumption arises (*Rafique, J.*) KISHEN BALLATH *v.* GHURE MAL. 28 I. ——S. 118 (a)—*Consideration—Inconsistent statements—Shifting of onus.*

There is no doubt a presumption under the law that a maker of a promissory-note has received the consideration, but the fact that the plaintiffs' agent's statement with regard to consideration for the promissory-note was entirely inconsistent with the plaintiffs' allegation in his plaint was sufficient to shift the onus on to the plaintiffs. 48 P. ——S. 118 (a)—*Promissory note—Presumption of consideration—Onus.*

The initial presumption is that a pro-note is supported by consideration and the onus lies upon the executant to prove that no consideration passed. When in a pro-note the consideration was stated to have been paid in cash and the plff. was constrained to admit in his pleadings that consideration did not pass asstated in the pro-note the presumption is rebutted and the plff. should affirmatively prove consideration. ——S. 135—*Bills of exchange—Foreign bills—Dishonour, notice of—Acceptance—Customs of trade—Contract—Effect of war—English Bills of Exchange Act.*

Defts. shipped goods to London before the outbreak of war, in an enemy vessel destined ultimately to enemy ports. The goods were covered by Bills of Exchange drawn in Calcutta on London firms with their addresses given in the Bills as London. The bills were discounted with and endorsed to the plffs. in Calcutta. The Bills of Exchange reached London, one on the day war was declared, and the others on a subsequent day. The endorsees duly presented the bills for acceptance. They were returned dishonoured by the drawees. *Held*, that the bills were foreign instruments payable in a different place from that in which they were made and endorsed. S. 135 of the Neg. Ins. Act, applied and the law of England determined what constituted dishonour and what notice of dishonour was sufficient. Any further step in the performance of the contract was rendered impossible by the outbreak of war and the acceptance of the bills by the drawees would have amounted to a trading in goods destined for enemy ports. The drawees therefore were under no obligation to the drawers to accept the bills. The further performance of the contract having become impossible and there being no obligation of the drawees to accept, the plffs. were not bound to give notice of dishonour. The giving of notice of dishonour was an important part of the 'treatment' referred to in S. 42 and in the circumstances of the case where such notice of dishonour became unnecessary. The mere fact that the bills were left with the drawees for more than the customary time could not bar the plffs. from recovering on the bills. (*Sanderson, C. N. W. F. P. REGULATION (VI OF 1901).

—— **S. 3**—*Hazara Settlement Rules—Effect and scope of.*

It is difficult to regard section 60 of the Hazara Settlement Rules of 1872 as laying down anything more than a rule of evidence. It is perfectly clear that the Legislature intended that Regulation VI of 1901 should be retrospective. It must be remembered that this Regulation goes beyond a mere repeal of the Regulation of 1872 and adds in section 3 a very definite pronouncement that entries made in the Regular Settlement of 1871 shall be regarded as having no mere force than entries made in any other Settlement. It would be difficult perhaps to describe this provision as having a retrospective effect, as its object is to prescribe a rule of evidence for Courts adjudicating upon cases which arise after its enactment. It could only be regarded as retrospective if it be assumed that Regulation I of 1872 not only prescribed a rule of evidence for the guidance of Courts, but also conferred an absolute title irrespective of the evidence upon which a title was based. If this latter view of Regulation I of 1872 be accepted, it is clear that the Legislature in putting into law Regulation VI of 1901 deliberately intended a retrospective effect, *i.e.*, that even if a valid title had been conferred by Regulation I of 1872, such a title should no longer be considered valid by the Courts and should be open to challenge exactly as any other title recorded in the Settlement is so open. In a suit for a declaration under S. 158 of the Tenancy Act that the plaintiffs had acquired under-proprietary rights under that section on the ground that the land in suit had been held rent-free for over 50 years, it was found that the land was granted to the predecessor of the plaintiffs under a written "danpatra" about 100 years ago. The grant gave the grantee the right either to use the land for cultivation or to plant it with a grove. The grantee planted a grove in it. There was evidence of the payment of rent by giving a half share of the produce of the grove. *Held* that the land in question not having been let or held for agricultural purposes within the meaning of S. 4 of the Tenancy Act, the plaintiff's suit was, unsustainable. Notice to a purchaser by his title-deeds in one transaction, is not notice to him in an independent subsequent transaction, in which the instruments containing the recitals, are not necessary to his title but he will have constructive notice of the fact which affects the purchase of the property in the chain of title of which the paper forms a necessary link. ———**S. 1**—*Party agreeing to abide by oath of his opponent—Court cannot go into evidence.*

When a party agrees to abide by the oath of the other party or any particular witness, he clearly takes the risk of the witness swearing falsely. What he says in effect is: "whatever this witness states on oath, I am prepared to accept as true and to have the case decided on the basis of it." In such a case the court acts illegally and with material irregularity in entering into evidence on the question of consideration. If a Court notwithstanding such an agreement is to be at liberty to enter into evidence as to the truth or falsehood of the statement made, the effect in substance is to wipe out the agreement altogether ; it might not as well have been entered into. ——Ss. 8 and 9—*Scope of—Reference to referee—Court discretion to refuse—Pleader's power to refer.*

Where the parties to an arbitration agreed merely to abide by the statement of a referee even though not 'on oath or solemn affirmation' then neither section 8 nor section 9 of the Oaths Act would be applicable. Section 9 is by no means mandatory and it seems that under certain special circumstances the Court may have discretion to refuse to refer the matter to the referee. If no judicial proceeding had been recorded, it might very well have been that the so-called agreement was an informal talk not reduced to writing, and in any case looking at the fact that the respondent had the very next day withdrawn from the agreement and revoked it, it cannot be said the Court was wrong in exercising its discretion and in ordering that the case should be disposed of on the merits. A party's agent binds the party by an agreement under section 9 as much as a party himself. A *vakalatnama* gives sufficient authority to a pleader to agree to make a reference under S. 9. 3 A. L. Where a tenant transfers an occupancy holding not transferable by custom, and the transferee gets into possession of the property and remains in such possession for 9 years, the original tenant not making any arrangement for payment of rent of the landlord, there is an abandonment of the holding entitling a landlord to sue in ejectment. The landlord's rights of re-entry cannot be defeated by the transferee puttingan original tenant in ostensible possession of a portion of the holding

or pleading defects in his own title. ——— *Ejectment—Transfer of—Ejectment by landlord.*

A holding is a parcel of lands for which a definite contract for rent has been made and the homestead land for which no rent is payable is not a part of the tenant's holding. The principle underlying all suits for ejectment of transferees is based not on the Tenancy Act but on the Common Law whereby the landlord is entitled to enter into possession of all lands secured to the payment of revenue in which no relationship of landlord and tenant exists. Where an occupancy holding is not transferable by custom, the landlord is entitled to eject the transferee who has acquired no right against the landlord; where it is transferable by custom, the transferee of the whole of an occupancy holding is entitled to set up his purchase as a bar to the landlord's entry. Where the transfer is made to two or more persons, the landlord is entitled to regard the holding as still in fact and still liable to be sold in its entirety for its arrears of rent. But the landlord is not bound to recognise a splitting up of the holding and where on account of the difference in the dates of the different portions of the holding, as in the present case, a joint purchase cannot be pleaded, the transferee can have no defence to a suit in ejectment inasmuch as the transfer of the

——*Execution sale—Money decree in favour of landlord—Consent of tenant.*

The occupancy raiyat enjoys under the B.T. Act substantial rights in the land and his interest cannot be appopriately described as a merely "personal right" "or personal privilege." Apart from custom or local usage, the transfer for value of an occupancy holding in whole or in part is operative against the raiyat, whether it is made voluntarily or involuntarily. But such transfer is not effective against his landlord without his consent. The sole landlord of a raiyat is therefore competent to sell in execution of a money decree against his raiyat, whether his occupancy holding be or be not transferable by custom or usage. The doctrine of *stare decisis* did not stand in the way of overruling the decision in I. L. R. 24 Cal. 335. By setting it aside the Court would not affect transactions which might have been adjusted, rights which might have been determined, titles which which might have been obtained or personal status which might have been acquired, but would only be removing what had hitherto been erroneously regarded as a fetter upon the right of the execution creditor to realise his dues by the sale of an occupancy holding (*Mookerjee, C. If a tenant is upon his holding, which is not transferable by custom, his possession protects the party to whom he transfers a portion of his interest. But if the tenant is no longer on the land after the holding has been sold his property becomes that of the landlord. A purchaser of a non-transferable holding can, after the holding has been sold and the original tenant is no longer on the land, be a party to a suit for recovery of possession from the landlord. At an auction sale of a holding not transferable by custom a transferee of that holding made a deposit to set aside the sale. The landlord objected but on the Court overruling the objection withdrew the money from the Court. *Held*, that the landlord was not estopped from suing for possession since he acted under an order of Court in withdrawing the deposit. The holding is not abandoned if the original tenant, after selling a portion of the holding, remains in actual possession of it as an under-raiyat from the purchaser. The tenant took a sub lease of the portion of land which he subsequently sold in execution. A settlement was taken from the superior landlord. After an attempt to eject the purchaser under a decree he was opposed by the representative of the original tenant. The objection was allowed. A transferee of a portion of a non-transferable occupancy holding has no right to obtain a declaration prohibiting the landlord from proceeding with an action against his recorded tenant. The transferee is not entitled before he is actually dispossessed by the landlord to bring an action against the landlord for a declaration that a tenant alleged by the landlord to be his recorded tenant is not in fact his tenant and that a decree obtained by the landlord against the alleged tenant is fraudulent. Having no legal title or interest which the landlords are interested in denying the transferee cannot invoke S. 42 of the Sp. Rel.Act. If some out of a number of co.sharer landlords transfer either a part or the whole of a non-transferable occupancy holding, the remaining co-sharers are not entitled to eject the transferee. By obtaining recognition from a co-sharer landlord the transferee does not acquire any rights or valid title in the holding itself as against the entire body of landlords, notwithstanding such recognition the remaining co-sharers can sue the original tenant for the entire rent by impleading the transferee. If the consenting co-sharer landlords repudiate their consent and join the non-consenting landlords in suing the original tenant for the entire rent on the footing that the consent given by them does not create a division of the tenancy, it is open to them to do so. It may be that the transferee will be entitled to sue the consenting co-sharer for damages for fraud. (*Miller, C: J, and Mullick, J.*) GANANATH SATPATHEY *v.* HARIHAR PANDHI. **5 Pat. L. Where by custom the landlord is entitled to *nazar* when an occupancy holding is required to be transferred, he can recover possession from the transferee if there is no proof of the payment of the said *nazar*. ———*Transferability—Transfer of—Settlement by landlord.*

Settlements made by the landlord might be regarded as signifying the landlord's consent to the transfers set up by the rival transferees of the holding and in as much as the transfer set up by the defts. was from a pretended owner, the consent of the landlord could have no validating effect upon the title derived by the deft. from that transfer but it operated to validate and confirm the title derived by the plff. from the true owners. ———*Transferability of—Conditional transfer—Whether conditional on payment of nazar.*

In order to establish a custom of transferability of an holding subject to payment of a customary *nazar*, the evidence must show that the transfer must be recognised by the landlord if the *nazar* is paid. A custom which does not fix the rate or the amount of the *nazar* but leaves it to be settled by one of the parties is bad for uncertainty. Where a transfer is recognised only on condition of paying the *nazar*, failure to pay *nazar* does not confer any

A defendant mortgaged to plaintiff his non-transferable occupancy holding without consent of his landlords. Before the mortgage, other defendants who were co-sharer landlords had sued for their share of rent and obtained decree.

——*Summary settlement—Object and scope of.*

The first summary settlement in Oudh did not finally decide the proprietary title of the person who had engaged to pay the fixed revenue to the British Government. To allay mis-giving in the minds of the landholder it was considered necessary to settle proprietary rights after confiscation. All such proprietary rights were grants from the British Government and started fresh titles to the property, but it does not follow that these titles were free from the personal law of the grantees as regards succession and title of heirs. This settlement gave finality and perpetuity in respect to the proprietary right in the soil. Subsequently to emphasize this fact of the grant of a proprietary title sanads were issued to Taluqdars in accordance with letters of the Governor-General in Council. These letters were subsequently given the force of legislation under Act I of 1869. They declare that every Taluqdar with whom a summary settlement had been made since the re-occupation of the Province, thereby acquired a permanent hereditary and transferable right in the Taluqa for which he had engaged including the perpetual privilege of engaging with the Government for the revenue of the Taluqa. The Chief Commissioner proposed a form of sanad and the approved form was sent to him by the Governor General whith his letter dated 19th October 1859. The Sanads were given by Lord Canning at a Darbar held on 26th October 1859 The Sanad conferred no new rights but only declared the rights already determined in the 2nd Summary Settlement of 1859. A transfer to a person coming under any of the clauses of S. 22 of the Oudh Estates Act does not bring it within S. 14 of the Act if that person would be excluded by the senior member in his own class. The grouping in the clauses of S 22 cannot be held to bind the rule of succession therein. The amendment made by U. P. Act III of 1910 in the definition of legatee as given in S. 2 of the Oudh Estates Act is not retrospective where it affects vested rights. The words "would have succeeded" in S. 14 of Act I of 1809 are not equivalent to "might have succeeded" and must be confined to persons in the special line of succession that would have been applicable to the particular case if the transferor or testator had died intestate or without making a transfer. The rule of primogeniture laid down in the sanads in this case granted by Lord Canning meant the rule of lineal primogeniture as known to English Law. The word "successors," as used in the sanad means "successors on death" and includes both heirs and devisees but not transferees, *inter vivos*. The meaning of an ordinary primogeniture sanad is this. In the event of intestacy the case of all relatives of legitimate descent would be considered, all females and those coming through females would be excluded and the succession would be going to the surviving representative of the highest line collaterals only being admitted in the absence of surviving descendants. The grantee died in 1865 but him name was entered in lists 1 and 2. *Held*, that the grantee'e death before the passing of the Oudh Estates Act made no difference in his status and that he was a "talukdar" within S. 3 of the Act, with a permanent heritable and transferable right to the taluk. The provision in S. 8 that the lists should be prepared within six months after the passing of the Act was meant as a limit for their completion and for their initiation. The holder of an impartible taluk in Oudh annexed during the mutiny having petitioned the Govt. for a settlement of his former property, the Chief Commissioner consented to half the taluk being settled with him, by a letter dated 5—10—1859. The patta and the kabuliyat were executed on 13—10—1859. *Held*, the holder acquired a statutory, permanent, heritable and transferable right in the estate so settled, the delay in the execution of the formal documents being immaterial. Though the settlement was made with the holder as *mulguzar* yet as his name was entered in Lists I and II under S. 8 of Act I of 1869, succession to the estate would be governed as for the estates of *talukdars* under S. 22 of the Act. The properties settled with the holder in 1859 together with those which he got under decrees passed in his favour in the course of the regular settlement in 1865, 1866 constituted an "estate" within S. 3 of Act I of 1869 and are consequently impartible. Plff.'s case was that the villages originally belonged to their ancestor, that his widow in 1849 had for convenience of management consented to their being included in the *kabuliyat* given by the deft.'s ancestor to the King of Oudh, that at the time of the settlement in 1859 she had been directed to apply for the release of the villages on payment of the dues thereon, that she omitted to do so and that in 1868 her application for settlement had been refused as the villages were included in the deft.'s sanad. *Held*, that plaintiffs had not established in the proceedings of 1859 to 1868 anything which constituted deft.'s ancestor a trustee for the widow and that his possession was adverse from 1868. The suit was consequently barred by limitation. If the suit was regarded as one for redemption, it would be barred by S. 6 of the Oudh Estates Act. The inclusion of the name of a grantee in list 2 prepared under S. 8 of the Oudh Estates Act, is conclusive evidence under S. 10 not only of the fact that he was a 'talukdar' as defined in S. 2 but also of the fact that there was a pre-existing custom of impartibility and descent to a single heir in the family of the grantee and this is so although the *talukdari* estate is held under a primogeniture sanad. Succession even to after-acquired non-*talukdari* property is presumably governed by the pre-existing family custom of

Transfer by gift falling under the provisions of Ss. 13 and 15 of the Act would be governed by the personal law modified by custom, if any, to which the transferee is subject and not by any custom of succession prevailing in the Taluka. Such property becomes the self-acquired property of the transferee and if he dies intestate it would descend under the rules of personal law. Under the provisions of S. 13 of the Oudh Estates Act a transfer of property, whether by gift or will, requires to be registered and attested and the circumstance that the compromise whereby the transfer was made, later became merged in a decree does not affect the question. ——— **Ss. 22 and 13**—*Succession to estates—Rules governing.*

The special provisions embodied in section 22 of the Oudh Estates Act govern the succession to the estates mentioned in the second, third, and fifth of the lists, while the ordinary law to which persons of the donor's or testator's tribe and religion are subject governs the succession to the estates who would succeed to cases enterec in the 4th and 6th lists. In the former class of estates the person who would succeed to the estates, if the taluqdar or grantee were to die intestate would be the person to whom the special provisions of section 22 would apply. In the latter class of estates the person who would succeed to the estate, if the taluqdar or grantee died intestate, would be the person whom the ordinary law of the tribe or religion of the taluqdar or grantee would select. If the estate is one entered in lists 2, 3 and 5 the succession to which is regulated by primogeniture or the special rules of succession laid down in S. 22, the ordinary rules of the tribe and religion of the taluqdar or grantee would obviously be inapplicable, because, the heir to such an estate would only be one individual, and the ordinary law may point to many. If the estate was one entered in lists 4 and 6 the ordinary law of the trice and religion of the testator would govern the succession to such an estate, and the person entitled to succeed to the same may be one or more but they must be persons of equal degree. In other words S. 19 provides an execution in favour of a person who would have succeeded to the estate if the taluqdar or grantee had died intestate under the special provis ons relating to succession embodied in the Act. if the estate was one to which those special provisions relating to succession were applicable or under the ordinary law of the tribe and religion of the taluqdar or grantee, if the special provisions relating to succession so laid down, were not applicable. The person in whose favour the exception has been made would in any case be the person who would have been the immediate heir or the heir at law of the talukdar or grantee, bad the latter died intestate according to the law applicable to his estate. A similar exception is made in favour of the younger son of the taluqdar or grantee, if the estate was one entered in the 3rd or the 5th of the lists mentioned in S. 8, because by rule of primogeniture or impartibility applicable to such estate, such a younger son would be out of the pale of immediate succession and a gift or devise

in his favour would not divert the estate out of the line. (*Kanhaiya Lal, J. C. and Dalal, A. J. C.*) CHAUDHRAIN ZARIF-UN-NISA *v.* CHAUDHRI SHAFIQ-UZ-ZAMAN. **26 O. C. 133 : 1923 Oudh 185.**

A person entitled to the estate left by a talukdar under S. 22, cl. 14 of the Oudh Estates Act, but for the existence of the talukdar's widow who was in possession of the estate under cl. 8 of the section has no vested interest but merely an expectancy of inheritance in the estate which he could not transfer. Lord Canning's proclamation of 1858 resulted in divesting all landed property from proprietors in Oudh and vesting them in the British Govt. The second summary settlement did not of itself vest the absolute proprietary and heritable right in talukas but amounted to a permission to the person with whom the settlements were made to engage for the payment of the Govt. revenue. The effect of the declaration in the Governor-General's letter of the 10th Oct. 1859 being to invest the talukdars in possession under the Summary Settlement with permanent hereditary and transferable proprietary rights in their taluks, including the perpetual privilege of engaging with the Govt. for the revenue of those taluks, the two sanads addressed to the widow of the last owner having purported to confer upon her and her heirs for ever the full proprietary right, title and possession of the taluka, and intention of the Govt. being deducible from its own act and not from that of the widow, the widow took the taluka in her own right as full owner and not as a Hindu widow inheriting to her husband. If she failed to exercise the special powers of transfer conferred upon her the taluka would revert after her death to the nearest male heir of her deceased husband according to the rule of primogeniture. The succession would be governed by S. 22 of the Oudh Estates Act. (*Lindsay, J. C. and Stuart, A. J. C.*) BISESHAR BAKSH SINGH *v.* RAMESHAR BAKHSH SINGH. **4 O. L. J. 648 : 44 I. C. 368 : 21 O. The succession to a person obtaining a taluka under the provisions of S. 22 of cl. 4, of the Oudh Estates Act, and dying intestate, goes, in the absence of any male lenial descendant, to the line of the person who affiliated him and treated him in all respects as a son, and not to his natural line. ——S. 22 (11)—*Scope of Act—Adoption by Hindu widow—Rights of adopted son.*

The provisions of the Oudh Estates Act apply to Hindus, Mahomedans and Christians alike, and the Act takes no account of any peculiarities of Hindu law. Where a widow is holding under the Act the heir is not determined until her death and the adoption must necessarily have preceded that event. It is not the law that because a widow was given a life estate under a will, a son validly adopted to her deceased husband should be deprived of his rights in favour of a collateral. 21 O. The words "ordinary law" in S. 23 of the Oudh Estates Act refer to the law which would govern the parties apart from the statute and include any sanad giving title to the property in dispute.

Where the dispute related to a succession to a Talukdari estate which had been entered in list 4, and the sanad relating to the property specifically laid down that on intestacy the estate was to descend to the nearest male heir, *held* the latter was to be preferred to the widow.

——Sch. II —*Under-proprietary rights—Confiscation and restoration of proprietary rights.*

The proclamation of the 15th March 1858, confiscated both proprietary and under-proprietary rights. But when Govt. restored their estates to the *talukdars*, its intention was to restore them subject to under-proprietary rights as they should be found by subsequent proceedings to have existed at the date of the general confiscation. When the subsequent proceedings were completed the rights of under-proprietors were restored to them in the exact condition in which they would have been if no confiscation had taken place. Consequently where an under-proprietary holding was restored, the restoration has the effect of reviving in favour of other persons all the reversionary or other rights incidental to the ancestral character of the holding (*Lyle and Ashworth, A. When it is provided by the Wajib ul-arz of a village that no sharer in the village can dispose, either by way of sale or mortgage of his share or a portion of it to any stranger so long as a co-sharer is willing to take it, this principle applies also to a transfer by a co-sharer to another co-sharer and the rights are regulated by S. 9 of the Oudh Laws Act except when there is a well-established custom regulating the rights otherwise. The presumption as to a right of pre-emption, is in the absence of a custom or contract to the contrary a statutory one created by S. 7 of the Oudh Laws Act, and an entry in a Wajib-ul-arz to the effect that every co-sharer is entitled to sell his share to whomsoever he pleased is sufficient to exclude the right of pre-emption. ——S. 9— *Pre-emption — Preference on account of relationship.*

If every khata in the village is distinct without any joint right or joint obligation with the other khatas every khata would be in the position of a separate mahal and the co-shares of every khata would be separate and independent. Under these circumstances among the parties who are members of the village community so far as the right of pre emption is concerned no right of preference is given on account of relationship. (*Dalal, A.J.C.*) RAM ADHIN AND OTHERS *v* GAYA PRASAD AND OTHERS. **1923 Oudh 159.**

——S. 9 — *Pre-emption — Right to— Pre-emptor's property subsequently sold—Rights of heir of pre-emptor and vendee from him—Gift to son—Donee if entitled to pre-empt—Co-sharer—Rights—Pre-emption a personal right.*

The general principle is that the right of pre-emption runs with the land. It is settled law that a transfer by inheritance of the pre-emptor's property, subsequent to the sale which is to be pre-empted, transfers to the heir the right of pre-emption. A transfer of the pre-emptor's property by sale to a stranger subsequent to the sale to be pre empted does not transfer the right of pre emption to the vendee. A gift to a son of the pre-emptor falls within the general principle.

The expression "co-sharer" in cls. (1) and (2) of S. 9 of the Oudh Laws Act denotes persons possessing interests in immoveable property. Under the statute mere relationship does not create the right of pre-emption as it does in certain cases of custom. Relationship under the Oudh Laws Act is a ground of preference only provided the relation satisfies the *sine qua non* of ownership in property. A survey of Ch. II of the Oudh Laws Act shows that the right of pre-emption is an incident to the ownership of one land and a burden on the ownership of another land. On general principle the incident and the burden respectively will follow such lands.

The ownership in the one land as in the other may be acquired in any of the various modes of acquisition of property known to law. It may be under a gift, by purchase or inheritance A person is a co-sharer within the meaning of the sections of Ch. II of the Oudh Laws Act whether the property in virtue of the ownership of which he is a co-sharer is acquired in one way or in another, and a person who proposes to sell the same, no matter how he acquired the ownership of it. The last vendee in chain of successive vendees of a property which bears the burden of pre-emption is as liable to deliver the property to a legitimate pre-emptor as is the first vendee, the general principle being that the assignee of property takes it subject to all the obligations or liabilities. When the property the ownership of which confers on a person the capacity of a co-sharer, is transferred, the transferee acquires the status of a co-sharer, subject always to all the obligations and liabilities with which the property is burdened. Consequently if an intending vendor has complied with the provisions of S 10 of the Oudh Laws Act, by giving the proper notice to the pre-emptors, his successors in estate shall be deemed to have discharged the duty of giving the statutory notice, and the successor in the estate of the pre-emptor shall lose his right of pre-emption if his predecessor has not within three months from the date of the notice paid the price to the intending vendor. The right of pre-emption is a personal right in the sense that it is an interest protected solely against determinate individuals and not against the world at large which is the characteristic of a real right but to say that it is a personal right in the sense that it is an attribute of the status of the pre-emptor is based on a misconception. In one sense every right whether real or personal involves a personal relation. (*Simpson and Wazir Hasan, A.J.C.*) MIRZA SADIQ HUSAIN *v.* MAHOMED KARIM.

8 O. L. J. 560 : 1922 Oudh 101.

——S. 9—*Pre-emption—Right to mortgage—Object of defeating right of pre-emption.*

The right of pre emption in respect of a deed of mortgage arises, under S. 9 of the Oudh Laws Act when the mortgage is foreclosed. It also arises where it is shown that the transaction was an out and out transfer and the right of redemption reserved was merely nominal. In order to establish this it must be shown that the terms of the transaction are such as to render it practically impossible for the mortgagors ever to recover the property. If a genuine right of redemption is reserved there is nothing in the parties resorting to a mortgage instead of a sale for the purpose of avoiding pre-emption. (*Daniels, J. C. and Dalal, A. J. ——S. 9 and Ch. II—*Sale by Hindu widow of her estate in proprietary share without legal necessity.*

A sale made without a legal necessity by a Hindu widow, governed by the *Mitakshara* law, of her estate as a Hindu widow in a proprietary share is not a sale of a full proprietary estate, nor is it a sale of a proprietary tenure or a share of a proprietary tenure within S 9, and no right for pre-emption under Ch. ——S. 9—*Pre-emption — Sale—Consideration.*

A sale of an equity of redemption effected partly in lieu of money and partly in lieu of something computable in money or valued in money is subject to the right of pre-emption under S. 9 of the Act, where the vendor was admittedly the owner of the property and there was no cloud over his title preventing him or his vendee from recovering the property from the mortgagees. 9 O. ——S. 10—*Mortgage —Pre-emptor—Failure to give notice—Costs of redemption—Vendee—Co-sharer.*

A provision in a sale-deed as to redemption of the mortgage as economically as possible does not affect the nature of the transaction, if the pre-emptor happens to be the mortgagee of the property sold. If a vendee fails to see that the vendor complies with S. 10 of the Act and files a redemption suit against the mortgagee who files a simultaneous pre-emption suit, the vendee cannot recover from the pre-emptor mortgagee the costs of the redemption suit. A pre-emptor does not lose his right of pre-emption by reason of the vendee becoming a co-sharer after the date of the sale in question but before the date of the pre-emption suit. Up to the date of sale the pre-emptor has merely the right to be preferred which is a potential or imperfect right. That potential right gives place on the happening of the sale to a stranger to an actual or perfect right to be substituted for the vendee and such right cannot be defeated by any act of the vendee after the right has accrued. A purchaser who purchases property without ascertaining that it has been offered first to a person having a preferential right of purchase, is assisting the vendor in evading his obligation to give notice under S. 10 of the Oudh Laws Act and he cannot take advantage of his own wrong. ——S. 10—*Issue of notice—Contract of sale—Period of affixture—Knowledge.*

To comply with S. 10 of the Oudh Laws Act notice need not be issued before any contract to sell has been entered into. It is sufficient if it is issued after the contract has been entered into, but before actual sale has been completed. In the absence of any fraud on the part of the vendor or the vendee in the publication of the notice, it is not necessary that the notice should remain affixed on the chaupal or other public place of the village in which the property is situate, for the whole period of three months, especially in a case where it is found that the notice did remain so affixed for a sufficiently long period, that the co-sharers were aware of the issue of the notice and that along with the affixation of the notice the proposal of sale was notified throughout the village by beat of drum. ——S. 10—*Pre-emption suit by one co-sharer without making other co-sharers of equal degree, parties—Rights of latter.*

A pre-emption decree obtained by one co-sharer against the holder of a foreclosure decree, without impleading other co-sharers, equally entitled to pre-empt with him, as parties to the suit, furnishes a cause of action to the latter for a suit against the former (the pre-emption decree-holder) for pre-emption of the property pre-empted by the former. The non-impleading of the holder of the decree for foreclosure, in such a suit is not fatal to the suit. The carrying on of a pre-emption suit with the money supplied by a third person is no ground for its dismissal. 13 I. C. 508. Dist. (*Kanhaiya Lal and Kendall, A. J. Where property is transferred with all the usual incidents of a sale, the fact that the transfer masquerades under a cloak of a mortgage to defeat pre-emption will not prevent the pre-emptor, from claiming the pre-emption, if he can show that a sale was really effected. ——S. 13—*Fancy price—Pre-emption.*

To determine whether the price has been fixed in good faith, the Court can examine whether there is any very great difference between that price and the market value of the property. If the price entered in the deed greatly exceeds the market value, that fact would be relevant to the issue of good faith but it would be open to the vendee to show special circumstances which

——S. 13—*Pre-emption—Suit by mortgagee—Amount payable to vendee—Determination of market value.*

The vendor left with the purchaser a portion of the sale money to be paid to the mortgagee of the property. The pre emptor who was the mortgagee applied and obtained an amendment of the decree to the effect that the deft. vendee was entitled to receive from him only such sums as the latter had paid to the vendor. *Held*, that the Court was right in applying S. 151 and in amending the decree as prayed for. In the absence of any special reason for paying fancy price for the property, the fact that such a fancy price has been entered in the sale-deed is in itself evidence of the price being fictitious. Under S. 13 of the Oudh Laws Act if any single item forming part of the price mentioned in the sale-deed is found to be fictitious, the Court must fix such price as appears to it to be the fair market value of the property sold (*Lyle, A. ——Ss. 13—*Pre-emption— Genuineness or fictitious nature of sale and amount for payment in the pre-emption suit.*

In cases of pre-emption, a Court can on facts determine the genuineness or the fictitious nature of the sale as also of the amount for payment in the pre-emption suit on the market value, but when there is no evidence showing bad faith the fact that the price offered and paid was one which a reasonable businessman would not offer, raises no legal presumption of bad faith. ——S. 15—*Deposit of part of money out of time owing to mistake is not invalid.*

The respondent obtained a pre-emption decree subject to payment of Rs 80 which he duly deposited but subsequently attached and withdrew on account of the amount due to him for costs a sum of Rs. 22. The appellate court increased the amount payable for the property to Rs. 106-6. He accordingly paid the balance of Rs. 26-6 and obtained possession of the property. Under the decree both parties were to pay their own costs in the event of the plaintiff complying with the decree. On the matter being brought to notice the plaintiff paid in the amount of Rs. 22 which he had withdrawn but not within the one month allowed by the decree.

——**S. 53**—*Oudh Rent Act* (1886)—*Amendment Act* (*No. 3 of* 1901)—*Jurisdiction · Revenue Court—Civil Court—Ejectment—Proprietary and under-proprietary rights—Declaration.*

In cases to which the Oudh Rent Act (1886), Amendment Act, 1901 (Act 3 of 1901) applies the Court of Revenue has the exclusive jurisdiction to determine what is the status of a tenant of

lands, and what are the special or other terms on which such tenant holds, and the Civil Court has the exclusive jurisdiction to decide whether or not a person in possession of lands holds a proprietary or an under-proprietary right in the lands. The Revenue Court decided that the holders of a village were in 1852 owners of zamindari rights in the village, that they had not lost those rights, that it must be presumed that they were not ordinary tenants, and that the proprietor of the village should establish in the Civil Court that they were ordinary lessees. The proprietor then brought a suit in the Civil Court for a declaration that they had no proprietary rights of the nature of zamindari superior or inferior, in the village, and also for a declaration that the decision of the Revenue Court did not affect his rights.

Held, that the decision of the Revenue Court, which was subsequently acted upon in the preparation of the *Khewat* of the village, made it necessary for the proprietor to bring the suit. The fact that the holders of the village did not in their written statement in the suit set up that they had any proprietary or under proprietary right, did not disentitle the proprietor to the declarations which he claimed. ——**S. 61**—*Adverse possession — How to determine.*

In considering the question of adverse possession, the nature of the possession set up is to be seen, and to be determined by the acts of person in possession.

A tenant B was served with a notice of ejectment, which he contested on the ground that he was an under-proprietor and hence not liable to ejectment by notice. The Talukdar then brought a suit against B in Revenue Court which found

OUDH RENT ACT (XXII OF 1886), S. 61

that his status was superior to that of an ordinary tenant. He again brought another suit against B for proprietary possession but it was dismissed. Five years after he sued B for arrears of rent and took steps for ejectment under S. 61 and obtained an *ex-parte* decree. B died and his son brought a suit in the Rent Court under S. 108 to contest the ejectment but it was dismissed. He afterwards brought a suit of restoration of possession. *Held*, the order of Revenue Court adverse to Talukdar and tenant's possession was undisturbed for more than 18 years since Talukdar's knowledge of hostile title; consequently his dispossession was illegal and he had acquired status of under proprietor by adverse possession at the time of ejectment. ——S. 102—*Classification of tenants—Exhaustive — Under-proprietor—Transfer—Right of.*

The Act, recognises only three classes of persons, as having an interest in and entitled to hold land in the province of Oudh, *viz.*, proprietor, under proprietor and tenant. The law attaches to the status of under-proprietor certain rights, among them the right to transfer and while he retains that status cannot be divested of any of those rights. Where, therefore, at the time of a settlement a land owner applied to be recorded as an under-proprietor, and under pressure from the Settlement Officer consented to be recorded, as an under-proprietor without right of transfer. *Held*, that he was creating a tenure unknown to the law and that no effect could be given to the words 'without right of transfer' in the Settlement Officer's decree. OUDH SUB-SETTLEMENT ACT (XXVI OF 1866).

———*Under-proprietary tenure — Shankalap Koshist.*

OUDH SUB-SETTLEMENT ACT (XXVI OF 1866), R. 11.

Where the statement of the agent of a Talukdar showed that the land was held as *Shankalap koshist* rent free by the ancestors of the plaintiffs from a time long before the year 1877 when a claim was made by the taluqdar for assessment of rent only and when the settlement of decree therefore did not for the first time create the tenure of *shankalap koshist* but merely recognised it as a pre-existing tenure on the admission made by the taluqdar's agent and where the assessment of rent was made on the tenure. *Held*, the holding had all along been treated as an under-proprietary tenure. ———*Burden of proof—Gift by— Independent advice—Undue influence—Business like and intelligent lady.*

In the case of a gift by a *pardanashin* lady the burden of proof rests not with those who attack but those who rely upon the deed. There is no absolute rule of law that in the absence of proof of independent advice, a gift by a *pardanashin* woman is invalid. The absence of independent advice is a fact to be taken into account on the issue as to whether the grantor thoroughly understood the transaction and carried it out deliberately and of her own free will. If a review of the facts including the nature of the transactions, the training and habit of mind of the grantor, and the proximate circumstance affecting the execution lead to the conclusion that independent advice would not have made any difference in the result, then the deed of gift ought to stand. The things that must be proved to validate a deed of a *Pardanashin* lady are (1) that she actually executed it with a full understanding of what she was about to do. (2) Full knowledge of the nature of the transaction. (3) Independent advice. The cases on this subject fall into two groups, first where the transferee stands towards the woman in a fiduciary character and secondly where the transferee is an absolute stranger. In the former case the Courts would act with great caution. The fairness of the bargain is the crucial test. PARDANASHIN LADY—Burden of proof.

Sanderson, C. J.—There is no absolute rule of law that a *pardanashin* lady must have independent advice. The existence of independent advice or the absence of it, is a fact to be taken into consideration and will weigh on a review of the whole circumstances relevant to the issue as to whether the grantor thoroughly comprehended and deliberately of her own free will, carried out the transaction. If she did, the issue is solved, and the transaction is upheld, but if on a review of the facts which include the nature of the thing done and the training and habit of mind of the grantor as well as on the proximate circumstances affecting the execution, the conclusion is reached that the obtaining of independent advice would not really have made any difference in the result, then the deed ought to stand. *Per Mookerjee, J.*—Where the person seeking to hold a *pardanashin* lady to the terms of her deeds is one who stood towards her in a fiduciary character or in some relation of personal confidence, the Court will act with great caution and will presume confidence put and influence exerted. Where the person who seeks to enforce the deed was an absolute stranger and dealt with her at arm's length, the Court will require the confidence and influence to be proved. A Court will not be inclined to set aside a deed by a *pardanashin* lady, where the lady is proved to have been of business habits, to have been literate and to have possessed capacity to judge for herself. ———*Burden of proof—Execution of deed—Mortgage when binding on her.*

To find whether there was intelligent execution of a deed by a *pardanashin* lady, the circumstances should be borne in mind. The mere translation of the deed or communication of its substance to the lady is not enough. It must be shown that the deed was explained to her. Where a mortgage-deed written in English was read out and explained to *pardanashin* Hindu widow and she executed it in the presence of her own people and the reversioners who witnessed the execution. *Held*, that the deed was binding on the lady. ———*Burden of proof—Deed—Enforceability—Document not explained.*

If the terms of a document are not adequately explained to the executant who is a *pardanashin* lady of weak intellect and were not understood by her, the document will not bind her. (*Jenkins, C. J. and N. R. Chatterjee. J.*) KASIM MAMOOJI *v.* K. B. DUTT. **27 I. C. 459 : 19 C. W. N. 45.**

———*Burden of proof—Duty of Court.*

Courts should always take care to see that deeds taken from *pardanashin* ladies have been fairly taken, that the party executing the deed has been fully informed and completely free to do as she chose. The burden of proving these facts is on the party claiming against the lady. (*Jenkins, C. J. and Chatterjee, J.*) BADIATUNESSA BIBI *v.* AMBIKA CHARAN GHOSE. **23 I. C. 401 : 18 C. W. N. 1133.**

PARDANASHIN LADY—Burden of proof.

——— *Burden of proof—Documents by—Duty of the Courts.*

Courts should be careful to see that deeds taken from *pardanashin* women have been fairly taken and that the party executing them had an intelligent apprehension of the transaction, and if this is proved the mere absence of advice will not vitiate the transaction. 14 W. ———*Burden of proof—Execution of deed—Deed when enforceable.*

To enforce a document executed by a *pardanashin* lady, all that is necessary is to convince the Court that the transaction was a fair one and that the lady understood the act to which she was subscribing. ———*Burden of proof—Deed—Execution.*

An endowment deed was executed by a *pardanashin* lady ; the evidence showed that the deed was explained to her, and she thoroughly understood it and signed it after execution and not under duress or undue influence but from her free and independent will. The disposition of the property was most natural and besides her strength of will and business capacity, she had independent outside advice coming from members of her own family who were interested in the promotion of the objects she had at heart. *Held*, that the endowment was a valid disposition. (*Stuart and Kanhaiya Lal, A. J. Cs.*) GANGA BUHKSH SINGH *v.* GOKUL PRASAD. **44 I. C. 645 : 4 O. L. J. 744.**

———*Burden of proof—Execution of deed by—Genuineness—Joint execution by husband—Effect.*

Where the genuineness of a deed executed by a *pardanashin* lady is doubted, those in whose favour it was executed must prove that the lady fully understood the nature and character of the transaction when she signed it. In deciding the question, the whole attendant circumstances and her mental capacity must be considered. Execution of the deed jointly with her husband does not make the execution less voluntary, though the husband may be the moving spirit in the negotiation of the loan. (*Kanhaiya Lal and Kendall, A. J. Cs.*) SALCHA BIBI *v.* OUDH COMMERCIAL BANK, LTD. **36 I. C. 673 : 3 O. L. J. 482.**

———*Burden of proof—Deed—Execution—Attestation.*

In a suit based upon a deed executed by a *pardanashin* lady, the burden of proof rests not with her as attacking, but with plaintiff as relying upon the deed and he must prove affirmatively and conclusively that it was not only executed by, but was explained to, and really understood by her acting in the free and independent exercise of her will. But it is not necessary to prove affirmatively that she had independent advice at the time of the execution. Where a *pardanashin* lady is unable under custom to appear before male witnesses, the attestation of a document, which by independent evidence is conclusively proved to have been executed by such a lady, is good, if the attesting witnesses present outside the *purda* satisfied themselves before attestation that there was no fraud and that the document had been actually executed by the lady inside the *purda*. 37 C. 526, Ref (*Stuart, A. Compromise.

———*Compromise—Proof of—Knowledge of the merits of the case—Evidence as to.*

Where persons claim under transactions with a *pardanashin* lady the burden is upon them to prove by the strongest and a most satisfactory evidence that the transactions were real and *bona fide* ones and fully understood by the lady. 21 W. R. 340 ; 23 C. 949 referred to. A compromise of a litigation by a *pardanashin* lady is sufficiently proved by showing that the general result of the compromise apart from its details and legal technicalities were explained to her by disinterested and competent persons fully conversant with the whole matter and that she understood the subject. Where the question is whether a compromise was consented to by a *pardanashin* lady, that the affirmative of the proposition is not established by showing that the evidence of witnesses who deposed to a contradictory negative proposition is not reliable. The fact that an appellant draws out money deposited in Court in pursuance of the decree of the lower Court does not preclude him from questioning the correctness of the decree on appeal. ———*Knowledge of transaction—Disposition of property by—Court, duty of.*

———*Who is—Will—Proof—Onus—Presumption.*

The rule as to *pardanashins* does not apply to all *gosha* ladies alike. The rule at the best is one of presumption of want of ordinary capacity which can be rebutted. A *gosha* lady was, at the time of the execution of the will by her, about 55 years of age, was transacting business through agents to whom she gave personal instructions, interviewing Government Officers, giving evidence before Magistrates, directly presenting documents for registration, conducting heavy litigations through capable lawyers and giving them instructions. *Held*, on these facts that she could not be treated as a *pardanashin*, though she was belonging to a noble family, may be *gosha* when young and may not needlessly appear in public even when she was advanced in years. An Appellate Court should not allow a plea to be raised by the first time in appeal that the testatrix was a *pardanashin* lady and therefore incapable of understanding the terms of her will, at any rate without giving an opportunity to the plaintiff to adduce evidence of the testatrix's capacity and status, the circumstances attending the execution of the will and the means she had of obtaining independent advice. Effect of.

———*Effect of—Co-sharers—Lease of undivided land — Subsequent partition—Distinction between lease and mortgage.*

Where subsequent to the creation of a lease over a portion of joint property in the exclusive occupation of one co sharer with the consent of the others, a partition is effected among the co-sharers whereby the property leased is allotted to another, the rights of the lessee are not in any way affected. 1 C. W. N. 62, Foll. The difference between a lessee and a mortgagee of an undivided share in joint property (homestead and tank) is that in the case of a lease followed by possession of the property demised the title of the lessee is complete, while in the case of a mortgage the land is merely hypothecated and no title thereto is perfected until the security is enforced. 1 I. ———*Effect of.*

Partition is the process by which property held by two or more persons in co-tenancy is converted into estates in severalty and thereby divided among them with the result that the land which before partition was held and enjoyed jointly is after partition held and enjoyed by the different parties according to the allotments made by the Court. PARTITION—Effect of.

——*Effect of—New rights created.*

Whatever may be or may have been the rights of the parties before the partition with regard to the portions of land which were going to be the subject-matter of the partition the partition created new rights and it was under the partition that the suit lands were allotted to the plaintiffs and they became entitled to exclusive possession. 81 P. Entries.

——*Entries—Recording of land in the name of Pattidar—Presumption.*

According to an agreement between the parties the actual possession of all *sir* and *khudkast* had been left undisturbed, the holder being recorded as a tenant of any such land as fell in patti other than his own. The Amin at first entered a land as the defendant's *khudkast* in the plaintiff's patta. Such a state of things is of course an impossibility and the officer who made the partition ordered the Amin to correct the entry ; it was accordingly corrected into an entry showing the land as the plaintiff's *khudkast* and the jamabandi containing this entry was accepted and signed as correct by the parties. *Held*, the general statement of the Revenue Officer that the actual possession of *sir* and *khudkast* had not been disturbed by no means excludes the possibility of exceptions having been made and barely indicates a slight probability that an exception that appears on the face of the record was really due to a slip of the pen. ——*Equities — Transfer of undivided shares to different persons — Prior transfer of specific plots—Mode of allotment.*

Where separate rights created in favour of different persons can all be exercised without encroaching upon each other they must be treated as relating to different portions of the property. It was found as a fact that prior to the mortgage the owner had sold certain plots of land but this was not known to A or B. On a question arising at a partition between A and B. Though a partition can be entered into during the minority of some of the members of a joint Hindu family, it is open to the minor members to show that the partition was unfair or prejudicial to their interest and their not binding on them. In the case of a co-owner who is only interested along with a minor in one or more items of property, when division is effected, such division must be a fair one and not prejudicial to the interests of the minor. Wherever an adult person deals with a minor through the minor's guardian it is his duty to see that the transaction is a fair one and that the minor is not prejudiced in any way by an act or omission on his part. The duty is all the greater when the minor's guardian is a young widow having no independent advice and the adult co-owner knows everything about the property (*Spencer and Devadoss, JJ.*) PARAMASIVAM PILLAI *v.* MEENAKSHISUNDARAM PILLAI.

1 Bur. L. J. 26.

Principles.

———*Principles— Partial partition —When allowed—Co-tenants.*

The general rule is that all property held in co-tenancy and nothing but property held in co-tenancy should be included in a partition suit. A co tenant, whose title to an undivided share of joint property is admitted as clear is entitled to partition as a matter of right. A difficulty in making a division of the subject-matter or a resulting prejudice to some of the co-tenants, is not a sufficient ground for refusing a partition ; and it has sometimes been maintained that partition may be claimed, even though it be impossible to divide the property without materially impairing its value or even totally destroying it. Since partition can be claimed as a matter of right, a co-tenant is not required to make demand or to agree upon terms prior to institution of suit. But although, as a general rule, all joint property of the co-tenants must be included in a partition suit it is within the power of co-tenants, by mutual agreement, to make partition of a part only of the joint property, retaining the rest in common. The principle that a partition suit should include all the property of the co-tenancy is widely recognised, and it has been pointed out that if the rule were not enforced, a co-tenant might institute as many suits to partition the property as his caprice dictated. Consequently, a partial partition cannot, as a general rule, be compelled against co-tenants who do not consent thereto. But if some of the co-tenants desire to continue holding their moieties together and undivided the Court may permit them to do so, and instead of making a separate allotment to each, set apart to all who so desire an allotment to be held by them jointly. If it appears, however, that all the defendants have already received all that is equitably due to them, the remainder may be awarded to the plaintiff; this is not partial but complete partition. Exceptions to the rule that a suit cannot lie for partition of a portion of the family property have been recognised when different portions of the family property are situated in different jurisdictions, and separate suits for separate portions have sometimes been allowed, where different rules of substantive or adjective law prevail in the different Courts. Again, a suit for partial partition has been allowed when the portion excluded is not in the possession of co-parceners and may consequently be deemed not to be really available for partition. A suit for partial partition has also been allowed when the portion excepted is impartible property. In another class of cases, the rule has been relaxed, namely, where the portion excluded is held jointly with strangers who have no interest in the family partition. But although partial partition by suit is allowed where different portions of the property lie in different jurisdictions, or some portion of the property is at the time incapable of partition or is from its nature impartible or is held jointly with stranger who cannot be joined as parties to a general suit for partition, these exceptions must not be taken to have frittered away the fundamental rule that a partition suit should embrace all the joint property. 37 C. L. J. 191 : 1923 Cal. 501.

———*Principles.*

The principle of partition is that, if a property can be partitioned without destroying the intrinsic value of the whole property or of the shares, such partition ought to be made. If on the contrary no partition can be made without destroying the intrinsic value, then a money compensation should be given instead of the share, which would fall to the plaintiff by partition. A claim by a co-owner to partition can not ordinarily be resisted. (*Saunders, J. C.*) HARDANDAS PALANDROY *v.* SUNDER. **4 U. B. R. (1921) 57 : 1922 U. B. 4.**

Prior Partition.

Right to.

——*Right to—Co-sharers—Rights after partition—Imperfect partition.*

The co-sharers in a *mahal* have a right to effect a partition by private arrangement amongst themselves and it may be the most convenient method of effecting such a partition to assign the entire holding of a particular tenant to a particula group of co-sharers. The only difference effected by a private arrangement and one properly carried out under the orders of the Court is that the incidents of the private partition are difficult to prove, and that confusion and litigation may arise afterwards owing to the preparation of village records which are at variance with actual facts. After partition it is open to the sharer to eject tenants at will continuing on the land. (*Mears, C.J. and Piggott, J.*) HAWAL RAI *v.* HAR PRASAD.

———*Subject-matter of — Common and not joint property—Exclusion of some items—Effect.*

A suit for partition of common property, not joint property, is not liable to dismissal on the ground that all the joint property in respect of which it might have been brought has not been included. The objection as to partial partition is not available in such a case. It is always open to the defendant in such a case, if he thinks himself prejudiced by the exclusion of any property, to bring a suit himself in respect of it and have it tried with the other suit. ———*Suit for—Liability and negligence—Questions of, cannot be left open by court.*

It is not competent for a Court in a partition suit to leave open questions of the negligence of the manager and recovery of outstanding balances to separate suits. ———*Suit — Duty of Court — What properties to be included—Division on questions of disputed title—Parties to the suit.*

In a suit for partition, it is incumbent upon the Court, before the preliminary decree is made, to determine whether the property included in the suit are the joint properties as alleged, of the parties to the litigation. It is not the law that a question cannot be raised and tried in a partition suit unless its solution interests each of the parties to the litigation. A suit for partition may and does often involve the investigation of disputed questions of title, and an attempt to avoid them can only lead to needless multiplicity of litigation. The Court has ample authority to direct the successive trial of the issues separately affecting different defendants and even to record interlocutory judgments thereon to be made the basis of the final judgment at the conclusion of the whole case. There is no reason why disputed questions of title should not be decided in the course of a suit for partition of joint properties. The court which is one of general jurisdiction administering both legal and equitable remedies may determine issues of title, investigate disputes between parties claiming the same share, and then proceed with the partition so as to dispose of the whole controversy between them. Where there is conflicting claim to share in the land under the same right under which partition is sought the determination of the conflict is incidental to the partition and cannot be avoided before the partition is directed. 35 C. L. J. 530 : 1922 Cal. 307.

———*Suit—Frame of.*

In a suit for partition the plaint should include the whole of the family properties. A suit for partition asking for separate possession of his share cannot be treated as a suit for recovery of possession of immoveable property and a similar rent for moveable property so as to allow plaintiff to elect whether he will give up the claim for either. ———*Suit—Possession of plaintiff, if immaterial.*

In a partition suit it is not very material as to whether the plaintiff is or is not actually in possession of his share. But in the Mofussil Court it is important, because, if plaintiff is out of possession he must ask, first of all, to be restored to possession of his share and pay additional *ad valorem* fee upon his plaint, whereas in a case where the plaintiff is in possession, he simply sues for partition and separation of his share on his plaint bearing a stamp of Rs. 10 only. 44 I. C. 216.

———*Suit—Compromise by some of the parties—Consent—Decree—Validity of—Appeal.*

In a partition suit, defendants who were not parties to the petition of compromise entered into between the plaintiffs and other defendants are not bound by the terms and the decree based on the compromise. A partition by compromise cannot be effected when the compromise is not among all co-owners and therefore a consent decree based on such a compromise cannot bind any of the parties to the suit. An appeal may be preferred by a person not party to the consent-decree, though a consent-decree is not ordinarily appealable. M pleaded that in execution of a decree against him, the stable was purchased by H. It was found that the purchase was benami for M. *Held*, that H. being a benamidar, was not a necessary party. ——*Suit for—Effect—Parties.*

A partition creates new rights with respect to the property allotted to each co sharer irrespective of their rights prior to their partition and each becomes entitled to exclusive possession of the property allotted. ——*Suit—Parties—Co-sharers—Transfer of a share, if necessary—Essentials of action.*

The transferee from one of several co sharers can bring a suit for partition without impleading his transferor, though the latter may be a proper party. In order to succeed in a partition action there must be not only unity of title but also unity of possession, (*Coutts and Das, JJ.*) NANDKESHWAR MISRA *v.* SUDARSHAN.
1923 P. 162.

——*Suit—Interests of parties not co-ordinate—Procedure.*

In a partition suit, the mere fact of the parties owning interests which are not co-ordinate in decree is not a bar to partition provided the entire 16-annas of the superior and inferior interests are actually represented, and the balance of convenience is under the circumstances in favour of allowing the partition. (*Das and Ross, JJ.*) JOHN SOLONO *v.* RAM NARAIN. **61 I. C. 378.**

——*Suit—Compromise with some defendants Dismissal of suit—Right of other defendants to continue the suit.*

It is the right of every defendant in a partition suit to ask to have his own share divided off and given to him and he is *qua* his claim to a share on partition in the position of a plaintiff. But this principle does not apply to cases where it is found as a preliminary point that plaintiff is not entitled to any share. 31 Bom. 271, Foll. Hence where in the course of a partition suit, a compromise was arrived at with some defendants and the compromise petition stated that in consequence of a release deed executed by plfi.'s mother he was not entitled to a share at all, the other defendants were not entitled to proceed with the suit *qua* their shares. Where a minor heir was omitted in a partition suit between co-widows but the minor's title to a share was recognised and the Lower Court granted a decree to be made absolute only on the widows furnishing security for the proper care and maintenance of the minor and her share, *Held*, the Court had no jurisdiction to impose the condition and that the plaintiff was entitled to a decree unconditionally for partition of her share. The provisions of the partition Act apply to the stage at which the suit is in the Court of first instance. The various provisions of the Act manifestly indicate that, if any action can be taken under the Act, it can only be taken in the Court of first instance before a decree for partition has been actually made. After a decree for partition has been made, after one of the co-shares in the property has remained quiescent in both the Courts below, he could not be allowed to ask final Court of Appeal to do for him what the Court might have done if he had moved the Court when the case was under trial. In a suit for partition the defendant offered to purchase the plaintiff's share at a valuation, should the Court be of opinion that the partition could not be effected and the Court thereupon appointed commissioners who valued the plaintiff's share and defendants were allowed to purchase it. *Held*, that the Court had acted in accordance with Ss. 2 and 3 of the Partition Act when the parties were not at issue on the point that a division could not be reasonably made. The Court had further exercised a sound discretion in disallowing the application for withdrawal of the suit inasmuch as it had been made at a stage at which the defendant had become entitled to the benefit of S. 3 of the Partition Act. PARTITION ACT (IV OF 1893), S. 4.

Where the passage in a dwelling-house giving access to the rooms of different co sharers must, perforce, be left joint, the property is not susceptible of partition by metes and bounds. 24 I. C. 273 : 7 S. L. R. 117

——— S. 4—*Scope and object of—Form of decree.*

The object of S. 4 of the Act is to provide in certain cases an alternative course by which a plaintiff claiming partition by metes and bounds, may be compelled at the option of the defendant to accept pecuniary compensation. The section must be strictly construed and the words 'shall undertake' in the section mean that there must be an unconditional offer, from which the person making it, will not be permitted to resile and on such undertaking the Court is bound to direct a sale. A decree passed under the sections should be one which has the effect in law of transferring the ownership of plaintiff's share to the defendant who has undertaken to purchase it. *Semble*—The decree should compel the plaintiff to execute a deed of sale in favour of the defendant, as in a suit for specific performance of contract. On refusal by plaintiff Court may execute the document. On this defendant would become liable for the unpaid purchase money and the plaintiff may maintain a suit for recovery of the same if unpaid. Plff. was a transferee from one of the two co-sharers the other transferred his share to deft. No. 3. Plff. obtained a decree for possession of his one-third share against the original sharer deft. No. 2 who applied to have valued and paid off not only the share of the plff. but also of deft. No 3. *Held*, that he could have a valuation made of the plff.'s share but not of deft. No. 2 who was not suing. *Per Macleod, C. J.*—The object of S. 4 is to enable the members to buy out an outsider who is a transferee from one of the co-sharers. Ordinarily an application of this kind would be made before a preliminary decree is passed. This would put an end to the suit unless one of the defts. wished to continue and apply to have his name inserted as plff. in the place of the plff. who has been bought out a transferee who is not a member of the family is limited to a transferee. *Per Shah, J.*—S. 4 is limited to transferees who sue for partition. The right given to a sharer who is a stranger is limited to a trrnsferee who sues for partition and cannot be extended to any deft. co-sharer who may claim his share in a partition suit. ——— S. 4—*Option given under is not taken away.*

A preliminary decree was passed in a partition suit declaring defendants 3 and 5 to be entitled to buy plaintiff's share or allow his share to be divided. Defendants 3 and 5 appealed and plaintiff filed a cross-objection to the effect that the option to purchase could not be legally restricted to defendants 3 and 5. This cross objection was not pressed. In the trial Court after this the first defendant who was admittedly owner of half share was given option to purchase on his application.—*Held*, that the preliminary decree in the suit could not take away from defendant No. 1 the option of purchase which was given to him under S. 4 of the Partition Act of 1893. 12 C. L. J. 525 and 45 Cal. 873 followed. The fact that the objection taken by the plaintiff in appeal was dismissed is of no assistance to the defendants 3 to 5. A partner hip was dissolved in 1910 before the death of one partner and a suit by the plaintiff in 1913 for partnership accounts and profits was dismissed on the ground of being barred by limitation. A second suit was lodged by the plaintiff for his share of assets alleged to have been received by the defendants as debts due to the old firm. *Held*, in all cases where for any reason it did occur that after the dissolution and complete winding up of a partnership assets which had not been taken into account fell in, it ought to be divided between the ex-partners or their representatives according to their shares in the former partnership. If on the other hand no accounts have been taken and there is no contest, that the partners have squared up, then proper remedy, where such an item falls in, is to have the accounts of the partnership taken; and if it is too late to have recourse to that remedy, then it is also too late to claim a share in an item as part of the partnership assets, and the plaintiff does not prove and cannot prove that upon the due taking of the accounts he would be entitled to that share. It might well be the case that one of the reasons why no final balancing of the accounts took place was that A owed the partnership so much money and that it was anticipated that B would hereafter receive a particular item which would operate substantially to balance the claim. *Knox* v. *Gye* (L. The refusal and neglect on the part of one partner to perform his duties gives to any other partner the right to apply for dissolution or without legal proceedings the partnership could be dissolved by agreement between all partners; but when the rights to obtain dissolution are not exercised the partnership continues. ———*Accounts—Business brought to an end—Adjustment of accounts—Separate suit to recover sums which one partner may have realised.*

Two parties had been partners in a business which had been brought to an end, the only dispute between them, was as to the division of the property which could only be finally settled in a proper suit for dissolution of partnership and for adjustment of accounts. It is not desirable that each of the parties should proceed by separate suits in order to recover from the other any sums due to the partnership business which he alone may have realised. ———*Accounts—Suit between partners without general account—Maintainable.*

Under certain circumstances, a suit can be maintained between partners without taking a general account of all the partnership dealings. But the question in each case depends upon its own circumstances, and upon the question whether justice can rea ly be done without taking such an account. 32 M. 76, Rel. ———*Accounts—Suit for—Suit for partial settlement of accounts when maintainable.*

In regard to suits by one partner against another for a partial account, the general rule as applied

in India is that if the account is sought in respect of a matter which though arising out of partnership business or connected with it does not involve the taking of general accounts, the Court will as a rule give the relief applied for. It will be for the Court to determine under what circumstances it will be equitable to order a partial account having regard to the rights of the parties under the contract. There is no rule of law that a partial account can be ordered only under exceptional circumstances. 32 M. 176; 1 A. L J. 24 Rel. ———*Accounts—Suit by partner for his share in one item of partnership assets—Maintainability.*

A partner is not entitled to sue for his share in one item alone of partnership assets without first having an account taken of the partnership liabilities and deducting the sum total of them from the aggregate assets of the firm. A relief by way of accounts is not in the nature of a general relief and a suit by a partner for a share in one item of the firm's assets without a specific prayer for accounts is liable to be dismissed. 34 M L. Where the surviving partners agreed with the Secretary of State to refer their dispute to arbitration and the legal representative of the deceased partners were not parties to the reference and such legal representative sued the surviving partners for accounts and put forward, in appeal,

———*Authority of partner—To bind minor members—Patent rights.*

The Court, which is bound to determine and to determine finally and to dispose of questions arising in the partnership suits, cannot shirk its duty in deciding how the partners intended the patent rights to be dealt with, merely because special powers have been given to litigants to apply to another Court. The special Court under the Patent Act would be bound in deciding any matter in relation to a patent in accordance with the sections of the Patent Act, to decide the controversy with reference to what had been established by the findings of the Court in the dissolution of the partnership which would be binding upon the parties in any controversy under the Patent Act. Where the contracting party is a minor represented by a guardian, and the contract was clearly for the benefit of the minor and was made at the request of the guardian for the convenience and benefit of the minor's interest, it binds the minor. ———*Authority of partner—Negotiable instruments—Power to execute.*

Dissolution.

———*Dissolution—Assets discovered after—Remedy.*

If a partnership has been dissolved and the accounts have been wound up and each partner has paid what he had to contribute to the debts of the partnership and received his share of the profits, the mutual rights and obligations having been thus all discharged and then it turns out afterwards that there was some item to the credit of the partnership which was either forgotten or stated as valueless by reason of the supposed insolvency of the debtor or for any other cause, which item afterwards becomes of value and falls in, it ought to be divided between the partners in proportion to their shares in the original partnership If, on the other hand, no accounts have been taken and there is no contract that the partners have squared up then the proper remedy when such item falls in is to have the accounts of the partnership taken. ———*Liability of partners—Minor—Admission to benefit of the partnership—Effect—Whole transaction to be looked into.*

In considering whether admission to a partnership is for the benefit of the minor, what we have to consider is, not the benefit to the minor of an isolated clause of the partnership agreement but the total benefit which would result to him. There cannot be the least doubt that the rescue of a family business from its perilous financial situation was a benefit to the minor which far outweighed any restriction which might be placed upon his activities. In regulating the rights *inter se* between a partner and a sub-partner, the rule of law embodied in S. 31 of the English Partnership Act can be followed in India. A settlement of account between a partner and his co-partner before the dissolution of partnership will be binding on his sub-partner. *Per Wallis, C. J.*—When once the partnership is dissolved any settlement will not be binding on the sub-partner but he will be entitled to ascertain the share of the partner under whom he claims. *Per Sadasiva Aiyar, J.*—A settlement of account made by a partner with his co-partner prior to dissolution and up to the date of the dissolution is binding on the sub partner It is for the purposes of winding up the partnership a partner settles an account with his co-partner in a proper manner. On principle such settlement should be held binding on the sub-partner to the extent that it is binding on the partner. English decisions which imply that a settlement made by a partner after the dissolution of partnership for the purposes of winding it up is in no way binding on the sub-partner ought not to be followed (*Wallis, C. The parties to a mortgage transaction compromised a pending litigation to the effect that the mortgagor was to be the absolute owner of a portion of the mortgaged property and the mortgagee of the remainder and the debt was deemed to be extinguished. No written conveyance was executed but a decree was passed on that footing in 1873 and the parties had acted on that contract for 40 years each dealing with the property allotted to him as absolutely his own. Subsequently the mortgagor's representatives treating the mortgage as subsisting sued to redeem. *Held*, that the suit was not maintainable. Whatever defects of the form there might have been in the compromise agreement as a transfer of the equity of redemption to the mortgagee, they were cured by the actings of the parties and the right to redeem was extinguished. Equity will not fail to support a transaction clothed imperfectly in those legal forms to which finality attaches after the bargain has been acted upon. ——*Doctrine of—Applicability to India.*

In England the doctrine of part performance belongs to the sphere of contract and operates, where applicable, to allow a party to prove a contract in an action, in spite of a statutory prohibition. In India, however, neither the doctrine of part performance nor the doctrine that 'Equity regards that as done which ought to be done,' can be invoked so as to effect a valid transfer of immoveable property without a registered instrument in cases where such instrument is required by S. 54 of the Transfer of Property Act. Where under an unregistered deed of exchange the parties went into possession of the plots exchanged and one of them erected costly structures with the knowledge of the other. *Held,* that no title passed in the property in the absence of a registered conveyance and the parties could recover the plots which originally belonged to them. ——*Doctrine of—Applicability in India.*

There is nothing in the Indian Law inconsistent with the doctrine of part performance on which Courts of Equity in England have acted for many years.

The jurisdiction to carry into execution transactions clothed imperfectly in legal forms being purely equitable, Courts of Equity have imposed on themselves certain limits for the exercise of the jurisdiction. Those limits must be clearly

recognised and carefully guarded. The first essential condition for the exercise of the jurisdiction is that there must be a final engagement between the parties. If the circumstances in the case suggest that the matter still rested in negotiation, there is no room to charge a person on the equities resulting from the acts done in execution of the contract. The second essential condition is that there are such actings of the parties as must be unequivocally and in their own nature referable to the agreement alleged. ——Ss. 62, 64, 70 and 77—*Wrist band—Jurisdiction of Controller — Non-insertion or omission from the register—Cancellation of entry in register—Mandamus—Application to the High Court—Specific Relief Act, S. 45.*

The Controller upon the application of a private person has no jurisdiction to cancel the registration of a design. The ordinary way of expunging the registration of a design is to apply to the High Court under S. 64 The only person who can apply under S. 62 of the Patents and Designs Act is the registered proprietor or some person in whom his interest vested. The words 'non-insertion' in or omission from the register, in S. 64 do not include cancellation and so the High Court cannot interfere under that section when there has been an improper cancellation. Form No. 20 (under the Patents and Designs Act of 1911) must be limited to applications of a registered owner though it has been framed in a general way. Under S. 45 of the Specific Relief Act, 1877, the High Court can interfere when, in the opinion of the High Court, the doing or forbearing of the required act is 'consonant to right and justice' Therefore the High Court before it can direct the Controller to restore the registration of the design, has to consider, whether the design is new and original. S. 4 of Act XXIII of 1871 does not require that the grant should be of the land revenue alone in order to shut out the jurisdiction of the Civil Court. The latter has no jurisdiction to entertain a suit relating to a grant of land revenue. Even where land revenue is granted along with the land itself, a Civil Court has no jurisdiction to determine a suit which relates to the land revenue alone. Freedom from liability to land revenue is not identical with holding a grant of land revenue. The land revenue arising from a man's own holding, when it is remitted and the land pays nothing, is rather extinguished than granted. 1 B. 75 at p. 81 Ref. The Pensions Act (XXIII of 1871) contemplates money payments to be received through the Collector from recorded persons bound to pay revenue. The grant of a *Saranjam* should be presumed to be a grant of the land revenue and not of the soil. In a suit to recover a *saranjam* a preliminary issue was raised 'whether the suit lies without a certificate under the Pensions Act.' Plaintiff's pleader having admitted the necessity of the certificate, the Court decided that the certificate was necessary and gave time to the plaintiff to produce it. Plaintiff having failed to produce the certificate, the Court disposed of the suit on the preliminary issue. *Held*, that the

——*Suit for—Parties—Action based on forfeiture.*

When a suit for possession is based upon forfeiture of term, all persons in possession including constructive possession, at the date of suit should be joined as parties. (*Rankin, J.*) EZRA *v* GUBBAY. **60 I C. 969 : 47 Cal. 907.**

——*Suit for—Title admitted—Deft. to prove tenancy—Burden of proof—Land in suit contiguous to holding of deft.—Shifting of onus.*

The plff.'s title as patnidar, being admitted, the deft. cannot resist plff.'s claim for khas possession, unless he can show that he has a tenancy entitling him to retain possession. The mere fact that the deft. holds some land as tenant under the plff. does not shift the burden of showing that, in respect of any other land which the deft may be found to be in possession of, he has no right as a tenant. If the lands sought to be recovered are admitted by the plff. to be contiguous to the holding of the defts. or where they have come to the possession of the defts. by encroachment, the plff. must prove that the lands in suit are outside the holding of the defts. ——*Good against all but true owner.*

Whether possession originated lawfully or not the person in possession is entitled to the property and the trees thereon as against all the world except the true owner. (*Broadway, J.*) SIDHU *v.* DHANNA. 67 I. C. 948 : 2 Lah. L J. 271.

——*Dispute as to—Several persons claiming to be owners.*

Where, on the death of a person, several persons claim to be entitled to the property and put their locks to the house, none of them can be said to have a possessory title. (*Broadway and Abdool Raoof, JJ.*) TIRATH RAM *v* KABAN DEVI. 1 Lah. 588 : 60 I. C. 101 : 3 Lah. L. J 35.

——*Possession after scramble, whether sufficient for decree.*

Where both plff. and deft. put a lock to the door of the property in suit plff.'s possession is not peaceful and exclusive so as to entitle him to a decree on the basis of possessory title. Mere possession which is sufficient under S. 9 of the Sp. Rel. Act is not sufficient. (*Broadway and Raoof, JJ.*) TIRATH RAM *v.* MUSSAMMAT KAHAN DEVI. 60 I. C. 101: 1 Lah. 588.

——*Sufficiency of—Co-sharers—Ejectment.*

The peaceful possession of a co-sharer of a plot of a common land will, if disturbed by other sharers, give him a right to sue on his possessory title. (*Scott-Smith, J.*) GANESHA MAL *v.* IBRAHIM. 53 I. C. 569: 104 P. R. 1919.

——*Mere user—Right to sue does not exist.*

A mere user which has not ripened by prescription will not give rise to any right upon which an action can be founded unless some kind of possessory title exists in plff.'s favour. POST OFFICE ACT (VI OF 1898), S. 44.

———*Sufficiency of—Infringement—Suit on, when maintainable—Suit for declaration against tenants regarding their status.*

A mere possessory title will not suffice for maintenance of a suit against tenants, for a declaration that they are not under-proprietors. Also probability of some danger arising in the future to the exercise of possessory rights is not sufficient for this purpose. An application by tenants to the revenue Court to be recorded as under-proprietors does not amount to an invasion of,or interference with, the rights of a person whose only right is merely to remain in possession. POWER OF ATTORNEY.

———*Construction.*

A power-of-attorney must be construed strictly. Such a construction would not prevent the exercise of all powers necessary and incidental to the powers expressly conferred. A power-of-attorney conferring the right to execute a decree does not confer a right to assign the decree. Power expressly conferred in a power-of-attorney to execute the decree does not imply any power to transfer a decree for consideration. A power-of-attorney provided "to execute all decrees in the name of my father or in any other name on my behalf or otherwise to attach and realize all moneys due thereon". *Held*, that the agent acting under the power could not assign the decree. ———*Construction— Authority to manage—Jagir—Power to defend suit, and make admissions.*

A power-of-attorney should be strictly construed. A power of authority authorising a person to look after the management of a minor's jagir does not, in the absence of express terms, empower the agent to defend the owner's title to the jagir in a suit. Any admission made by such agent, in the course of a trial is not binding on the owner. (*Prideaux, A. J. C.*) NAZAR ALI *v.* ASHRAF ALI. **47 I. C. 528.**

———*Construction—Conduct of suit—Oath.*

An agent who is empowered to conduct a suit in any manner he may deem fit even to the extent of withdrawing it or entering into a compromise has power to bind his principal by an agreement to abide by a special oath entered into with the opposite party. (*Kanhaiya Lal, J. C.*) JHABBU *v.* ZAHID ALI. **22 O. C. 181 : 53 I. C. 453 : 1 U. P. L. R. (J.C.) 89.**

———*Construction.*

A lady is not liable on a pro-note executed by her agent authorised to borrow on her behalf only for necessity where he did not purport to borrow on her behalf or for actual necessity (*Stuart, J. C.*) MUHAMDI *v.* DURGA PRASAD. **40 I. C. 452 : 4 O. L. J. 299**

———*Strict construction—Power to sign a mortgage does not include power to contract debt.*

Powers of attorney should be strictly construed. A power to sign a mortgage does not carry with it a power to contract a debt on a mortgage or enter into the transaction but a power to execute a mortgage carries with it the power to enter into the transaction itself. 6 C.L. J. 493 Dist. (*Coutts and Das, JJ.*) RAM LAL SINGH *v.* MT. BIBI SHAHRUNISSA. **3 Pat. L. T. 442 : 1922 P. 559.**

———*Construction — Scope of authority — Mortgage—General power to—Power to pass a pro-note.*

A general power to sell mortgage, or pledge property implies a power to borrow money on mortgages on the principal's account, and to create an equitable mortgage by deposit of title deeds, but not to sign promissory note executed. (*Fox, C. J. and Hartnoll, J.*) M. A. R R. M. R. M. CHETTY *v.* BADIER RAHQMAN CHOWDRY. **36 I. C. 19 : 9 Bur. L T. 166.**

POWERS.

———*Construction.*

Powers of attorney are to be construed strictly. If an act is challenged as being in excess of the power it must be shown that the authority is to be found in the four corners of the power either expressly or by necessary implication (1893) A. C. 170 Ref. *Per Twomey, J.*—A power to sign accommodation notes may well be inferred from a power to sign promissory notes jointly with others. (*Hartnoll and Twomey, JJ.*) BANK OF RANGOON, LTD *v.* SOMASUNDARAM CHETTY. **8 L. B. R. 168 : 26 I. C. 253 : 8 Bur. L. T. 1.**

———*Construction.*

Power-of-attorney must be construed strictly and unless an express power is given to an agent to enter into contracts of guarantee on behalf of his principal or to execute negotiable instruments for his principal jointly with others the person alleging such power must show that the agent had in fact authority to enter into such a transaction. (*Ormond and Parlett, JJ.*) RAMANATHAM CHETTY *v.* BANK OF BENGAL. **7 Bur L. T. 126 : 23 I. C. 516. [Reversed on Appeal 43 Cal. 527: 32 I. C. 419 (P. C.]**

———*Construction—General powers.*

In a power of attorney which should be strictly construed, the operative part being controlled by the recitals, general words following an authority to do particular acts should not be taken to confer general powers, but should be limited to the purpose of the authority or to those necessary for the proper performance of particular acts. (*Fawcett, A.J. C.*) BHAGWANJI *v.* GANGA. **36 I. C. 968 : 10 S. L. R. 72.**

POWERS.

———*Joint power—Death of one—Survivor—When can execute.*

If power is given to A and B *persona designata* to do an act if and when they think it desirable the occasion cannot arise nor can the power be exercised unless they are both living and agree as to the act. This cannot be the case after the death of one of them, and the consequence is that the survivor cannot do the act because he has not the warrant of the agreement of his late colleague, nor can he then do the act, seeing that the authority to do is only given to the two acting jointly. The case is different when the power is vested not in *persona designata* but in the occupants for the time being of a specified office such as executors or trustees. (*Lord Moulton,*) VENKATA NARASIMHA APPA ROW *v.* PARATHASARATHY APPA ROW. **37 Mad. 199 : 41 I. A. 51 (1914) M. W. N. 299 : 12 A L. J. 315 : 18 C. W. N. 554 : 15 M. L. T. 285 : 23 I. C. 166 : 16 Bom. L. R. 328 : 26 M. L. J. 411. (P. C.)**

———*Construction of—Liberal construction.*

Powers are to be construed in accordance with the intention of the donor or grantor ; that intention is to be collected from the instrument

itself, although a reference may sometimes be had to the circumstances under which it was given. All powers are to be liberally construed in equity for furthering the purpose for which they were created. (*Mookerjee and Beachcroft, JJ.*) SARADA PRASAD PAL *v.* RAMAPATI PAL.

Abandonment of Plea.

———*Abandonment of plea—Effect.*

A party, abandoning his case set up in the trial Court, cannot advance it in second appeal. (*Piggott and Walsh, JJ.*) HARIMURAT *v.* RAMHIT.
63 I. C. 490 : 3 U. P. L. R. (A) 179.

———*Abandonment of plea—Point not argued.*

Where an appeal which comes before an appellate Court is heard upon the merits, a point which goes to the root of the suit being not argued, must be taken to be abandoned and therefore it is equivalent to a decision against the appellant. (*Walsh and Stuart, JJ.*) HANS RAJ *v.* BIJAI RAM SINGH. **40 I. C. 621.**

———*Abandonment of plea—If can be raised again.*

Where a party abandons any point of appeal he cannot be allowed afterwards to take up a point once abandoned. Where therefore the only point raised was a point of limitation which was decided against the appellant, he cannot be allowed to raise a new point of estoppel. (*Pratt and Fawcett, JJ.*) DODDAVA *v.* YELLAWA. **1922 Bom. 233.**

———*Abandonment of plea—Statements in judgment.*

A statement in a judgment that a point is not seriously pressed in the first court must be taken proof of its having been abandoned. (*Beachcroft, J.*) KORBAN ALI *v.* MAKHUL ALI.
50 I. C. 743.

———*Abandonment of plea—Appellate Court—Point not appealed against.*

Appellate Court cannot interfere with lower Court's decree on a matter against which no appeal has been preferred. (*Chatterjee, J.*) DWARKA NATH *v.* MOHIMA CHARAN **9 I. C. 121.**

———*Abandonment of plea—Memo. of appeal not disputing points raised in judgment.*

Where an appellate judgment states specifically certain points were argued, but the memorandum of appeals contains other points besides, consequently the presumption is that they were given up. (*Harrison and Zafar Ali, JJ.*) HARJI MAL *v.* DEVI DITTA MAL. **4 Lah. 364 : 1924 Lah. 107.**

———*Abandonment of plea.*

Plea given up in lower appellate Court cannot be advanced in second appeal. (*Reid, C. J. and Johnstone, J.*) JAIMAL *v.* LAL SINGH
11 I. C. 408 : 88 P. W. R. 1911.

———*Abandonment of plea.*

Held, that it is not open to the appellant to appeal solely on a ground which he deliberately abandoned in the Court below. (*Daniels, J. C.*) GHULAM SARWAR *v.* NAYAZ ALI.
64 I. C. 185 : 24 O. C. 181.

———*Abandonment of plea — Giving up grounds.*

A party to a suit may give up any of the grounds of relief before the case is decided,

PRACTICE—Abandonment of Plea.

(*Stuart and Kanhaiya Lal, A. J. Cs.*) HIRDE *v.* MUHAMAD ABDUL HASSAN KHAN.
30 I. C. 207 : 2 O. L. J. 335.

———*Abandonment of plea—Point cannot be argued at final disposal.*

A point which is abandoned by counsel when the case comes up for admission, cannot be allowed to be argued at the final disposal of the case. (*Pipon, J. C.*) GHULAM HAIDAR *v.* MANAGER, COMMITTEE SAMADH BABA PHULA SINGH.
73 I. C. 711

Additional Evidence.

———*Additional evidence—Not to be allowed in appeal.*

There is no precedent for allowing an appellant to lead evidence which could have been led in the Court below, in appeal. (*Macleod, C. J. and Kanga, J.*) MOTI CHAND RAOJI *v.* MANEKCHAND RAMCHAND GOJAR. 1922 Bom. 147.

———*Additional evidence—Second appeal.*

In second appeal, the party cannot urge that he should have been allowed to adduce evidence which was dispensed with in the first Court. (*Russel and Chandavarkar, JJ.*) PANNALAL *v.* GANU BAVAJI NHAVI. 12 I. C. 691 : 13 Bom. L. R. 1021.

———*Additional evidence—*Ex parte *decree—C. P. Code, O.* 41, *R.* 27 —Ex parte *case—Formal evidence given.*

Where plff. in an *ex parte* case gave formal evidence to prove his case, he might be allowed to give further evidence in appeal from such decree, if the appellate Court disagrees with the decree of the lower Court. (*Richardson and Huda, JJ.*) BROJESWAR *v.* SYAMA CHARAN. 50 I. C. 363.

———*Additional evidence—Appellate Court—Evidence.*

The appellate Court cannot admit evidence which becomes relevant because of the discovery of some documents which were previously out of the reach of the parties. (*Jenkins, C. J and Mookerjee, J.*) SHAIKH NURA *v* BAIKUNTHA NATH RAY. 30 I. C. 398 : 21 C. L. J. 596.

———*Additional evidence—Appeal.*

A party should be given an opportunity to prove a document if its importance is realized for the first time in appeal. (*Teunon, J.*) KIRTIBAS PANJA *v.* RAMA PADA BANERJEE.
22 I. C. 833 : 21 C. L. J. 574.

———*Additional evidence—Document not admitted in lower Courts—Admission in second appeal.*

A Court of second appeal ought not to admit a document which the lower Courts refused to admit on the ground that the same was not forthcoming at the first hearing of the case. (*Chamier, J. C.*) JAWALI SAHAI *v.* ABDUL GHAMI.
11 I. C. 289.

Adjournment.

See also C. P. CODE, O. 17.

———*Adjournment—Consent of parties.*

A court must always consider the convenience of parties and any contingency which may necessitate an adjournment. But it is not the business of the parties to decide when their suit shall be heard as the regulation of its procedure is entirely in the Court's discretion. (*Davar, J.*) MADHO PRASAD *v.* AJUDHAYA PRASAD.
10 I. C. 748 : 13 Bom. L. R. 161.

PRACTICE—Adjournment.

———*Adjournment—Payment of money on condition precedent—Effect of failure to pay.*

On a suit coming on for hearing, an adjournment order was made conditional on payment of a certain sum of money and "If the money is not paid by 1st June the suit will be dismissed with costs." The sum was not paid and the contention that the suit became *ipso facto* dead, being raised *held*, that if the order of adjournment contained the words "In default the suit will stand dismissed" no further order would have been necessary; but as it stood, a further order of Court was necessary before the suit was treated as dead (*Greaves, J.*) SEWARATAN *v.* KRISTO MOHAN SHAW. 48 Cal. 902 : 1922 Cal. 320.

———*Adjournment — Refusal — Prejudice—Retrial.*

Where on the day to which a small cause suit had been posted for trial both parties applied for time on the grounds that one of the material witnesses was unwell, that another had not brought the documents summoned, and that a third had not been served, and the Court refused the adjournment and tried the case on the merits, *Held*, that it was a proper case for the grant of an adjournment and there should be a retrial. (*Suhrawardy and Cuming, JJ.*) KHETRA NATH DAS *v.* MAHANANDA DAS. 65 I. C. 599.

———*Adjournment—Criminal case—When to be granted.*

An application by the prosecution in a criminal case, for adjournment on the ground that a co-accused was not present, does not entitle the other accused to a discharge. Nor is the absence of a co-accused a sufficient reason for the future postponement of proceedings. (*Teunon and Suhrawardy, JJ.*) BILLINGHURST *v.* MEEK.
61 I. C. 993 : 22 Cr. L. J. 465.

———*Adjournment—Refusal.*

At the first hearing, deft. applied for adjournment and for the issue of warrants against his witnesses who were absent. The Court adjourned the hearing but did not pass orders on the application for warrants. The defts. took no steps to secure the attendance of his witnesses and at the adjourned hearing, he again requested a further adjournment. *Held*, that the adjournment was rightly refused. (*Sundara Aiyar, J.*) ARUMUGAM PILLAY, *In re.* 15 I. C. 584.

———*Adjournment—Discretion of Court.*

Where a case has been definitely fixed for hearing and witnesses have been called and expense incurred, and if, owing to the default of one of the parties, the Court has no power to hear the case, the Court has a discretion to adjourn or dismiss it, but apart from an express provision of law, is not bound to grant an adjournment. (*Miller, C. J. and Mullick, J.*) RAMESHWAR SINGH *v.* HARIHAR JHA. 5 Pat. L. J. 390 : 57 I. C. 250 : 1 P. L. T 666 : 1921 Pat. 1.

PRACTICE—Adjournment.

——— *Adjournment and procedure—Notice of hearing—Parties not getting summonses not served in time—Court, power of.*

When parties had not taken the trouble to get summonses served on their witnesses in time for them to appear on the hearing day, the court should deal with the case on the materials at the time before it. (*Fox, C. J.*) MATHA *v.* P. L. M. M. CHETTY FIRM. **26 I. C. 240 : 7 Bur. L. T. 310.**

———*Admission—Suit against several defts.*

Where some of several defts. admit plff.'s claim, and the court makes an order of dismissal, the order should be confined only to those defendants who make the admission. (*Newbould and Suhrawardy, JJ.*) SHEIKH TABRIJ *v.* KEDAR NATH DUTT. **62 I. C. 773.**

———*Admissions—Suit on mortgage—Admission of portion of claim—Dismissal of suit, improper.*

If in a suit on a mortgage, the mortgagor admits that a certain sum though short of the amount claimed, is due to the plff. mortgagee, it is not proper to dismiss the suit altogether, on the ground that the mortgagee failed to produce the original mortgage deed. (*Woodroffe and Newbould, JJ.*) INDRA NARAYAN SARKAR *v.* BEDESWARI DASSYA. **30 I. C. 32.**

———*Admissions —Defendants — Co-defendants.*

An admission by one deft. will not bind another. (*Coxe and Chatterjee, JJ.*) HEYAT BAKHSH *v.* LACHMINIA, **22 I. C 916.**

———*Admissions—Plaintiff entitled to decree on admission of defence—Cause of action.*

The question whether there is a cause of action or not does not depend upon the admission of the deft. Where the plaint discloses a cause of action, the plff. is entitled to get a decree on the admission of the defence. (*Ross, J.*) BAUL DAS MISRA *v.* DIGAMBAR KURI. **65 I. C 644 : 1921 Pat. 297.**

———*Admissions must be taken as a whole.*

Where an admission by witness examined by opposite party is relied upon, the whole admission must be taken into consideration. (*Das, J.*) GOBIND PRASAD *v.* CHATURBHUJ. **60 I. C. 482.**

Amendment of plaints.

———*Amendment of plaint—Suit for dissolution of partnership and accounts—Guardian to be made deft. in personal capacity.*

Where the mother acting as guardian *ad litem* in a suit against minors for dissolution of partnership and for accounts, and the plff. finds some difficulty in obtaining decree, he cannot be allowed to amend his plaint by putting the mother as deft. in her individual capacity. Amendments.

———*Amendment—Trial Court.*

———*Amendments—Second Appeal.*

Where the plaintiffs had full opportunity to amend their plaint in the courts below, but never did so and there was nothing to prevent the plffs. from suing in the alternative in the first instance and basing their suit upon two alternative grounds and no explanation was put forward as to why the plaint was not framed in this manner. *Held* an opportunity to amend the plaint in second appeal by introducing an entirely new cause of action should be refused. (*Moti Sagar, J.*) KIRPA *v.* MT. CHINTI. **1923 Lah. 530.**

———*Amendment.*

Amendment of a plaint in a suit on a pro-note so as to make the suit one on the original consideration also upheld. (*Krishnan, J.*) SUNDARA AIYAR *v.* ARUMUGAM PILLAI. **44 M. L. J. 361 : 17 L. W. 374 : 32 M. L. T. (H. C.) 118 (1) : 1924 M. 520.**

———*Amendments—Suit for partition by one joint tenant against another—Death of deft.—Survivorship of rights—Procedure.*

In a suit by plaintiff against her sister for partition and possession of a moiety of the stridhanam property of their mother the defendant died after the passing of a preliminary decree, recognising plaintiff's right to half the property, but before the passing of a final decree after ascertainment, by metes and bounds, of such share. On applications by the plaintiff, one for having the deceased's daughter impleaded as her legal representa-

tive, and another for an amendment of the plaint to enable plaintiff to obtain a decree for the other moiety to which she claimed to be entitled by survivorship on the death of her sister, *held*, that the first application ought to be granted, but that the second must be disallowed.

The first that by the death of her sister the plaintiff has lost the character of a joint tenant and has acquired in its stead a right to the whole estate is not sufficient to deprive her of her original cause of action, when the proceedings have been instituted and have resulted in recognition of her right in a preliminary decree. The ascertainment of plaintiff's half share and the making of a final decree can be done against any person who like the person sought to be impleaded as legal representative has come into possession in succession to the deceased.

The case is no exception to the ordinary rule that an amendment should not be made to introduce a new cause of action. The cause of action assumed in the amendment is the death of the plaintiff's sister ; and that was not available when the original plaint was presented. Plaintiff must be left to sue separately for the other moiety. (*Oldfield and Devadoss, JJ.*) LAKSHMI AMMAL *v.* ALAMELU AMMAL. **18 L. W. 874 : (1923) M. W. N. 839 : 45 M. L. J. 811 : 1924 Mad. 309.**

———*Amendments—Pleadings—Revision.*

Where the amendment sought to be made for the legal representative for a party is virtually a denial that a certain transaction which is the basis of the suit is binding on the legal representative it ought not to be allowed. The limits to the amendment should be determined by the consideration whether it should have been granted if the deceased had made the application. In cases of conflict of interest between the deceased plaintiff and the legal representative the proper course for the legal representative is to file a separate suit to enforce his rights. Order allowing amendment was set aside in revision. (*Kumaraswami Sastri, J.*) INAGANTHI VENKATRAMA RAO *v.* U. R. R. D. K. VENKATALINGAMA NAYANIM. **15 L. W. 72 : 30 M. L. T. 204 : 42 M. L. J. 43 : 1922 M. 49.**

———*Amendment—Clerical error—Judgment—Review.*

When during an appeal, an official receiver resigned, a successor was appointed and the High Court ordered the previous official receiver's name to be deleted, the High Court by mistake added his name in the judgment order, it was held that there was a mere clerical error and it ought to be corrected and there was no ground for review. *Quaere* : Whether the decision was vitiated by not bringing the succeeding official receiver on record. ———*Amendment—Procedure—Pleadings.*

Different procedure and sanctions apply to (1) amending pleadings, (2) furnishing particulars, and (3) presenting a pleading subsequent to written statement, though it may be that disobedience to an order to do any of them may have the same result (*i. e.*) adverse decision in the suit. (*Oldfield and Tyabji, JJ.*) NARAYANASAMI AIYAR *v.* KRISHNAMURTHI AIYAR. **(1915) M. W. N. 122 : 26 I. C. 927 : 17 M. L. T. 48.**

Appeal.

See also C. P. CODE, S. 107 AND O. 41.

———*Appeal—Delay in filing—Implied extension of time by having appeal on the merits.*

Held, that by allowing the appeal to be argued on the merits and deciding it, the High Court had in effect extended the time for filing the appeal. (*Viscount Finlay.*) KRISHNA *v.* NALLAPERUMAL, **43 Mad. 550 : 22 Bom. L R. 568 : 18 A. L. J. 489 : 28 M L. T 28 : 12 L. W. 92 : (1920) M. W. N. 419 : 56 I. C. 163 : 2 U. P. L. R. (P.C.) 118 : 38 M. ———*Appeal—Delay in presentation—Procedure—Endorsement on memorandum of appeal.*

The question of delay in presentation of an appeal is to be determined at the stage of admission and not to be postponed till the final hearing. ———*Appeal — Delay in filing—Sufficient cause—Question of, to be determined before admission.*

Where there is delay in filing an appeal the question of excusing it for sufficient cause ought to be determined at the stage of admission of the appeal after notice to respondent. ———*Appeal—Right subject to grant of leave—Procedure.*

PRACTICE—Appeal.

Wherever any matter is appealable only after leave to appeal has been obtained, the memorandum of appeal should be accompanied by a petition for such leave. (*Piggott and Walsh, JJ.*) BALLI *v.* NAND LAL. **33 I C 773.**

——*Appeal—Respondent's case.*

A respondent can without filing cross-objections support the lower court's judgment on all points which may have been found against him by the lower court; on failure to do so, the appellate court will simply accept the findings of the lower court on those points. (*Holmwood and Chapman, JJ.*) NAGENDRA NATH GHOSE *v.* RAM BHAROSA HALVAI. **24 I. C. 68.**

——*Appeal—Party relying on documents must pay for printing.*

When a person has obtained a decree in his favour the onus is on the appellant in a Court of Appeal to show that the decision is wrong. This proposition no doubt is generally correct. But it is not the duty of the defendant-appellant to get those documents printed upon which the plaintiff-respondent relied in the Court below and on which to rely in the High Court. (*Scott-Smith and Moti Sagar, JJ.*) KARTAR SINGH *v.* LABH SINGH. **5 Lah. L. J. 190 : 1923 Lah. 355.**

——*Appeal—Right to—Suit where appeal is open.*

Where under the rules an appeal is provided against the order of a Municipal Committee refusing refund of customs duty, a suit for compensation for such refusal is premature before the institution of the appeal even though the procedure by way of appeal may be onerous. It is no doubt true that on appeal the whole case including the facts are within the jurisdiction of the Appeal Court. But where the issue is simple and straightforward and the only question is which set of witnesses is to be believed, the finding of fact of the trying Judge who has seen and heard

the witnesses and has had an opportunity of noting their demeanour, should not be lightly disregarded. ———*Appellate Court — Findings of fact—Appreciation of evidence.*

Per Richardson, J. :—A Court of appeal should in general be slow to differ from the trial Court, on a question of fact depending on the credibility and veracity of witnesses. But there are cases where the trial Judge has approached the evidence from a wrong standpoint or has applied to that evidence wrong standards of probability, or improbability. If a trial Judge says that a servant speaking for his master ought never to be believed, the appeal Court

is not obliged to accept his estimate of the servant's evidence. In such a case the question is not merely a question of the credibility of the particular witness but the witness has not been given a fair chance. They are verdicts or findings which are contrary to the weight of evidence. (*Richardson and Greaves, JJ.*) HEM CHANDRA ROY CHOWDHURY *v.* KRISTO CHANDRA SAHA

——— *Appellate Court— Question of fact—Decision of trial Judge, not to be lightly set aside.*

Where the issue involves a simple question of fact to be decided chiefly, if not solely on oral evidence, a court of appeal should be slow to set aside the finding of the trial Judge who had the witnesses before him. ——— *Appellate Court — Question of fact—Weight due to the trial court's decision.*

Where a case has been decided on oral evidence weight should be given by the Appellate Court to the opinion of the trial Judge who saw and heard the witnesses. The Court of Appeal should not allow an appeal unless it is satisfied that the Court below is wrong, the burden of proof being upon the appellant to show grounds for reversal. (*Sanderson, C. ——— *Appellate Court—Duties of—Weighing of evidence.*

The appellate Court must weigh conflicting evidence and draw its own inferences and conclusions, though it should always bear in mind that it has neither seen nor heard the witnesses, should make due allowance in this respect. If the decision of a question depends to a large extent upon the verbal evidence or witnesses examined before the trial Court which had the advantage of seeing and hearing the witnesses, the Appellate Court ought not to interfere with such a decision unless it is clear that Court has come to a wrong decision. *Per Woodroffe, J.* :— If after arguments an appellate Court has a conviction that the judgment under appeal is erroneous, it should not be affirmed and this is not the less so because the judgment raised a question of fact. ——— *Appellate Court-- Questions of fact—Opinion of trial Judge—When to be differed.*

——— *Appellate Court— Findings of fact—Interference.*

——— *Appellate Court—Appreciation of evidence—Evidence conflicting.*

In the case of conflicting evidence the Appellate Court in order to arrive at a proper appreciation of the same, must have regard for the opinion formed by the trial Judge in whose presence the evidence was given as regards credit to be attached to it. ——— *Appellate Court— Powers of-- Amendment of ground of appeal.*

An appellate court can issue commissions for the purpose of examining the accounts and remedying certain mistakes and omissions made by the previous commissioner and it would be perfectly justified in passing an order for the production

of additional evidence if it found itself unable to decide appeal on the record as it stood at that time. It has full discretion to direct an appellant at any stage to amend his grounds of appeal if they are not sufficiently clear. (*Scott-Smith and Abdul Raoof, JJ.*) MT. ——*Appellate Court—New plea.*

A new plea cannot be taken before an appellate court for the first time. **4 Lah. L. J. 516.**

——*Appellate Court—Discretionary powers—Subordinate Court—Power to grant relief*

The pendency of application for review in the original court could not preclude the Appellate Court from hearing the appeals.

In the exercise of its discretionary powers, if the Appellate Court refuses to extend time for filing objections, the Chief Court cannot interfere in appeal without adequate reason. The principle of law is to the effect that when an Appellate Court is seized of the case, and is empowered by law to grant the relief claimed by the applicant, the latter should have recourse to the Appellate Court, and not to the Subordinate Court. (*Shadi Lal and Le Rossignol, JJ.*) THE PUNJAB SIND BANK, LTD., LYALLPUR *v.* RAM KISHEN. **35 I. C. 529 : 156 P. L. R. 1916.**

——*Appellate Court—Finding of fact by trial Court—Weight of.*

In all cases, where there is an appeal on questions of fact, it is a good working rule that the appellate tribunal will not lightly interfere with the findings of fact of the Court below. This rule applies most strongly where there has been a conflict of oral testimony and the judge had the advantage of seeing the witnesses and of observing their demeanour. But it is a rule which should not be pressed too far for there are many cases where there has been a conflict of evidence in the Court below in which the Court of appeal is bound to give effect to its own view if it differs from that of the judge, *e g.*, probabilities may be strongly against the view of the judge or there may be documents consistent with the evidence of appellant and inconsistent with that of respondent, etc. The demeanour of witnesses is not invariably a safe guide to the truth of their evidence. ——*Appellate Court—Findings of fact by trial Judge.*

Per *Seshagiri Aiyar, J.*—The question which an appellate Court has to put before itself on a question of fact is not what its decision would have been, had it been the trial court, but whether there are sufficient grounds for not accepting the conclusion of the trial Court. ——*Appellate Court—Powers of.*

The functions of an Appellate Court are not the same in England and America as in India and consequently great care has to be exercised before the decisions based on practice and procedure of a highly technical character are followed in considering questions arising under the C. The appellate Court should be very careful in disturbing the finding of the lower Court based on facts when the Court, who heard and saw them disbelieves them. (*White, C.J. and Spencer, J.*) MARMAVULA *v.* ANNAPURNI. **10 M. L T. 304 : 12 I. C 393 : (1911) 2 M. W. N. 330.**

——*Appellate Court—Findings of fact—Appreciation of evidence.*

Per *Kanhaiya Lal, A. J. C.*—The object of an appeal is to obtain a pronouncement from the Appellate Court both on law and facts, and the discretion of the Appellate Court is unrestricted. In many instances a trial Judge is in a better position to appraise the value of the oral evidence before him and where the issue is simple and straightforward, the findings of facts arrived at by him are entitled to weight. But where the evidence in a particular case, consists of the statements of the persons whose evidence is tainted, and there are circumstances showing that the signature and the handwriting of the alleged testator on the will are not genuine, the Appellate Court would look into the evidence as a whole and come to such conclusion as the materials placed before it and the circumstances proved might justify. (*Kanhaiya Lal and Daniels, A. J. Cs.*) SHEO BAHADUR SINGH *v.* BENI BAHADUR SINGH. **51 I. C. 419: 6 O. L. J. 178.**

——*Appellate Court—Evidence — Appreciation of.*

An Appellate Court ought not to differ from the trial court unless there are strong and weighty reasons for doing so. But the appellate court has certain responsibilities and is bound to examine the evidence with a view to see whether in giving judgment the trial judge did not misdirect himself. ——*Appellate Court—Findings of fact—Reversal of.*

A court of appeal should not readily disturb the findings of fact arrived at by the trial Judge even if it might be inclined to take a different view from reading the evidence but if the Appellate Court is satisfied beyond all reasonable doubt on considering the evidence that the findings were erroneous then it ought to interfere

In a partition suit a relation of one of the parties or their pleader is not to be appointed as a commissioner except with the consent of the other party. (*Piggott and Walsh, JJ.*) ISLAM FATIMA *v.* LAINUDDIN. **39 I. C. 951.**

——*Commissioner—Damages—Assessment—Reference to Officer of Court*

Cases are not to be referred to other persons for assessing charge, etc., except when the enquiry involves questions of detail, resulting in waste of time, (1890) 6 T. L R. 356 Foll., *e.g.* the market rate of coal in a suit for breach of contract to supply coal can be ascertained by the Judge without referring it to assessors. (*Jenkins, C. ——*Commissioner—Powers of—Examination of witnesses—Discretion.*

The Commissioner appointed by the Court has complete power to stop proceedings and to take the direction of the Court whenever it appears to him that the pleader cross-examining a witness is abusing his position, and exceeding the limits of propriety, and the Court, in appointing a Commissioner, should in each case give him instructions so as to make it clear to him that he is not so powerless as it is imagined, and that he should exercise his power and stop proceedings for the purpose of taking the direction of the Court whenever he should think that it is necessary to do so. ——*Costs—Witness—Travelling expenses—Liability of unsuccessful party to pay.*

No doubt the party who summons a witness pays his travelling expenses in the first instance. But, clearly, if it is successful he is entitled as against the unsuccessful party against whom costs are awarded to recover all proper expenses including travelling expenses, incurred by summons of the witness and paid in the first instance by the successful party. (*Greaves, J.*) HARA SUNDER MAJUMDAR *v.* LAHAMBAR SINGH **1923 C 315.**

——*Costs—Principle of—Award in mofussil and metropolis.*

The practice in the mofussil is that costs should depend on the result of the case and it is usual when a suit partly succeeds for proportionate costs to be given. The important difference between cases in England and on the original side of the High Court and cases in the mofussil is that in cases in the mofussil costs are much more directly proportionate to the amount claimed. ———*Costs—Redemption suits.*

In redemption suits, a mortgagor is ordinarily entitled to costs unless he forfeits his right to it by laches. In Malabar, though question of compensation complicates redemption suits, yet where the mortgagor fails to deposit even the mortgage amount in full, the mortgagee must be given the costs of the suit. Discretion

———*Discretion — Appellate Court — Interference when proper.*

It is opposed to sound practice for an appellate court to substitute its own discretion for that of the court from which an appeal has been preferred unless the court below has acted capriciously or in disregard of any legal principles in the exercise of its discretion. (*Sir Lawrence Jenkins.*) REHMAT-UN-NISSA BEGUM *v.* PRICE. **42 Bom. 380 : 22 C W.N. 601 : 16 A. L. J. 513 : 27 C. L. J 623 : 5 Pat. L. W. 25 : 23 M. L. T. 400: 8 L. W. 53 : 20 Bom. ———*Discretion — Appellate Court — Interference when to be made.*

Where in the exercise of a judicial discretion a judge fails to apply a rule laid down for its exercise, the appellate court should either remit the case or itself exercise the discretion (1891) A. PRACTICE—Discretion.

——Discretion—Appellate Court.

Where a Judge assumes that there is no general rule for exercising discretion when in fact there is one, he misdirects himself and the superior court must either remit the case or exercise the discretion itself (*Lord Dunedin*) BRIJ INDAR SINGH *v.* LALA KAMSI RAM. **45 Cal. 94 : 22 M L T. 362 : 6 L. A. 218 : 42 I C. 43 : 38 M. L. J. 486 (P. C.)**

——Discretion—Exercise by Superior Court

If a judge who purports to exercise discretion does so under the impression that there is no general rule, where in fact there is one, he cannot exercise judicial discretion and the superior Court must either remit the case or itself exercise the discretion. (*N.R. Chatterjea and Panton, JJ.*) THEKAMANI DASI *v.* PITAMBAR BHUIYA. **62 I. C. 957.**

——Discretion—Appellate Court.

The court of appeal ought to be slow to interfere with an exercise of a discretion by the Lower Court. (*Jenkins. C.J., Mookerjee and Richardson. JJ.*) AHMAD MUSAJI *v.* MAMOOJI MUSAJI, **31 I. C. 315 : 22 C. L. J. 293.**

——Discretion — Appellate Court — Interference.

In the matter of appointment of a guardian for a minor the appellate court will not interfere with the discretion of the lower Court unless weighty reasons have been made out for setting it aside. (*Mookerjee and Beachcroft, JJ.*) NIRODE BARAN DEBYA *v.* BHOLANATH SARKAR. **26 I. C. 30.**

——Discretion — Appellate Court — Interference with discretion of Lower Court.

——Discretion—Appellate Court.

A Lower Court cannot use judicial discretion when the Appellate Court gives specific directions. (*Abdur Rahim and Sundara Aiyar ,JJ.*) MOHIDDIN KUPPAYYA *v.* MARYAN KANNI. **10 M. L. T. 284 : (1911) 2 M W. N 240 : 12 I. C. 139 : 21 M. L J. 1018.**

——Discretion—Co owners—Interference.

——Discretion—Appellate Court ought not to interfere.

An Appellate Court ought not to interfere with the discretion exercised by the Court below because upon the materials before it, it might have arrived at a different conclusion. But when that discretion has not in fact been exercised at all it is certainly open to the party aggrieved to raise the question on appeal 41 Mad. 412 (P.C.), Ref. (*Miller, C. ——Ejectment—Partition suit by Hindu sons for possession of property improperly alienated by their father—Suit allowed—Decree, form of.

In a suit by Hindu sons for possession of property improperly alienated by their father, the decree which allows the sons' claim should direct recovery of the whole property declaring at the same time that the purchaser had acquired the share and interest of the alienor and is entitled to take proceedings to have it ascertained by partition. 11 I.A. 26, Ref. But if there is an alternative prayer for partition, the Court should at once decree partition as the theoretical objection to it disappears. (*Scott, C. ——Ejectment—Title—Pleadings.

A sued B for possession of certain property. A claimed under a registered deed of gift made by the daughter of the last owner of the property. B claimed as the adopted son of the last owner. The question to be decided was whether B, failing in his defence as to adoption, could set up that A's deed of gift was invalid. *Held*, that B could not set up that plea. He could not rely on the ground of attack open to the donor if the latter sued the donee, within limitation, to set

———*Evidence—Appreciation of.*
Where a witness states that he could see and did see, in apparently very short time, that a certain quantity of land had not been cleared, the statement can be disbelieved as being improbable only if cross-examination is directed to the impracticability of forming a judgment by mere inspection even with the aid of glasses, as to the proportion cleared. ———*Evidence—Appreciation of--Credibility of witnesses.*
When the question is whether a witness is speaking the truth or not, light is thrown upon it by the demeanour of that witness in the box, by the manner in which he answers questions and how he seems to be affected by the questions that are put to him and so on. No doubt there the trial judge has an advantage which cannot possibly be shared by any appellate Court. But when the views upon credibility are founded upon argumentative inferences from facts which are not disputed, then the Court of appeal is in just as good a situation as the judge of the first instance. PRACTICE—Evidence.

If a court sees good reason to distrust a medical certificate presented on behalf of a party, its proper course is to summon the doctor or medical officer who has given the certificate and to insist upon his attendance. ———*Evidence.*

When a plaintiff brings a trumpery suit which has no foundation in fact, the first rule upon which the defendant can rely is that he is entitled to call the best evidence which he has; the second rule is that it is not what appears to somebody else to be necessary after the event has been decided but what would appear to be necessary to a reasonable person before the day of the trial; the third rule is that the necessities of the defendant must be judged by the nature of the defence and not by the magnitude of the claim. Where a witness was called in a case and the First Court relied upon his evidence and described him together with three others as respectable and reliable and as has having testified that the defendant had been in possession for more than twelve years, the defendant had the right to summon such a witness. Where a local witness is transferred, and he is absent at the time of trial, it is a misdirection to describe him as other than a local witness. ——— *Evidence — Appreciation of—Attention paid to witnesses speaking in good character of accused.*

A Court in taking proceedings under S. 110, Criminal Procedure Code, ought to pay particular attention to the evidence of witnesses produced by accused about his good character, and though not bound to believe, should have good reason to disbelieve such evidence before making an order. ——*Judge — Local inspection—Magistrate, when to make*

A local inspection by a Magistrate must be held sparingly and only to understand the evidence in the case and it should never be substituted for evidence in the case. The party against whom the result of the inspection is used, is greatly prejudiced and is put to irreparable disadvantage in not being able to remove the wrong impression from the mind of the Magistrate and the danger is intensified by the Magistrate holding the local inspection *ex parte*. ——*Judgment—Vague—Remarks.*

Where the lower appellate court reverses the judgment of the lower court on the ground that the plaintiff has failed to discharge the burden of proof which lay very heavily upon him, and dismissed the suit, without at all considering the evidence, *Held* in second appeal that the appellate trial was not proper. (*Gokul Prasad, J.*) BHAGWAN SAHAI *v.* GOPAL RAI. 1923 A. 412.

——*Judgment—Suspicion not a ground of decision.*

When there are circumstances which make the evidence suspicious, the Court must take care that its decision does not rest upon suspicion but on legal grounds established by legal necessity. (*Lord Phillimore.*) MANIKLAL MANSUKHBHAI *v.* BIJOY SINGH. (1921) M. W. N 80: 62 I. C. 356 : 25 C. W. N. 409 (P. C.).

——*Judgment—Statements in, as to admission of pleader—Value of—Rebuttal.*

The suggestion that the judges of the High Court might have misunderstood the conduct of the pleader in making certain admissions, could not be entertained in the absence of anything showing that the pleader called the attention of the court to the fact that the statement in the Judgment regarding his conduct was wrong while the matter was still fresh in the minds of the judges. An affidavit filed before the Judicial Committee long afterwards by a person who said he was present at the trial and the pleader made no admission as stated and the fact that the pleader was unable to recall whether in fact he made the admission or not, are wholly insufficient to prove that the statament in the judgment was erroneous. Where a new point, raised before the appellate court is one of law to be decided without any further evidence it is the duty of the appellate court to entertain it. (*Broadway, J.*) YAKUB KHAN *v.* KARMAN. **66 I. C. 466.**

———*New plea—Appellate Court—New case—Not to set up.*

A Court of appeal cannot set up a case for any of the parties which they do not put forward in the pleadings. (*Scott-Smith and Martineau, JJ.*) MAULA DAD *v.* MUSSAMMAT BEGAM. **51 I. C. 751.**

PRACTICE—New plea—Appellate Court.

——*New plea—Appellate Court.*

An appellate Court cannot decide in favour of a person on a plea not raised by him before the first Court. (*Chevis, J.*) MURAD ALI *v.* CHIRAGH DIN. **104 P. L. R 1915 : 28 I. C. 550 : 40 P. W. R. 1915.**

——*New plea—Appellate Court—Prejudice.*

Where plaintiff's suit for declaration of title was dismissed on the ground of estoppel and the first appellate Court gave a decree to the plaintiff on the ground of adverse possession, *held*, that the appellate Court was wrong in deciding question of adverse possession without giving opportunity to defendant to adduce evidence on that point. (*Scott-Smith, J.*) KAISTH BANK, LIMITED *v.* EQIBAL HUSAIN. **21 P. L. R. 1915 : 28 I. C. 50 : 236 P. W. R. 1915.**

——*New plea—Appellate Court.*

An appellate Court should not allow a new case to be set up in appeal. (*Shah Din and Scott-Smith, JJ.*) MUSAMMAT THAKRI *v.* GURDIT SINGH. **57 P. W. R. 1913 : 19 I. C. 253 : 120 P. L. R. 1913.**

——*New plea—Appellate Court—Pleadings—Point arising out of—No issue.*

An appellate Court is competent to base its decision on a point arising from the pleadings if there is evidence in the record regarding it, although it was not expressly taken before the Court nor covered by any issues raised. (*Kanhaiya Lal, A. J. C.*) GAURI SHANKAR *v.* ABBAS BEG. **46 I. C. 12 : 5 O. L. J. 165.**

——*New plea—Appellate Court.*

A new case cannot be allowed to be set up on appeal. (*Lindsay, J. C.*) FARKHUNDI ALI *v.* MOHAMMAD SAHIB. **44 I. C. 624 : 4 O. L. J. 731.**

——*New plea—Appellate Court.*

In a mortgage suit where necessity is disproved, the creditor cannot be allowed to ask in appeal for a simple money decree inasmuch as the deft. had not been allowed to prove immorality. (*Lindsay, J. C.*) BUDHANLAL *v.* JAGGANNATH. **34 I. C. 757 : 3 O. L. J. 214.**

——*New plea—Appellate Court.*

When objections as to admissibility of documents are not raised in Court below they cannot be entertained in an Appellate Court. (*Coutts and Dass, JJ.*) RAM LOCHAN MISSRA *v.* HARI NATH MISSRA. **3 Pat. L. T. 397 : 1 P. 606 : 1922 P. 565.**

——*New plea—Appellate Court—Point of law.*

A point not urged in the Court below but which depends on the construction of a statute can be raised on appeal. (*Miller, C. J. and Adami, J.*) ALLAN MATHEWSON *v.* DT. BOARD OF MANBHUM. **1 Pat. L. T 269 : 5 Pat. L. J. 359: 58 I. C. 749 : 1920 Pat. 193.**

——*New plea—Appellate Court—New case not to be allowed.*

When the plaintiff makes a definite case of possession by himself in the plaint he cannot make in appeal an entirely new case of possession thro' co-sharers in order to save the bar of limitation. (*Sharfuddin and Roe, JJ.*) SINGHESWAR MISSIR *v.* RAMESHWAR JHA.) **34. I. C. 466.**

PRACTICE—New plea—Change of Case.

New Plea—Change of Case.

——*New plea—Change of case cannot be allowed in appeal.*

A plaintiff, basing his claim on an alleged gift, cannot in appeal be allowed to base his claim under an alleged contract not put forward in the Courts below, as it was a line of attack which the defendant had no opportunity to meet in the lower Courts. (*Sir Lawrence Jenkins, Viscount Cave, Sumner, and Sir John Edge.*) MALRAJU LAKSHMI VENKAYYAMMA RAO *v.* VENKATADRI APPA ROW. **19 A. L. J. 97 : 38 C. L. J. 171 : 13 L. W 256: (1921) M.W. ——*New plea—Change of case.*

When a suit has been tried out on a certain basis in the Courts below the decision of those courts will not be allowed to be interfered with upon a plea which was not merely not raised by a party in those Courts but which is contrary to and inconsistent with the position there taken up by that party. (*Mears, C.J. and Piggott, J.*) IQBAL HAIDAR KHAN *v.* WASI FATIMA BIBI. **45 A. 53 : 1923 A. 358.**

——*New plea—Change of case—Not to be allowed to be made without giving opponent opportunity to meet it.*

In a suit for pre-emption, deft. resisted plff.'s claim on the strength of deed of gift which not being questioned in the trial, plaintiffs's suit was dismissed. On appeal, plff. challenged the validity of the gift deed on the ground of want of proper attestation and that attestation had not been proved. *Held*, that the plff. having by implication admitted the validity of gift at the trial ought not to challenge it in appeal. At any rate the appellate Court ought not to have entertained the objection without affording deft. opportunity of proving the due attestation. (*Tudball and Rafique, JJ.*) LALTA PRASAD *v.* NASIR KHAN. **56 I. C. 179.**

——*New plea—Change of case—Suit on mortgage executed by father—Personal decree against son, if proper,*

Where a suit for sale of the mortgaged property against the son of the executant was dismissed, *held*, that simple money decree could be given inasmuch as it would entirely change the cause of action. (*Richards, C. J. and Rafique, J.*) MUNSHI LAL *v.* MANGAT RAI. **31 I. C. 706.**

——*New plea—Change of case—Formal defect—Non-objection cures defect.*

Per *Marten, J.*—Where the issue was wide and both parties led evidence on a point not concerned by the pleadings, no party can object to the evidence as being not covered by the pleadings. he cannot turn round and change his case and claim redemption, on the footing that the mortgage is good and enforceable. 17 C. W. N. 219 : 5 C. L. J. 527 ; 5 C. L. J. 653 ; 3 C. W. N. 325 Ref. (*Chatterjee and Pearson, JJ.*) NITYA GOPAL TEWARY *v.* RAMSASI ROY. **1923 Cal. 296.**

———*New plea—Change of case—When allowed and when disallowed—Reason of the rule—Ejectment.*

Neither party to a litigation can be allowed to set up at the hearing an entirely new and inconsistent case. 11 M. I. A 7 and (1914) A. C. 461 Ref. The reason for the rule has been stated to be in substance that the parties might otherwise be seriously prejudiced. The plaintiff might have received no notice that the point would be raised by the defendant and would presumably be not prepared with the necessary evidence, and conversely, the defendant might be seriously embarrassed if the plaintiff were permitted to spring a surprise upon him in the shape of of a new case. Consequently when an objection of this kind is taken, the test to be applied is whether the party aggrieved has really been taken by surprise. (*Mookerjee and Panton, JJ.*) GONDLI BIBI *v.* JOYLAL ABDIN. **26 C. W. N. 294 : 35 C. L. J. 103 : 1922 Cal. 254.**

———*New plea—Change of case—Suit on title—Prescriptive title, relief on.*

Where a person sues for declaration of title alleging title and also possession for a long period, he can be given relief on the strength of a title by adverse possession, especially where defendants denied any sort of possession in plaintiff. (*Newbould and Panton, JJ.*) SATYENDRA NARAIN BAGCHI *v.* SASHI BHUSAN CHOWDHARI. **48 I. C. 448.**

———*New plea—Change of case—Suit on proprietary title—Right to management of Waqf.*

A suit on proprietary title cannot be allowed to be altered into one for ejectment on the basis of a right to the management of a waqf as it would be to alter the nature of the case. (*Rattigan and Chevis, JJ.*) RAM DAS *v.* DAULAT RAM **114 P. W. R. 1913 : 18 I. C. 807 : 225 P. L. R. 1913.**

———*New plea—Change of case.*

Suit for enforcement of lien for non-payment of purchase money directed to be paid to a third person was not allowed to be treated as a suit for an account on the basis of agency or a suit for damages for non-performance of a contract. ———*New plea—Change of case—No allegation of title by prescription.*

A relief which is not based on the pleadings as they stand but on certain allegations which ought to have been made, but are not definitely set up cannot be granted where the suit as brought will be turned into another and a different sort of suit. The fact that the plaint contains a vague prayer to the effect that the Court may

grant any other relief which it may deem proper, does not affect the question. (*Stuart, A. J. C.*) SITAPA BEGAM *v.* MUHAMMAD ISHAQ KHAN, **32 I. C. 365 : 2 O. L. J. 584.**

New Plea—Costs.

———*New plea—Costs.*

The objections founded upon Ss. 42 and 43, C. P. C. (O. 2, R. 2, C. P. C.) ought to have been raised in the lower Courts and the deft. was too late to raise the point in the Court of appeal except upon terms which would have indemnified the plff. for omission to raise it at a proper time. (*Lord Robson.*) MAUNG PE *v.* MA LON MA GALE. **38 Cal. 629 : 15 C.W.N. 766 : 8 A. L. J 739 : 13 Bom. L. R. 464 : 14 C. L. J. 15 : (1911) 2 M. W. N. 397 : 4 Bur. L. T. 153 : 6 L.B R. 18 : 11 I. New Plea—Formal defect.

———*New plea—Formal defect.*

Objection to a defect in signature on a petition cannot be raised in appeal for the first time. (*Jwala Prasad and Adami, JJ.*) BRAJA SUNDER DEB *v.* SIVARANJAN DEI. **59 I. C. 282 : 1 Pat. L. T. 647.**

New Plea—Limitation.

———*New plea—Limitation—Second appeal—Plea requiring fresh evidence on a question of fact.*

Per *Piggott, J.*—A plea even of limitation requiring for its determination fresh evidence on a question of fact cannot be properly put forward for the first time in the second appeal. (*Piggott and Lindsay, JJ.*) BABU LAL *v.* JALAKIA. **37 I. C. 343 : 14 A. L. J. 1146.**

———*New plea—Limitation.*

Although a plea of limitation can be raised at any stage of the suit and even for the first time in appeal a special plea of limitation ought to be taken in the written statement. The defendant must raise question of special limitation in the written statement where the determination of that question depends upon a finding of fact, e.g., the fact as to when service of the notice of the deposit was made on the landlord. (*Ghose, J.*) SADA KALI KHAN *v.* JANAKHINATH SINGHA ROY, **1924 C. 463.**

———*New plea—Limitation—Appeal.*

Points of limitation should not ordinarily be allowed to be raised for the first time in appeal where they involve a question of fact. (*Woodroffe and Cuming, JJ.*) SECRETARY OF STATE *v.* ANANDA MOHAN ROY. **66 I.C. 287: 34 C.L.J. 205.**

———*New plea—Limitation—Execution—Sale.*

A judgment-debtor having notice of an execution application and not objecting to it at the time of the issue of the sale proclamation, is not competent to challenge the validity of the sale, on the ground that the execution was barred by limitation. New Plea—Question of Fact.

———*New plea—Question of fact cannot be raised for the first time in appeal.*

Points involving issues of fact not specially raised in the Court of first instance ought not, in the absence of anything to show that the materials on the record are complete, or that the opposite party would not be taken by surprise, to be allowed to argue for the first time in appeal. (*Buckland and Cuming, JJ.*) MOHENDRA CHANDRA *v.* MUZAFAR. 63 I. C. 497.

———*New plea—Question of fact—Estoppel.*

Questions of estoppel which ultimately depend on questions of fact, cannot be raised in argument unless put clearly in issue. (*Sharfuddin and Coxe, JJ.*) SAFAR ALI *v* MOHESH LAL.
34 I. C. 956 : 23 C. L. J. 122.

———*New plea—Question of fact not challenged on appeal—Appellate Court cannot reverse finding.*

In a memorandum of appeal the finding as to the land being ancestral was not challenged but the District Judge took up this question and, holding that the land was not proved to be ancestral, accepted the appeal. *Held*, that to allow such a point to be raised in arguments long after the period of limitation for appeal had expired would practically amount to allowing a party to prefer a new appeal. (*Chevis, J.*) JIWAN SHAH *v.* FATEH BIBI. 67 I. C. 44 (1) : 3 Lah. L. J. 165.

A plea raised on a *vakkar* drawn up at the first hearing though not raised by the written statement could be considered by the Courts. (*Richards, C. J. and Banerjee, J.*) KISHUN SAHAI *v.* GANGA BUX. 25 I. C. 408 : 12 A. L. J. 455.

———*New plea—Question of law—Appeal—Vakalatnama—Pleader's name left out by oversight—Whether presentable.*

Where in a vakalatnama the pleader's name has been omitted by oversight, there is no due appointment of the pleader and the appeal is not on that account properly presented. This objection can be taken at any stage of the case. (*Richards, C, J. and Banerjee, J.*) MUHAMMAD ALI KHAN *v.* JASRAM. 36 All. 46 : 23 I. C. 464 : 11 A. L. J. 1015.

———*New plea—Question of law.*

A pure question of law, though not raised in the primary Court nor mentioned intne memo. of appeal and is not one of jurisdiction of the Court to entertain the suit, can be raised in appeal, if it goes to the very root of the matter and raises the question whether the Court was competent to grant the relief claimed. ———*New plea—Question of Law—Appeal.*

The Court of Appeal may allow a question of law to be raised for the first time in appeal when it thinks necessary and expedient in the interest of justice, but not unless the Court is satisfied that the evidence establishes beyond doubt that the facts if fully investigated would have supported the new plea (*Mookerjee and Beachcroft, JJ.*) BASI MOHAN MALAKAR *v.* GOBINDA CHANDRA KARMAKAR. 22 I. C. 553.

———*New plea—Question of law—Waiver—When to be raised.*

As a question of waiver is a mixed question of fact and law it ought not to be allowed when the proceedings have gone a good way. (*Mookerjee and Teunon, JJ.*) BASANTA KUMARI *v.* RAM KANI SEN. 9 I. C. 698 : 13 C. L. J. 192.

———*New plea—Question of law—Appellate Court.*

Although the objection that the suit was barred by S. 66, C.P.C., had not been raised in the Court below or in the grounds of appeal, the question being one of law, it was allowed to be argued in appeal on the understanding that effect would be given to any defence that respondent might have set up had the matter been agitated in the Court below. PRACTICE—Parties.

———*Notice of hearing—Retrial—Notice.*

Neither party is entitled as of right to a notice intimating the date fixed for the rehearing of the case, when a case is remanded for retrial to the first Court. This rule applies both to Berar and the Central Provinces. But in fixing a date for hearing the case, the Court should select such date as will give the parties a reasonable opportunity of ascertaining the date fixed. 17 W. R. 70 Ref. (*Batten, A. J. 63 I. C. 109.

——*Pleader—Duty to disclose documents.*

An Attorney must be very careful to ascertain what exactly are the documents in the client's possession and if he finds that there are documents which have not been disclosed he must at the earliest moment bring them to the notice of the opponent and give him an opportunity of inspecting them. No step, however, need be taken against the attorney unless the question is of such a serious nature that it is in the interests of the profession as a whole and of the litigants in general that a full enquiry is to be made into it by a Special Bench. PRACTICE—Pleader.

———*Pleader—Action of—How far binds client—Liability for action of clerk.*

In the eye of the law a pleader is responsible for any fraud practised by his clerk on his clients. He is completely responsible for the acts and defaults of his clerk if he relegates to the clerk the duties which he owes to his clients because he cannot be allowed to so relegate. Fraud or gross negligence, amounting in law to fraud, of a pleader is not binding on the client and a court can restore an appeal dismissed on account of such fraud on the part of appellant's pleader. (*Sundara Aiyar and Spencer, JJ.*) MURUGA CHETTY *v.* RAJA SWAMI.

14 I. C. 823 (2).

———*Pleader — Duty of pleader to court and client.*

Where a pleader received printing charges from his client, but did not deposit them in court and the appeal was dismissed for non-appearance, but his clerk informed the client after such dismissal that the appeal was decided against him and the pleader gave no explanation to the court nor did he inform the true facts to the client, *Held*, the pleader was guilty of unprofessional conduct. It was the duty of the pleader to inform the court as well the client of the true facts. (*White, C.J., Sankaran Nair and Ayling, JJ.*) G. KRISHNASWAMI AIYER, *In re.* **14 I. C. 965.**

———*Pleader*--Vakalatnamah—*Name of pleader intended to be engaged not filled up—Effect of.*

45 All. 571 : 1924 A. 150.

——*Pleadings — Proof — Variance between —Rule against—Scope of*

As a general rule parties should be kept to their pleadings, but this is not of universal application and every variance between pleading and proof is not fatal. The rule that the pleading and proof must correspond is intended to serve a double purpose ; first to apprise the defendant distinctly and specifically of the case he is called upon to answer ; and secondly, to preserve an accurate record of the cause of action as a protection against second proceeding upon the same allegations. The test is whether the defendant will be taken by surprise if relief is granted on facts established by the evidence A variance between a pleading and what is proved is immaterial unless it hampers a defence or unless it relates to an integral part of the cause of action. The Court will depart from the rule that proof must conform

When the case made in a plaint in a suit for specific performance, of a contract embodied in a certain document, is thoroughly broken down, the plff. cannot abandon the case and request the Court to decide from the correspondence resulting in the execution of the deed of contract. As a rule variance between pleading and proof cannot be permitted, especially when, if permitted, the other side would be taken by surprise, or be prejudiced. This rule is strictly applied to suits for specific performance, but in case of part performance, the Court may instead of dismissing the suit struggle with the apparently conflicting evidence. The main principle of practice is that plff. can only recover according to his allegations and proofs 11 B.L.R. 391 (P C) ; 8 L B. R. 334, ref. If plaintiff claimed restitution of the whole amount of a decree on a pro-note which he was jointly liable with the defts. on the ground that he was only a surety for them, but it was found that he borrowed the money for partnership purposes the plff. could not be given a decree for contribution. Pleadings—Variation.

———*Pleadings — Variation—Proof—When fatal to suit—Variance not affecting cardinal point in issue—Nature of the principle.*

Held that the High Court in relying for the dismissal of the suit on, amongst other grounds, that of variance between pleading and proof had applied that principle in an abstract and unsatisfactory way which had misled them in estimating the merits of the case. The question in ultimate analysis was one of circumstances and not of law. The evidence adduced in support of the transaction having been effected on the 7th Nov. was not necessarily perjured or fabricated when it appeared that the statements of witnesses and entries in account books might be due to *bona fide* mistake. PRACTICE—Pleadings—Variation.

———*Pleadings—Variation—Proof—Relief.*

Where both parties understood the real point in issue and give evidence, the fact that the pleadings subsequent to the plaint and the evidence disclosed facts at variance with the plaint is immaterial (*Rafique, J.*) JUGAL KISHORE *v.* GOMTI KUAR. **25 I. C. 280.**

———*Pleadings—Variation—When permitted.*

The principle is well established namely, that the determination in a cause should be founded upon a case either to be found in the pleadings or involved and consistent with the case thereby made, 11 M.I.A. 7 ; 14 C 801 ; 33 C.L.J. 171; 18 C. W.N. 473 ; 34 C.L J. 178; 34 C L.J 319 ; 34 C. L. J. 529 referred to (*Mookerjee and Chotzner, JJ.*) ANNADACHARAN SIL *v.* HARGOBIND SIL. **27 C. W. N. 496 : 37 C. L. J. 552: 1923 Cal. 570.**

———*Pleadings—Variation—When fatal.*

As a general rule parties should be kept to their pleadings, but this is not of universal application and every variance between pleading and proof is not fatal. The rule that the pleading and proof must correspond is intended to serve a double purpose ; first to apprise the defendant distinctly and specifically of the case he is called upon to answer ; and secondly, to preserve an accurate record of the cause of action as a protection against second proceeding upon the same allegations. The test is whether the defendant will be taken by surprise if relief is granted on facts established by the evidence. A variance between a pleading and what is proved is immaterial unless it hampers a defence or unless it relates to an integral part of the cause of action. The court will depart from the rule that proof must conform to pleading where it is satisfied that Justice will not be done between the parties if the suit were dismissed on a technical ground, with the prospect of a further litigation for the determination of a controversy then substantially ripe for settlement. (*Mookerjee and Chotzner, JJ.*) ANANDA CHANDRA CHAKRABARTI *v* BROJA LAL SINGH. **50 Cal. 292 : 1923 Cal. 142.**

———*Pleadings—Variation— Proof.*

Every variance between pleading and proof is not fatal. The objection must be one of substance. The rule is intended to safeguard the deft. against being taken by surpise and against a second proceeding on the same allegations. (*Mookerjee and Buckland, JJ.*) SATIS *v.* KALIDASI. **68 I. C. 577 : 34 C. L. J. 529.**

———*Pleadings—Variation—Proof.*

When a plff. sets up a prescriptive right, he cannot in fairness to the deft., be allowed to succeed on a customary right. (*Mookerjee and Panton, JJ.*) GOPALKRISHNA *v.* ABDUL. **66 I. C. 640 : 34 C. L. J. 319.**

———*Pleadings—Variation—New and inconsistent pleas—Test for allowing.*

Neither party to a litigation can be allowed to set up at the hearing an entirely new and inconsistent case. The plaintiff must be held to the state of facts alleged in his plaint or substantially consistent therewith. The defendant also must be held to the state of facts alleged in his written statement, or in harmony therewith. The reason for

the rule is in substance that the parties will otherwise be seriously prejudiced. The plff. might have received no notice that the point would be raised by the deft. and would presumably be not prepared with the necessary evidence, and conversely the deft. might be seriously embarassed if the plff. were permitted to spring a surprise on him in the shape of a new case. Consequently when an objection of this kind is taken, the test to be applied is whether the party aggrieved has really been taken by surprise. (*Mookerjee and Panton, JJ.*) GENDLI BIBI *v.* JOYNAL ABDIN SARKAR. **26 C. W. N. 294 : 64 I. C. 565 : 35 C. L. J. 103.**

———*Pleadings — Variation— Proof—Object of the rule against.*

Every variance between pleading and proof is not fatal ; the Court must carefully consider whether the objection is one of form or substance having in view the purpose which the rule that allegation and proof must correspond is intended to serve, *viz.*, first to apprise the defendant distinctly and specifically of the case he is called upon to answer so that he may properly make a defence and not be taken by surprise and secondly to preserve an accurate record of the cause of action as a protection against a second proceeding founded upon the same allegations (*Mookerjee and Panton, JJ.*) KUMAR SATISH KANTA KAI *v.* SATISH CHANDRA CHATTERJEE. **24 C. W. N. 662 : 55 I. C. 689 : 30 C. L. J. 475.**

———*Pleadings—Variation—Change of case.*

The determination in a cause should be based upon a case either to be found in the pleadings or involved in or consistent with the case thereby made, although the Court is competent to determine that the rights of the parties litigant are really different from what is alleged either by the plff. or by the deft. (*Mookerjee and Beachcroft, JJ.*) ISHAN CHANDRA DUBI *v* NISHI CHANDRA DUBI. **22 C. W. N. 853 : 41 I. C. 378 : 29 C. L. J. 1.**

———*Pleadings—Variation—Proof—Relief.*

Every variance between pleadings and proof is not fatal, though the determination of the case should be founded upon the allegations in the pleadings or involved in or consistent with the case made thereby. The rule that the pleading and the proof must correspond is intended to serve a double purpose, (1) to apprise the deft. distinctly and specifically of the case he is called upon to answer and (2) to preserve an accurate record of the cause of action as a protection against a second proceeding upon the same allegations. Where the plaintiff fails to make out the precise title set up in the plaint but the court comes to the conclusion upon the entire evidence that he is entitled only to one half of what he claimed, the court is entitled to give a decree therefor.
